OneFood Honey Company Profile

OneFood Bee Farm of Australia is a qualified Australian honey producer based in Perth, Western Australia. We provide packaged honey with our own Trade Mark Registered brands. Our company is well known for its production of honey with many special properties and health benefits and has appeared numerous times on ABC News broadcasting, TV, radio ad online articles. OneFood Honey Company is a council member of The Western Australia Jarrah Honey Promotion Committee and collaborate closely with researchers of Australian bee and honey to ensure and the exceptional and distinguished quality and appearance of our honey. In the last 16 years, our honey products have been exported to many different countries in the world where all quarantine and quality standards have been successfully met with no trouble on each export. We welcome all product enquires from genuine domestic retailers and oversea buyers.

Our honey is taken straight from the beehives, collected by our honeybees from Western Australia's virgin forest floras and is 100% natural. OneFood honey has not been genetically modified or processed in any way which help to remain its active properties and natural nutrition to the highest level possible. Our Natural Low GI Honey and Antioxidants Rich Honey are two types of special honey that are becoming noticed and growingly popular from both local and international customers which fit into an unique market niche with huge upside growing potentials.

In 2015, our honey products were on the Showcase of Fine Food of Australia 2015. In April 2016, OneFood's Jarrah Honey was selected by the Australian government as Australian's Gift to China for the Trade Mission event "Australian Week in China". In the last few years, our honey has become the best selling health food product in a number of Australian premium goods store, such as at international airports, luxury hotels and health food stores. In the next couple of years, our company will continue to be working hard on exploring our potential markets in the Asian regions and achieving a win-win situation with our business partners and cooperators.
