CONSTRUCTION PROJECTS.
Week of August 15, 2022

Ash Township

Carleton Rockwood Road between I-275 and Briar Hill Road

RAM Construction Services is scheduled to apply a concrete surface coating on the bridge railings on the Carleton Rockwood Road bridge over Swan Creek. One-lane, two-way traffic will be maintained with traffic regulators when work is being performed.

Ash/Berlin Townships

Chip Seal Project

The following roads are scheduled to be chip sealed during the upcoming week. The roads will be closed to through traffic while crews are working, and the roads will be swept the following day. Motorists are encouraged to travel at the advisory speed limit of 25 mph until the chip seal surface has been swept.

Briar Hill – Carleton Rockwood to Newburg
Carleton Rockwood – Grafton to US-24
Newburg – Railroad Crossing to Port Creek

Bedford Township

St. Anthony Road between Summerfield Road and Secor Road

Monroe County Drain Commission will be working with the Monroe County Road Commission and will be replacing the culvert crossing of St. Anthony Road at Bay Creek, approximately 2,000-feet west of Secor Road. The road will be closed to all traffic. Detour route includes Summerfield Road, Erie Road and Secor Road. Project is expected to take approximately (1) one week to complete, weather permitting.

Summerfield Road between Sterns Road and Secor Road

South County Water System will be installing a new water main along Summerfield Road between Sterns Road and Secor Road. During the water main work, Summerfield Road will be closed to through traffic between Sterns Road and Secor Road. The signed detour for the road closure will utilize Sterns Road and Secor Road.

Erie Township

Summit Street Bridge between Sterns Road and State Line

Miller Bros. will begin deck work on the east half of the bridge carrying Summit Street over Shantee Creek. Two-lane, two-way traffic will be maintained throughout work activities utilizing a temporary paved lane in the shoulder of Summit Street and a lane shift. All work is weather permitting

Frenchtown Township

Chip Seal Project

The following roads are scheduled to be chip sealed during the upcoming week. The roads will be closed to through traffic while crews are working, and the roads will be swept the following day. Motorists are encouraged to travel at the advisory speed limit of 25 mph until the chip seal surface has been swept.

Eaton – Dead End to US-24
Hendricks – Dead End to US-24
Rossler – Monroe City Limit to Stewart
Lavendar - Monroe City Limit to Stewart

North Stony Creek Road between Mentel Road to Dead End

North Stony Creek Road is scheduled to be closed to through traffic between Mentel Road to Dead End next week for removal and replacement of drainage cross tile. No detour route will be posted for this road closure due to the low traffic volume and short duration of the closure. All work is weather permitting.

Raisinville Road between M-50 and North Custer Road

RAM Construction Services is scheduled to apply a concrete surface coating on the bridge railings on the South Raisinville Road bridge over River Raisin. One-lane, two-way traffic will be maintained with traffic regulators when work is being performed

London/Raisinville Townships

Yensch Road between Stewart Road to Ostrander Road

Miller Bros. and Cadillac Asphalt are to begin next week on Yensch Road between Stewart Road and Ostrander Road it will include trench widening, aggregate and crush and shaping in preparation for the hot mix asphalt overlay. The road will be closed to through traffic. All work is weather permitting.

Monroe and Raisinville Townships

Raisinville Road between Dunbar Road and M-50

RAM Construction Services is scheduled to apply a concrete surface coating on the bridge railings on the South Raisinville Road bridge over Plum Creek. One-lane, two-way traffic will be maintained with traffic regulators when work is being performed.

Summerfield Township

Petersburg Road between Ida West Road and McCarty Road

RAM Construction Services is scheduled to apply a concrete surface coating on the bridge railings on the Petersburg Road bridge over River Raisin. One-lane, two-way traffic will be maintained with traffic regulators when work is being performed.
