https://apt2020.sciencesconf.org

Dear Sir or Madam,

The 6th International Conference on Accelerated Pavement Testing (APT) will take place on April 4-6, 2022 in Nantes, France. This face-to-face conference is hosted by IFSTTAR from Gustave Eiffel University with the supervision of the TRB Full-Scale and Accelerated Pavement Testing Committee (AFD40).

Following the success of the 5 previous conferences held in Nevada (1999), Minnesota (2004), Spain (2008), California (2012) and Costa-Rica (2016), the conference will attract more than 150 international experts coming from industry, academia, government and state agencies. It will give the opportunity for researchers and professionals to share their knowledge and experience on Accelerated Pavement Testing. APT provides valuable information about materials, designs, construction and maintenance techniques, instrumentation, etc.

The 6th APT conference is entitled **"Contribution of accelerated pavement testing to transport infrastructure innovation"** and will cover in particular the following topics: APT for asphalt concrete, APT for airfields pavements, testing of maintenance and rehabilitation solutions, testing of smart and multi-functional pavements, monitoring and non destructive testing, etc.

During the three days of the conference, the program will include three keynote lectures, around 80 oral presentations and poster sessions. The conference will be accompanied by an exhibition at the Nantes Conference center and visits of innovative test facilities. The closing day, organized at IFSTTAR, will give the unique opportunity to visit the IFSTTAR carrousel, one of the largest and fastest APT facilities in the world.

We are pleased to invite your company to take part to the success of this event as a sponsor or exhibitor!

As detailed hereafter, several packages have been tailored to offer a variety of sponsoring opportunities. For any question regarding sponsoring and exhibition or if you are interested in any specific option, you are kindly invited to contact the sponsoring committee of the conference at apt2020-sponsor@ifsttar.fr.

We hope that you will respond positively to our invitation and become a partner of the 6th International Conference on Accelerated Pavement Testing.

Sincerely,

Pierre HORNYCH
Chairman of the 6th APT Conference
