10 line 10 square football pool or sports pool.

#	Name _____

Players put their name on the line any line as many as they want. After the lines are filled draw the numbers. Usually done with a deck of cards. 1 suits for each side, ace through 10. Ace representing the 1 and the 10 representing the zero. This is how you win add both teams scores at the end of the game. Example if dallas has 13 and jets have 14 you add the 13 and 14 and you get 27 last digit is 7 and that is your winner.
