

SCOPE OF WORK – Addendum #1

The following **bold** text is hereby added to the Scope of Work.

I. Under Section 8. Clean Water Act:

Concurrently, the Tribe shall develop a compensatory wetland mitigation plan that satisfies the COE's requirements for both NEPA and Section 404 of the Clean Water Act. The Tribe shall meet with the COE to discuss and confirm assumptions about mitigation requirements in preparation for the development of a Section 404 permit application. (Note that securing the Section 404 permit is not a part of the SOW at this time.)

II. Under Section 10. NEPA/Environmental Deliverables:

Provide a compensatory mitigation plan for the Rural Water System Project designed to satisfy Section 404 of the Clean Water Act as interpreted by the governing COE official.
