

Internal Memo

Date: June 24, 2015

To: McMaster University staff, McMaster University Medical Centre staff, and HHS Leadership

From: Jack Pasalic, Facilities Management Construction Supervisor

Subject: **M.U.M.C.-South Parking Garage; Drainage System Replacement Project – Construction start**

Please be advised that South Parking Garage drainage replacement system project is scheduled to start on June 25, 2015 with tentative completion by August 1, 2015. The project will include removal and replacement of existing corroded steel drain lines with new P.V.C. lines, complete with insulation and electric heat tracing cables. Most of the construction work will be scheduled and performed during off hours or weekends.

Project Team, with help from Parking and Security Departments will take all necessary precautions to control traffic and avoid loss of parking spaces. We do expect some lane reductions and parking space closures during work above garage entrance ramps. We encourage all staff using South Parking Garage to be extra cautious and to observe and abide by construction signs.

Should staff have any concern, please contact Project Construction Supervisor, Jack Pasalic, 905-521-2100 ext. 75442. Cell: 905-870-0714 pasalic@hhsc.ca

We thank you for your patience.
