

PROFILE

SAP Consultant with visionary design and strong problem solving skills

- 20 years SAP experience
- **SD, LE, PP, MM, PS, QM, CO** configuration experience
- **VC** Variant Configuration, **ABAP** programming experience in several modules
- Coaching consultants and SAP Staff
- Excellent business know how in all areas of logistics in different industries
- Strong methodology knowledge

EXPERIENCE

Analysis

Identified key SD/LE/PP/MM/PS/QM business processes, mapped requirements to SAP, and identified gaps to be addressed during the design stage. Wrote handbook about the methodology to use for documentation of processes in analysis and design phase.

Design

Developed new cross functional business processes for SAP as a guideline for the detailed design in the different teams. Wrote SAP SD, LE, PP, MM, PS, QM scripts and training documents. Composed design specifications for new transactions and reports. Designed new functions and scenarios for using SAP on the Internet.

Configuration

Configured SD, LE, PP, MM, PS, QM modules in all important functions

SD: 14 Implementations

Master data, document types, incompleteness log, document flow, condition technique/pricing, requirements transfer and availability check, account determination, shipping, billing

LE: 10 Implementations

Outbound deliveries, picking, packing, goods issue, batch and serial number management, inspection lots, Transfer requirements, transfer orders, putaway, inbound deliveries

PP: 8 Implementations

BOM and recipes, work centers, master recipes, routings, process instructions, SOP, demand management, MRP, process orders, production orders, capacity planning, distribution planning, variant configuration, settlement

MM: 8 Implementations

Master data, MRP, forecast, purchasing, batch management, incompleteness control, inventory management (IM), warehouse management (WM), invoice verification

CO: 6 Implementations

Cost planning, cost estimates, material ledger, settlement, profitability analysis

PS: 6 Implementations

Work breakdown structures, activities, networks, scheduling, cost planning, budget management, assemblies for projects, resource related billing (RRB), integration to SD/MM/PP, reporting

QM: 2 Implementations

Basic data, inspection planning, inspection lot processing, results recording, sample management, quality certificates, quality notifications, integration to MM/PP/SD, vendor evaluation, reports

Trained functional consultants and supervised team members in their configuration work.

Ulrich Wolf

Development

- Made programming specifications for ABAP programs.
- Programmed reports, interactive programs, new applications, BAPI's, interfaces and enhancements in ABAP in several modules.
- Converted legacy data using LSMW, eCatt, BTC, IDOC etc.
- Created new Web Applications and B2B Solutions using SAP NetWeaver and other current Web Technologies
- Supervised and trained Programmers

Project management

Managed SAP implementations with several modules in all phases

Ulrich Wolf
