

Personal Project Summary

Date_____

Student Inventor _____
(Last name) (First name)

Answer each of the following questions briefly.
Use additional pages if necessary. Be sure your answers are readable.

1. How did I identify the problem?

2. How did I research the problem (for example, by trial and error, forming and testing hypotheses, and so on)?

3. How did I solve the problem? (Include steps taken to arrive at a solution and the results and reasoning to support the solution.)
