Profile 1975 -2008

Reiche Construction Incorporated is a family owned and operated firm. Carl Reiche, Jr originally established it as Reiche Construction in 1955. Our incorporation took place in 1975 with Carl Reiche, Jr. as President, Bradley Reiche as Vice President, and Barbara Reiche as Secretary.

Carl Reiche, Jr. has been a carpenter/general contractor for over 45 years. In the early years, he worked with his uncle and father as a carpenter in Oak Park on several Frank Lloyd Wright-designed homes. Since that time, he has created his own company based out of Roselle. He has contracted many projects all over the Chicago land area. In 1996, Carl retired from full-time work, but he still continues to play an important role within Reiche Construction. .

Bradley Reiche has worked as a carpenter with his father from the age of 18. He also holds a Bachelor of Science Degree in Business from U.I.C. Since his father's retirement, Bradley presides as the President of Reiche Construction Inc. At 52 years old, Bradley has contributed immensely to the growth and success of Reiche Construction.

Adam Reiche, age 40, has also worked as a carpenter for the company since he was 18 years old. He currently holds the position of Vice-President and plays a major role in the office management as well as client services of operations for Reiche Construction.

The success of Reiche Construction can be seen through its tremendous growth over the past 42 years. In the early years its annual gross was between \$500,000 and \$1 million. Presently, the company's annual gross is between \$4 million and \$10million. The main concern of Reiche Construction is not simply the success of the company but more importantly the satisfaction of its customers.

Reiche Construction can general contract your project from start to finish. For example, they can provide design services, manage the project as well as construct it. From the planning stages to the final occupancy, Reiche Construction exhibits quality craftsmanship and a complete dedication to the job.

The following pages will provide you with a comprehensive scope of our accomplishments.
