

Dear Prospective Student:

Welcome to the Southern Utah University School of Business! The SUU business programs are accredited four-year, composite baccalaureate majors. A composite major is an educational pursuit, which does not require a minor, but requires additional hours in the major field. The majors available in the SUU School of Business are as follows: **Accounting, Finance, Management and Marketing**. In addition to the business majors, the school offers three non-business majors: **Business Education (teaching), Economics and Hotel, Resort & Hospitality Management**.

If you have interest in any of the above programs, please make an appointment so that we may discuss your academic options and ensure proper enrollment in the major courses. In addition, the SUU School of Business offers two graduate programs: the Master's of Accountancy program (MAcc), and the Master's of Business Administration program (MBA). The MBA program is offered on the SUU campus and in St. George.

Business majors usually spend their first two years taking general education and pre-requisite courses to prepare them for their area of study. Please check with me concerning your selected major requirements. Several of the pre-business courses do require a pre-requisite course. Before registering for a course, it is necessary to have taken the prerequisite(s). To apply for a departmental scholarship, you must have the pre-business core complete (or in the process of completion). If you have questions concerning the general education, please contact me for information.

If you would like to review the program requirements, feel free to check out the following web-site: <http://www.suu.edu/business/advisement.html>

Good luck with your efforts!

Sincerely,

Paula Alger, Advisor
Southern Utah University
School of Business
