## Professional Summary

Dedicated and compassionate Registered Nurse with over 10 years of experience in fast-paced hospital settings. Proven ability to manage complex patient cases and provide high-quality care that improves patient outcomes. Committed to fostering supportive and inclusive environments for patients, families, and staff.

## Professional Experience

### Senior Registered Nurse

General Hospital, Metropolis, USA

March 2016 - Present

- Lead a team of 15 nurses to deliver exceptional care in a 200-bed high-acuity unit.
- Collaborate with interdisciplinary teams to develop and implement patient care plans.

- 
- Conduct staff training sessions focused on advanced patient care techniques and compliance with healthcare regulations.
  - Spearheaded a project that reduced patient readmission rates by 20% within a year.

### **Staff Nurse**

Community Hospital, Smalltown, USA

June 2010 - February 2016

- Provided patient care in a 100-bed community hospital with a focus on pediatric and adult care.
- Administered medications, managed intravenous lines, and monitored patient conditions.
- Assisted in the development and updating of patient care plans alongside healthcare teams.
- Supported hospital-wide initiatives to improve patient satisfaction scores, which increased by 15% during my tenure.
