

EBOR GARDENS PRIMARY SCHOOL – VISION STATEMENT

***“Living to learn and learning to Live”
“We all grow together”***

At Ebor Gardens we are committed to developing positive, happy, self motivated learners who enjoy learning and see it as a life long adventure.

School Vision

Ebor Gardens Primary School aims to enable all children to become confident, independent and self-motivated learners actively involved in guiding their own learning and the development of our school community.

The work of everyone in our school is based on honesty, trust, respect, constructive criticism and teamwork. We will celebrate success of all kinds and be inclusive in all we do.

We recognise that not only does each child have individual strengths and weaknesses, with personal needs and a preferred learning style, but also that all children require a positive and caring school ethos in which to develop a strong emotional intelligence fundamentally important to their long-term personal success. We will work in partnership with parents/carers and other professionals to realise each child's academic, physical and personal potential.

We will provide a broad and balanced curriculum that promotes creativity and, as a school we will be self-evaluating and actively seek to learn from the best practice locally and nationally. In an ever-changing world we will be prepared to change and be willing to take risks in order to innovate. We will utilise the power of information and communication technology to support both skills development in the curriculum and the effective management of all aspects of our school.

Finally, we aim to develop our school as a local community resource and support the concept of extended schools. We will strive to build links with a range of community groups so that Ebor Gardens Primary School is seen to be at the heart of the community providing high quality education.

Mission statement for school

We would like Ebor Gardens Primary School to be a place where we:

- Provide an exciting and enriched National Curriculum through a well resourced and stimulating environment.
- Strive for excellence in teaching and learning to fulfil the potential of each individual
- Work in partnership with parents and the wider community.
- Encourage responsibility for oneself and others.
- Develop high standards of work and behaviour.
- Promote self esteem and confidence through celebrating success in preparation for the future.
- Nurture natural curiosity and imagination enabling children to enjoy their childhood.
- Create an environment where everyone feels secure and valued.
- Foster mutual respect between all children, adults and the wider community.

Our aims for the pupils are that they should:

- Be happy, confident and enjoy learning.
- Be able to work both independently and co-operatively.
- Be able to develop an understanding of themselves as learners.
- Be caring, be respectful and be responsible for themselves, others and their environment.
- Be considerate regarding the diverse nature of society. Show tolerance and respect for all, regardless of their religion, ability, beliefs or way of life.

We demonstrate our commitment to working as a learning community by:

- Being an organisation which facilitates the learning of all its member and continually transforms itself.
- Striving for continuous improvement in all we do
- Being a learning centre of excellence for all regardless of age, sex, creed, role/needs and ability.
- Working collaboratively towards common goals.
