

Information Technology Intern – Internship

Job Title: Information Technology Intern – IT Managed Service Line – Internship

Location: Metro Washington, DC Area

About SAIC

SAIC is a leading technology integrator providing full life-cycle services and solutions in the technical, engineering, and enterprise information technology markets. SAIC's deep domain knowledge and customer relationships enable the delivery of systems engineering and integration offerings for large, complex government and commercial projects. SAIC's approximately 13,000 employees serve customers in the U.S. federal government, state/local, and global commercial markets, specializing in providing a broad range of higher-end, differentiated technical capabilities. Headquartered in McLean, Va., SAIC has annual revenues of about \$4 billion.

Service Line Overview

The **IT Managed Services** Service Line maintains and provides support for IT operations used by SAIC customers. Repeatable services are designed and built to reduce costs and cycle times, eliminate failures, and improve customer satisfaction. Services can be delivered as a packaged solution, or tailored to meet specific contract requirements, and can be provided from an SAIC location, a customer site, or a combination of both. Examples of services we provide include, operations for communications, networks, data centers, applications, enterprise IT systems and applications, cyber defense, help desk and end user services, end user device management, asset management, patch management, release management, desktop management, and server and storage management.

Job Description

Information Technology Intern

Intern is responsible for assisting the project team with integrated security system and physical control solutions that will ensure proprietary/confidential data and systems are protected. Assist with activities which may include one of more of the following: Configuring and validating secure systems and physical controls, and testing security products and systems to detect security weakness.
