

**Director, Enterprise Risk Management**  
**CommunityAmerica Credit Union**

---

---

**Job Description**

**GENERAL FUNCTIONS:**

The position is responsible for CommunityAmerica's Enterprise Risk Management (ERM) program which includes program development, and providing both oversight and direction for management of risks across the organization. The Director of Enterprise Risk Management will partner with the business leadership team to ensure that risks are identified and considered in the development of the strategic vision, and proactively manage to balance both the risk and rewards of the business. In managing the program, the Director of Enterprise Risk Management will facilitate the organization's definition of risk appetite and tolerance, coordinate risk assessments, identify the operational and strategic risks, provide leadership to the Risk Committee, facilitate the prioritization of risks and identification of risk owners, and develop and communicate risk reports to management.
