## SPORTS MEDICINE CLUB SPORT TEAM MEDICAL FORM

---

The Oberlin College sports medicine program is offering a new medical program available to club sport participants. Each team must decide whether or not they would like to participate in this program. The team liaison will then give a confirmation of the team's decision annually.

\_\_\_\_\_  
**Club Sport Name**

\_\_\_\_ **YES**, our club sport would like to participate in the medical program this year.

\_\_\_\_ **NO**, our club sport declines to participate in the medical program this year.

Requirements to participate:

- Individuals need to be listed on the official club sport roster as held by the Director of Club Sports
- Pre-participation physical exam of all participants (Requirements of the physical exam to be determined by the Department of Sports Medicine)\*
- Medical History form
- Athletic Consent form

\*Pre-participation physicals are to see if the participant is medically fit to participate in their sport. We understand and accept that there may be members of the club sport that are medically disqualified to participate based upon this premise.

We agree to meet these requirements in order to obtain services from Oberlin College Sports Medicine.
