Guidance Notes

Please complete this form if you are building one or more new properties that will require an address, for example a new house, steading conversion, block of flats or business premises. The Council will allocate the official address following liaison with Royal Mail as appropriate.

If the new property development includes one or more new streets, you can suggest names for the streets and these will be considered by the local Aberdeenshire Councillors in conjunction with the relevant Community Council. Note that it generally takes 3-4 weeks to register a new single property and 8-12 weeks to register street names and numbering in a new development.

You must supply a location map and site layout plan showing the new properties, preferably in AutoCAD compatible DWG/DXF format. If necessary, use the Council's website to get a location map: <http://www.aberdeenshire.gov.uk/local/map.asp>

Please send the completed form and associated site plan to the relevant address shown below.
