## 3. Lighting

Many people spend hundreds of dollars in decoration for a party only to have the DJ turn the lights off when the dancing starts, and none of you investment will be seen, a misconception is that people think decorations excites people at a party. that is totally wrong. Example let's take a place where people dance "a club" When you go to a club you don't see decorations. That is why they have lights and special effects lighting to get people energized and excited to dance. You can select the lighting based on your budget below (You can consult with us if you need further help with dancing lighting effects)
