10.	FULL DESCRIPTION OF THE ACCIDENT On 15 July 2015 at 05:44, Controller gave Live work handover on Nkwaleni NB5 instead of NB14 as had been booked on FMS Mr. Mhlongo stated that in the afternoon after it came evident that there was a discrepancy between the Network he was handed vs what he worked on he contacted the relevant control officer to ask why he did it, the controller indicated to him that he had some personal issues (His farther was sick and that he came to shift and that during his shift there was a storm so he never slept), and that affected his mind on that day.
11.1	FINDINGS (PEOPLE EVIDENCE) 1. Initially the operator and Control refer to Nkwaleni Network Breaker 14 2. Control refers to Nkwaleni 5 as 22kv. 3. John Mhlongo repeated back to control with Nkwaleni 11 kv Network Breaker 14 4. From controller statement controller was not on right state of mind to operate.
11.2	FINDINGS (PAPER EVIDENCE) 1. Live work handover done correctly 2. Risk assessment done correctly. 3. Investigation report from Control : a. Date on front page is wrong it should be 15 July 2015 not 15 June. b. Pg. 3 Designation of Sagren Chetty is wrong. c. Pg. 4 Sequence of events refer to Nkwaleni Network breaker 15, this should be Network breaker 14.
11.3	FINDINGS (PROCEDURE EVIDENCE) 1. Investigations were done separate, Control did their own without involving live work manager or PIC involved. 2. Regulation 2.03. Was not followed by control or operator.
