Bucks
BM20 1AP

20th March 2016

Dear Miss Moore,

Following your assembly, I would very much like to apply for the role of playground squad monitor for the summer term and feel I have many qualities which make me well suited to the role.

As a keen netballer and cross country runner, I would be able to fulfil the sporting part of the role with energy and enthusiasm, inspiring younger members of our school community to become involved in games during their lunchtime. Furthermore, I have experience with leading small group games when I help at my local Beavers group. If I were chosen to be a playground squad monitor, I would be able to suggest many games to get younger children active and avoid boredom and arguments.

In addition to my sporting interests, I have always enjoyed helping with younger children. I have two younger siblings, so I know the kinds of activities they enjoy doing. I also understand the responsibility involved and I hope I have demonstrated that I take school jobs seriously, as class representative on the school council. With reference to being organised, my homework is always given in on time and I am never late.

If I were successful in my application, I have several ideas to suggest. Firstly, I suggest the height of the fence be raised, to avoid balls going over into the road. Secondly, I recommend that the playground markings be repaired and perhaps new games added, such as snakes and ladders. This would give more children something to occupy them. My final suggestion is that the equipment be colour coded to make sorting and maintaining it easier.

I very much hope you consider my application as I would enjoy the opportunity to give something back to the school during my final term here.

Yours sincerely,
Sam Quick
