Sabrina:

Please see the attached letter that Sunnyside has today delivered to the Animas River Stakeholders Group and the Bureau of Land Management, offering a contribution of \$6.5 million towards improving water quality in the Animas River. We believe that this is a key step in furthering the collaborative process of addressing water quality issues in the Animas, and look forward to discussing the same with you. We continue to believe that any Superfund listing would be counterproductive and would destroy the ongoing collaborative effort.

Thank you.

Larry
