RATIONALE BEHIND THE PARTICIPATION OF ICB IN THE PROJECT

The participation of ICB in this new modern rural project called Sentuhan Kaseh is a replication of the Rimbunan Kaseh Programme launched by ICB which consists of houses, building and amenities using the IRIS KOTO IBS solution supported by modern farming activities. This Project is undertaken by IRIS to further assist the government of Malaysia in uplifting the social and economic standing of the FELDA settlers and to create an agriculturally progressive community and environment. The Board also believes this Project will contribute positively to the financial results of the ICB group in the long run.

This announcement is made on 22nd November 2012.
