

Survey Participation Consent Form

Survey: QUT Laminitis Survey – recurrence of equine endocrinopathic laminitis

Administering Organisation: Queensland University of Technology

Investigators: Dr Melody de Laat; Professor Martin Sillence

You are invited to participate in a research study being conducted by Dr Melody de Laat at Queensland University of Technology. The purpose of this study is to determine the incidence of pasture-associated and endocrine forms of laminitis and how often they recur. Your participation in this study is entirely voluntary and you may withdraw at any time.

Your surname or an anonymous case number will be obtained in connection with this study to allow Dr de Laat to appropriately identify and monitor study participants. Any information that can be identified with you will remain confidential and will be disclosed only with your permission or as required by law. You will not be identified individually in any of the information we get from this study or in any of the research reports/publications.

I/We hereby give consent for my/our horse/pony's laminitis case history to be included in the Queensland University of Technology Laminitis Survey. I/We understand that the information will be used solely to improve current understanding of the incidence and rate of recurrence of laminitis. I/We understand that my/our personal details will not be used for any other purpose than case identification and will not be included in study outcomes.

Name of Person (please print): _____

Signature of Person: _____

Date: _____

**** Person signing must be 18 years of age or over**
