FAMILY/BABY/CHILDREN SESSIONS

Family sessions are a 60 minute session on location. If you have a particular place you'd like to have your session at feel free to let me know, however if you're unsure of where to go I have plenty of great locations that I can suggest!

For new-born baby sessions, I recommend that the session is held at your house as babies often work to their own schedule. If they are tired, need a feed or a nappy change it is always less stressful for both baby and parents to be at home for this! I am also happy to stretch the baby session out to two hours which allows time to look after baby's needs during the session.

Family sessions include 3-5 people, extra people are \$20 each.

Session Fee \$140 (*add \$30 if you would like to book a studio session)

Digital Packages

10 high resolution images	\$300
15 high resolution images	\$350
25 high resolution images	\$400

Final note...

Good photography is NOT cheap or free. Do you ask a mechanic, electrician or plumber to do free work?

A camera does not take great pictures. It's the person behind the camera that has the learned skills to see the light, compose the image and set up the story.

You may think you are paying for an hour shoot, but photographers will work for many hours, behind the scenes in post production. Working on your digital negatives to create lasting memories. This is done with equipment and editing programs that can cost thousands of dollars.

The photographer you have chosen values their work.

If you have any questions, feel free to contact us at any time!
