

Notes for Petition

Thank you for interest and assisting in the use and widespread distribution of this petition to support the Maylands, Bayswater and Mount Lawley Community to end the total lack of consultation and current land grab by the WAPC and MRWA on Guildford Road. As a Community we are grateful for your ongoing support ☺

Please do not limit your energies and feel free to engage with others in your workplace, the park, on the bus or train, walking the dog or out with friends to obtain as many signatures as possible to not only save the 300 residences and over 59 businesses directly impacted but to ensure our wider Community is spared the WAPC and MRWA proposed decimation.

When you are visiting any of the local businesses or your friends residing here, ask them for their petition, discuss the impact that this WAPC and MRWA action has upon them, the staff and your Community, see where the proposed widening will physically cut through their home or business and show your support by signing their petition. If they do not have a petition please advise me and I will personally deliver one to them ☺

This petition is available through our web site (GuildfordRdToRuin.org) (in process – watch this site) and Facebook page – feel free to Like and Share us through Facebook and send the links to this petition to any other social media site you may use.

Please note even partially filled sheets are more than welcome and we would like to have all signed petitions back prior to **28th February 2017**. Once you have obtained signatures please drop the petition off to any of the following addresses:

Your Shout Liquor 49 Guildford Road Mount Lawley
