Structural Material Moisture Content (MMC)

Softwood (SW) MMC Target		Hardwood (HW) MMC Target		Other (Other) MMC Target	

MMC Measurement Details				MMC Measurement Details			
Room/Area	Location in Room/Area	Material	MMC	Room/Area	Location in Room/Area	Material	MMC
		SW HW Other				SW HW Other	
		SW HW Other				SW HW Other	
		SW HW Other				SW HW Other	
		SW HW Other				SW HW Other	
		SW HW Other				SW HW Other	
		SW HW Other				SW HW Other	

Instrument Model ⬇ ⬇

Structural Material Moisture Content (MMC) Targets

Soft Wood & Wood Subfloor MMC = **Below 16%** Hardwood MMC **6% - 9%** (+/- 5% allowance) Dry Wall **/** Vinyl **/** Other Materials – **compare to an unaffected area**

The Structural Materials Moisture Content Records should have readings of unaffected areas as the most accurate way of determining dryness or pre-loss condition.
