

Adult Pool Party Proposal

Overview/Background

Welbourne Manor community pool is open to all residents of Welbourne Manor. Welbourne has traditionally offered many social events that target families with children. After several residents that do not have children suggested that it would be enjoyable to have pool social events that are child free, the Social Committee hosted an Adult Only Pool Party. Attendance was very good and those that attended said they enjoyed the child-free atmosphere.

Objective

The Social Committee would like to have the HOA Board's approval to host two child-free parties during Pool Season to attract residents to pool social activities that don't participate in the more family focused events held at Welbourne Manor Pool.

Concept

The Social Committee would host two parties that would be Adult Only during the pool season. Both parties would take place between the hours of 8-10pm.

Potential Issues

The Social Committee is proposing that both Adult Parties start at 8pm so that most families are already done with the pool. There would be a total of only four hours that the pool would not be open to all residents. The Social Committee would work diligently to communicate with the neighborhood about the dates and times of the Adult Only events to ensure that everyone is aware of the special times.

Projected Outcome/Benefit

The goal of hosting more adult-friendly events at the pool (and throughout the year) is to increase attendance among those residents that are child-free. Welbourne Manor is a wonderful neighborhood that strives to be inclusive of all of its residents. Our community's goal is to find ways that everyone can comfortably participate in social activities. By increasing residents sense of community, Welbourne hopes to increase participation in volunteer opportunities and improve relations with the Welbourne HOA.
