The Gold Service

A beautiful comprehensive record of your special day

This is our most popular service and offers a very innovative and creative approach to wedding photography. Two photographers ensure that all aspects of your day are captured - from getting ready at home (or hotel) through to your speeches or dancing. The combination of family groups, bridal portraits, and an extensive number of "candid" photographs can easily result in a choice of 400 -1000 images, allowing you to pick only the best images either as prints, or for your specially created individual album. Any of the images can be colour, black and white, sepia, or other special effects.

The images chosen can be supplied as prints or presented as creative page layouts custom designed to your requirements. The complete album is previewed (on line and then on our cinema display screens) and at this stage we can make changes prior to printing in one of many different book styles.

If you choose a book presentation, combining a large number of images, our creativity, and your input ensures a very stunning and personal record of your big day.

Full day coverage by 2 photographers with 150 prints inclusive guaranteed price of £1250

(£1100 for Monday - Thursday or November to March)

Viewing and selecting your photographs

Online Ordering

An essential part of modern wedding photography is the facility to view and order on-line. We were one of the first companies in the country to offer this service and this is a very important part of our service. Within 72 hours (usually 12-24), your images will be available to view. Your friends and family can order and most print orders are delivered in 3-7 days. We leave your images on-line for several years and have weddings back to 2005 on-line.

Printed previews

Although we are big fans of online viewing we know a lot of our clients like to have printed previews to look at and refer to. We therefore offer previews with every service.

You can add a printed book, which is very popular as it is a good way to have a copy of all the photographs, which depending on the service chosen, could be anything between 100 - 1000 images.

Ordering wall prints

Although the Internet is an amazing facility to enable anyone in the world to view your photographs, if you are looking to order something to display in your home, it is much better to see how it will look at a large size. We can even show you how any size of print or product will look in your own home (if you send us a photograph of your wall). We would recommend an appointment to come to our offices where we have a wide range of products on display. You can choose from framed prints, canvas prints, acrylics, perspex blocks etc.

The Digital option

Digital Files

Photography is changing a lot and more and more of our clients want to have the digital files. On our website we sell small files suitable for emailing and the social networking sites.

However some clients want the full resolution files to create their own album and or prints. We offer the option to purchase the files with the prints for every service. We always include a set of prints so you know how the files should print.

If you purchase one of our storybook albums, you get a multimedia presentation of the album presentation set to music of your choice (usually your first dance). This is supplied free of charge.

If you choose a Graphistudio album, you will get all the high resolution files when you take delivery of your book.

About the digital images

We photograph using the best equipment available and shoot in a "raw" format. Every file is individually assessed for color and cropping and any selective adjustment required. The files are then converted to high resolution jpegs. From there we can create black and white, sepia, combine color and black and white, add creative borders etc.

Where necessary we can take a head or eyes from a different photograph to make a better group photograph. We try to make sure everything is right "in the camera" but we have a lot of tools at our disposal if adjustments are required.

Albums

All our storybook albums include an extensive amount of design to ensure that your photographs capture and tell the story of your wedding day. Once you have selected your photographs:

- We put the photographs in to order of the wedding day and create a draft storyboard on paper before we commence work on the photographs.
- Then we carefully correct the colour and do any retouching required to your selected images.
- The next stage is to layout the pages using the latest software to the size of album you have selected. We will introduce different page styles and effects to make your album unique.
- The finished album design is uploaded to our website and we send you a link so that you can view it on-line.
- You are then free to comment and suggest changes to the pages to ensure that it is exactly the way you want. We make changes and get your approval that it is ready to print.
- Finally we invite you to come to the office (if possible), and view the album at full size on our 30" high resolution computer screens. This allows you to see your album at actual size or larger before it is printed.
- At this stage you will finalise your cover choice and parents copies if required. The album pages are presented as a slideshow with music. We will ask you to select the music you prefer and this presentation is provided to you on disc as a QuickTime movie that you can view on your computer or laptop. We can even provide this for your mobile device with the appropriate capabilities e.g. the Apple iPhone or iPad.
- Every storybook album goes through these same stages and all have the multimedia CD supplied. There a wide range of sizes, printing types, bindings, and covers and details are enclosed. Samples of each are available to view at our office (by appointment only).

Storybook albums range in price from £595 to £1590
(including design, online viewing, and a multimedia slideshow of the pages)

How to confirm your booking

We prefer to meet with you to confirm your booking and would encourage you to arrange an appointment. We are available evenings and weekends and have a car park at our offices.

However if you do not live locally or it is difficult to get to us, you can confirm your booking on-line and pay the deposit by credit card. Alternatively you can book our services on the phone and pay the deposit with a card, or post a cheque.

After we have received your deposit, we will confirm the service chosen and the price agreed. This price is guaranteed at the time of booking up to two years in advance.

Deposits are non-refundable but in the unlikely event you change your date, the deposit can be transferred if the new date is available.

Payment Terms

The booking deposit is £100 and the balance of the service chosen is payable at the pre-wedding meeting which is usually 2-4 weeks before the wedding.

If you choose to have an album, a deposit of a third is charged when you confirm your order, a further third is due when the design is completed, and the balance due on collection of the album.

Payment Plan

If you prefer to budget for your wedding photography, we can set up a direct debit for monthly payments to spread the cost before and after the wedding. We can discuss this at the time of booking.

Any prints or other products ordered have to be paid at the time of ordering.
