

0% Business Loans

How to tick all the boxes

It really pays to get the paperwork right first time

To support an application for a 0% business loan, we need four documents from the equipment supplier (on the supplier's own stationery):

- A quotation
 - An invoice
 - A commissioning certificate
- to be submitted with the loan application.
- Once the application has been approved, the customer will need to submit these in order to access their loan funds.

The sooner we receive the correct documentation, the sooner the customer can access their loan. Provided all required details are included, we can start making loan payments to the customer by BACS within 10 working days of receiving the invoice. If any information is missing, this could delay the payments.

To illustrate what pieces of information we need from the supplier, we have laid out a set of dummy documents on the following pages.

For more information on the loans scheme application process visit www.carbontrust.com or call our **Loans Team on 028 9073 4398**

Quotation

Does the quotation include the following?

CHECKLIST

1. The customer's registered name and address (as it appears in the online application)
2. The VAT amount and the supplier's VAT registered number, or confirmation that they are not VAT registered
3. The equipment supplier's quote reference
4. The quote must be dated within the past 3 months
5. A full list of the equipment to be supplied including quantities and price
6. The equipment supplier's name, address and contact number as stated on the Application
