Architectural and Financial Proposal
for Group Housing Project

Hinjewadi, Pune

HOME BUYERS COMBINE PVT. LTD.

HBC's Group Housing

Home Buyers Combine – HBC, stands for enabling home buyers to own a house in a cost effective and efficient manner with the power of group housing

We have helped hundreds of home buyers to save for buyers to the tune of Rs.30 crores in the period of past two years

Prices of houses are continuously on the rise and common home buyers are the badly affected in the LOOT by real estate developers/financers and marketers.

HOW to STOP this LOOT?

We at HOME BUYERS COMBINE are striving to make a difference by our Group Housing Initiatives.

However this has met with limited success. After doing five projects of group buying with various developers we have noted that in such initiative we still had to work with developers and builders and it brings some amount of uncertainties.

Though we have helped over 400 home buyers in saving substantial money in home buying (ranging from Rs. 5 Lakh to 12 Lakh depending on the size of house), Builders are meant to be into profits and complete transparency is something not easily practicable by them.

HBC's Group Housing

HOW to STOP this LOOT?

We are initiating a housing project for buyers to be done in the West Pune **where buyers will be integral and core part of the project.** We shall facilitate complete housing project without involvement of any conventional builder. As such in most cases the builders do the commercial part of land acquisition and financial management and everything else is outsourced - for activities like legal due diligence, architectural planning, government approvals, project management, construction, liaison etc.

HBC's New Group Housing Project

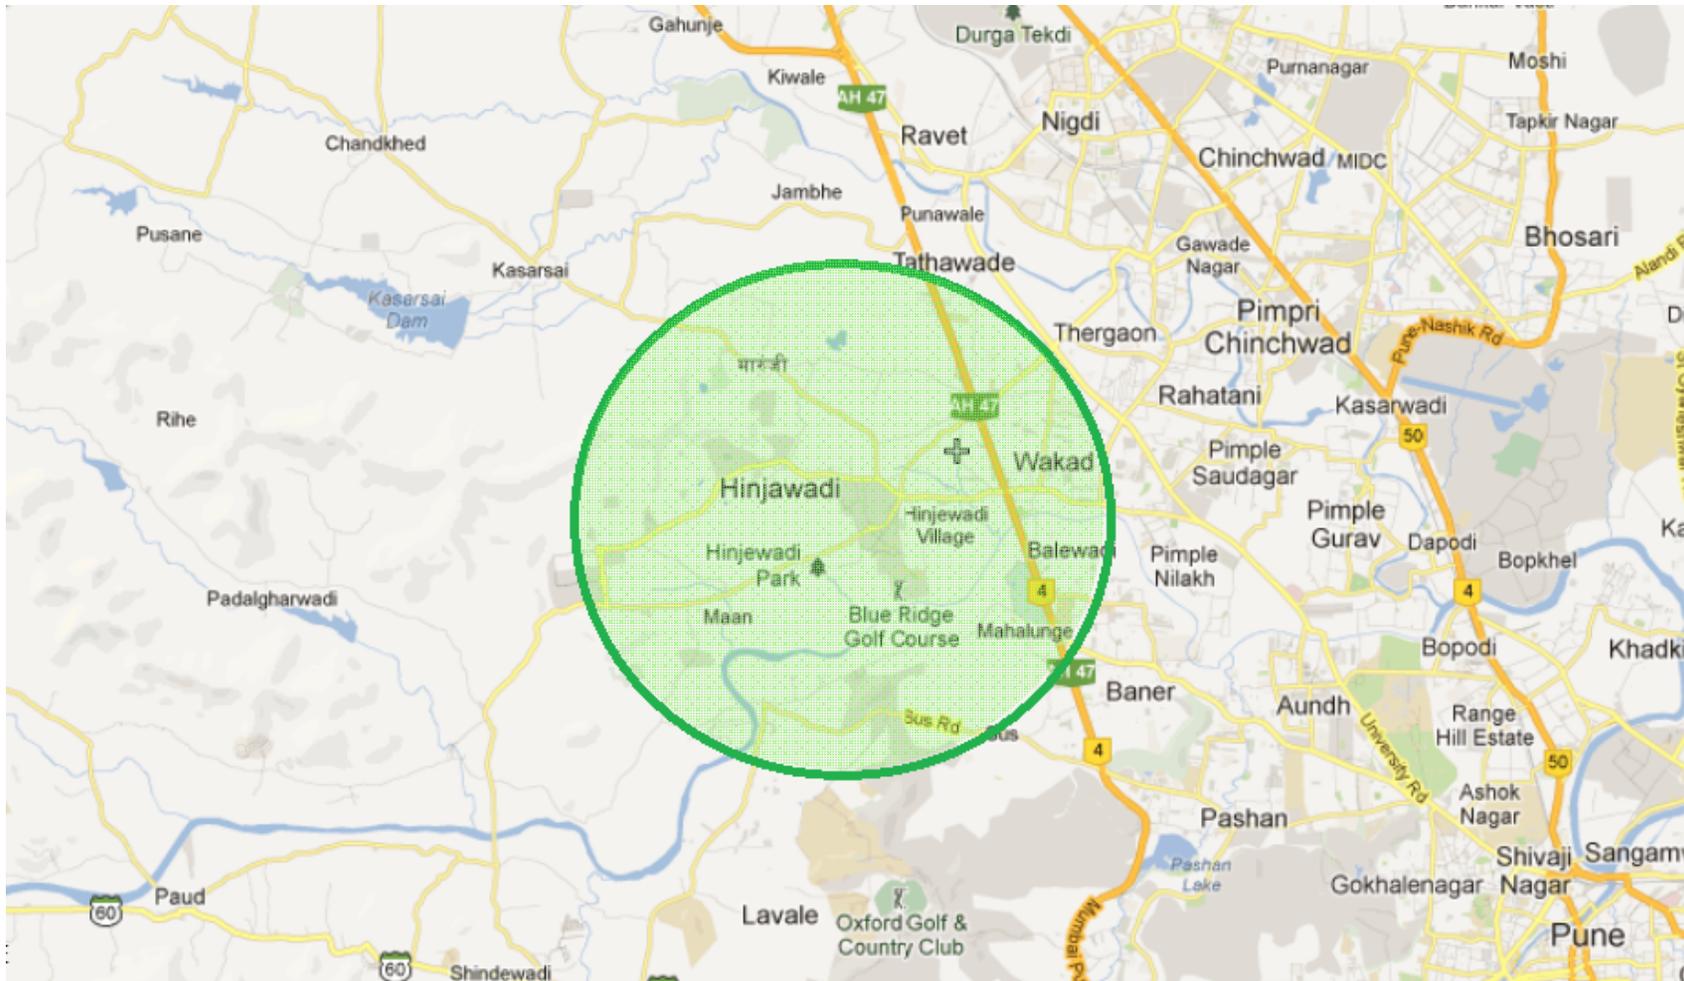

HBC invites membership from interested prospective home buyers for group housing project in West Pune. We are doing a project of 200 nos. of 2 BHK + 3 BHK flats in the vicinity of Hinjewadi IT Park. We have identified few sites for this purpose and will be finalizing one of the sites. The options identified by us are convenient locations where at present project from various developers have been launched

One has to choose about the size / type of house that he / she is looking to buy. The typical market price in the West Pune identified area is minimum Rs.4500 per sq ft. we expect that we can offer a minimum of 15% cost benefit to 200 buyers in following manner.

Type	Std. Area	Avg. Market Price		HBC Target Costing		Market Price	HBC Target Cost	Target Savings
		Rate / Sq ft	Other Charges	Rate / Sq ft	Other Charges			
2BHK	1000	4500	400000	3750	325000	4900000	4075000	825000
3BHK	1400	4500	400000	3750	350000	6700000	5600000	1100000

**NO floor rise or funny premiums for garden facing etc are applicable in the project.
Buyers rank in participation will determine his choice.**

LOCATION

Near Hinjewadi IT Park – within 5 km radius; max. 15 min drive
