PHYSICIAN CERTIFICATION FOR TRANSFER

Addressograph

The undersigned physician hereby certifies that based on the information available at this time, the transfer of _____ to _____ is medically necessary
(Patient Name) (Receiving Hospital)

and appropriate based upon bed availability or provision of services, and outweighs the increased risks associated with this transfer of the patient, or, in the case of a patient in labor, the risk to the unborn child. The risks and benefits have been explained to the patient and/ or family.

_____ _____
(Date/Time) (Physician Signature)

Transfer is accepted by: _____ on _____
(Name of Receiving Physician) (Date/Time)

Patient Consent for Transfer

I agree to be transferred to _____, which has accepted me for transfer.
Dr _____has explained to me the transfer is needed or advisable because:

_____

_____

I also consent to the release of all medical records necessary for the continuity of care.

_____ _____
(Date/Time) (Signature of Responsible Person / Relationship)

_____ _____
(Date/Time) (Signature of Witness)

PHYSICIAN'S MEDICAL NECESSITY CERTIFICATION

Complete for non-emergency scheduled and non-emergency unscheduled ambulance transport(s)
(This applies to Repetitive Transports and/or One-Time Transports)

PATIENT'S NAME		HEALTH INSURANCE CLAIM NUMBER (HIC)
TRANSPORT DATE	TRANSPORTED FROM	TRANSPORTED TO

In order for ambulance services to be covered, they must be medically necessary and reasonable. Medical necessity is established when patient condition is such that transportation by any other means is contraindicated. Please complete the questions below in order for the ambulance claim to be evaluated under Medicare coverage criteria.

The Health Care Financing Administration has defined "bed confinement" as (all three bullets must be met):

The patient is:

- unable to get up from bed without assistance
- unable to ambulate; and
- unable to sit in a chair or wheelchair

1) Is the patient bed-confined as defined by the above definition? [ ] Yes [ ] No

2) If No, please check the appropriate medical conditions listed below.

This patient:

[ ] requires restraints to prevent harm and/or injury

[ ] requires cardiac monitoring

[ ] requires continuous oxygen monitoring by trained staff
Note: patients who are generally mobile with portable oxygen would not require non-emergency ambulance transportation based solely on the need for oxygen.

[ ] had to remain immobile because of a fracture that had not been set or the possibility of a fracture (i.e. hip fracture

[ ] is ventilator dependent

[ ] requires continuous IV therapy

[ ] other, please specify, _____

_____
