## **RULES GOVERNING THE SAFE OPERATION OF EQUIPMENT**

The following rules detail safe operational guidelines for the inflatable equipment you are leasing from CCMRD. To ensure safe operation of the inflatable, it is in your best interests to read and understand these rules for the safe operation of the equipment. Further, you are encouraged to direct any questions you may have about the operation of the inflatable to your representative from CCMRD before you begin use of the equipment.

**Supervision:** The safety of the children depends on you. Your personal supervision is absolutely required at all times. As the lessee of this inflatable unit, the safety of all the riders is your responsibility. As the adult supervisor, you should position yourself in close proximity of the entrance to the ride and be prepared to assist riders when they enter/exit the ride. Never leave children unattended at any time. Keep children away from blower.

**Age Groups:** Only compatible age groups and sizes shall play on the inflatable at the same time.

**Shoes/Glasses/Jewelry:** All users MUST REMOVE SHOES, GLASSES, AND ALL LOOSE JEWELRY before playing in the inflatable.

**Pre-existing Health Conditions:** Pregnant women, individuals with pre-existing injuries, and others susceptible to injury from falls, bumps or bouncing are not permitted in or on the inflatable unit at any time.

**Rules for play:** No person weighing over 150 pounds is allowed to use the unit. **NO Flipping/Wrestling/Piling:** Improper use of the inflatable includes flipping in the air, wrestling, and riders piling on themselves. Such activity may result in neck and back injuries to riders and/or damage the unit. If unit has a slide, never stand up on slide platform. When using slides, never slide head first. Always make sure slide is clear of others before sliding.

**Installation:** This unit is HEAVY and requires two people to move and set-up! Do not attempt to move without assistance. Do not move the inflatable from the area where it was installed. If the inflatable unit moves, pull it by one of its corners back to its original location of installation. Keep the inflatable unit away from swimming pools and other sources of water at all times. Keep unit away from heat and open flame at all times. Material will burn or melt when in contact with flame or heat.

**Blower Operation:** The blower is not a toy, do not allow children to operate the blower. Do not insert fingers, toes, etc into the blower, or it may cause injury. Do not insert foreign objects into the blower. This will cause damage. Ensure electrical source is safe and stable before operating the blower. Observe all precautions and warning labels on the blower at all times. Should the unit begin to deflate, do the following: First, have all children exit the unit immediately. Next, if the motor has stopped, make sure that it has not been unplugged. If the motor is still running, check the air intake on the side of the motor for blockage, and check both blower tubes on the inflatable unit to make sure that they are tightly tied off. Never allow riders in or on a partially inflated unit.

**Weather:** Once there is a threat of inclement weather, including strong winds (at or in excess of 20 mph), thunderstorms (especially when lightening is present), or severe cold weather (below 40 degrees), children should immediately exit the inflatable. The blower should thereafter be switched off and removed, and the unit allowed to deflate. Do not use in rain, snow, etc. Do not use in direct sun in temperatures above 90 degrees Fahrenheit. Direct exposure to sun can heat surfaces to unsafe temperatures for play.

**Alterations:** No alteration in or attachments to the inflatable unit are allowed, period.

**General Misuse:** Do not allow riders to play or climb on walls, sides or roof of inflatable. Do not allow the inflatable to rub up against any surface. Unless previously authorized by CCMRD, never place a water hose or water in general onto the inflatable. If the inflatable should become wet, have an adult wipe down unit before riders return. Inflatable should not be wet when riders enter the unit.

**Negligence or Abuse:** The following fees may be assessed for negligence or abuse of inflatable

1. Spilled food, drink or the use of Silly String could result in a \$100-\$500 Cleaning Fee.
2. Negligence and damage to unit could result in a \$400-\$1,000 Repair Fee.
3. If unit is not repairable a fee of \$3,500-\$7,000 could result.

**Setup:**

The unit must be set up and supervised by an adult. Use only on grass or soft surfaces. Do not use on concrete, asphalt, etc. without padding such as a tarp. Always ensure the ground is debris-free before set-up, and never drag the unit across rough surfaces. The unit is very heavy and will require two adults to move it.

1. Use the key provided by the CCMRD staff to unlock the transport trailer. Carefully remove unit (inflatable, blower, stakes/sandbags, tarps, cords, and hand cart) from the trailer taking care not to snag unit on latches, hinges, or other hazards. Use the hand cart to move the unit to the desired set-up location. (Be sure to re-lock the trailer to avoid theft of remaining items)
2. Lay out tarp and unroll/unfold the unit on the dry, soft, and debris-free surface.
3. Connect blower to the long inlet, and tie securely. If unit has outlet tubes/openings, shut them before inflating.
4. Do not use the blower near water or in wet conditions (position the blower so it is away from any over spray, puddles, wet players, etc). If the blower becomes wet, discontinue use until it is dry.
5. DO NOT allow any users into/on the inflatable unit before it is fully inflated and anchored.
6. Plug in blower and turn the power on. The unit will inflate within a couple minutes. You must leave the blower running the entire time the inflatable is being used. You will hear air “breathing” out of seams and fabric. This is intentional to allow air to escape.
7. Once unit is inflated, anchor the unit to the ground using the stakes provided. If unit is used indoors or on a hard surface, use the provided sandbags to anchor the unit. ***NEVER use the inflatable without anchoring it to the ground. Most inflatable injuries are caused by wind gusts!*** NEVER use the inflatable in situations where wind may affect play.

**Take Down:** It is **EXTREMELY IMPORTANT TO STORE THE UNIT CLEAN AND DRY! FAILURE TO DO SO MAY RESULT IN LOSS OF YOUR DAMAGE DEPOSIT.**

1. Ensure all users are off the unit. Remove any loose articles or debris from the play area. Sweep any grass, leaves, mud or other debris from the unit using a standard household broom and water if needed (Do not use cleaning solvents on the unit). If unit is wet, allow unit to run until unit is completely dry.
2. Turn the blower switch off.
3. If unit has outlet vents, untie/open the vent(s). Untie and remove the long inlet from the blower.
3. Unplug the blower and coil the cord.
4. Once the unit is fully deflated, fold and roll unit as tightly as possible.
5. Use two adults to load the unit onto the hand cart and move unit to the trailer. Use care when loading the unit into the trailer to avoid snagging the unit on the door hinges and latches. Properly store the inflatable unit, blower, stakes, and hand cart.
6. Lock the trailer.

I hereby acknowledge the above referenced safety rules cited in this agreement. I further acknowledge by my signature that I understand each of these rules and agree to abide by them completely.
