

January-March 2018 Travel Schedule

- **Wilderness Medical Staffing – February 5,6 &7**

After working as a Nurse Practitioner in Alaska and Montana for nearly 20 years, Mary Ellen Doty, President and founder of WMS, came to understand the importance that good healthcare has in remote and rural areas. She also came to understand the need for a 'local' healthcare staffing company that could specialize in staffing these 'wilderness' areas with top-notch medical personnel.

With this knowledge and understanding, Mary Ellen started Wilderness Medical Staffing. WMS began as a grassroots Alaska company with the mission to provide excellence in locum tenens medical care in any location, under any circumstances. WMS has grown exponentially over the past 6 years, but we will always maintain our personal touch and 24/7 availability. Wilderness Medical Staffing provides locum tenens for nurse practitioners, physician assistants and physicians.

**Please contact either Ashley Fusaro or Kelly Casey if you are interested in scheduling a meeting with any of the vendors scheduled for travel this month.*
