

NOTICE - WINTER ROAD MAINTENANCE

Due to the severe Winter we are having, the Township of O'Hara is experiencing supply issues relative to the receipt of rock salt to treat the roads. Our supplies continue to dwindle. Therefore, we have placed the Public Service Department in a **salt conservation mode** so that we can extend the supply we currently have until the supply chain can catch up.

The Township cautions residents to be particularly careful when travelling Township roads. The Township will attempt to salt hills, intersections and curves and will be reducing the salting of flat areas in the Township. The Township will continue to plow all Township roads.

O'Hara Township Public Service employees take great pride in keeping our roads clear from snow and ice and their efforts are greatly appreciated. We thank you for your understanding of this situation which is beyond our control.
