Introduction

A limited company founded in the year 2013 by **Mr. Jobhanes Bwire**, Jovitec Technologies Ltd at present is one of the finest IT firm in Kenya. From the beginning, the strength of the company has been its unmatched quality services at competitive price.

Past 1 year at Jovitec have been dominated by technologically advanced innovations which have become industry standards. Today, the company is leading that winning combination with unparalleled experience in Web design, Graphic design, Software development, IT consultancy, General IT support, Networking, spotting potential problems/Troubleshooting and General IT hardware supply, maintenance and Installations. In addition to above, it also has a specialized team which is always ready to score big with out-of-the-box ideas.

Jovitec has significantly invested in creating high-tech Websites and systems and also supplied IT hardware. The focused approach of the company's management and people makes it possible to exceed the demanding expectations of customers, attain excellence in product development and maintain the preferred supplier status with most valuable clients. All the components manufactured in the company's plant are made by highly qualified and skilled people having years of experience in their respective fields.

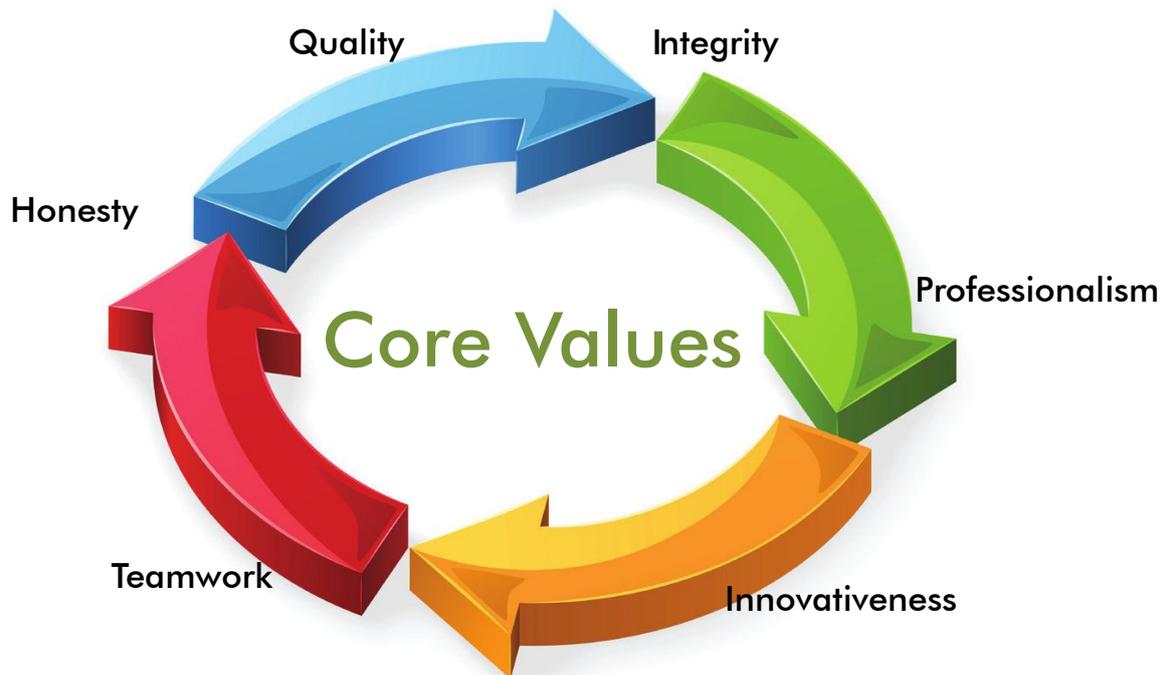

Our Vision

To be a distinguished IT firm with the latest technology that promotes professionalism and Integrity in providing an excellent service to the clients

Our Mission

Is to maintain excellence in training, implementation and support, while continuing to invest in high-quality staff and related services. And manage through controlled growth and building close strategic partnerships.

“Assurance of Quality in Products and Customer Service”

Our Strength to Forcus

A strong management team with versatile national and international exposure in the IT industry in different domain areas that values:

Excellence: To champion, promote and advocate for individual and institutional excellence in Kenya, Africa and beyond, in everything that we think, say or do.

Integrity: To be a pillar and beacon of good governance; to maintain the highest ethical and professional standards, honesty, truthfulness and decorum in all our dealings with our staff, customers and the community. To champion a free, just and fair community.

Innovativeness: To encourage and promote an environment that nurtures individual and institutional innovativeness and creativity, freshness of thought and the spirit of exploration and discovery.

Entrepreneurship: To champion and support creation of new wealth and employment, through the spirit of entrepreneurship.

Collaboration: To seek and reach out to likeminded individuals and institutions for collaborative and synergistic initiatives for the universal good of humankind.

Our Values

Human Resource

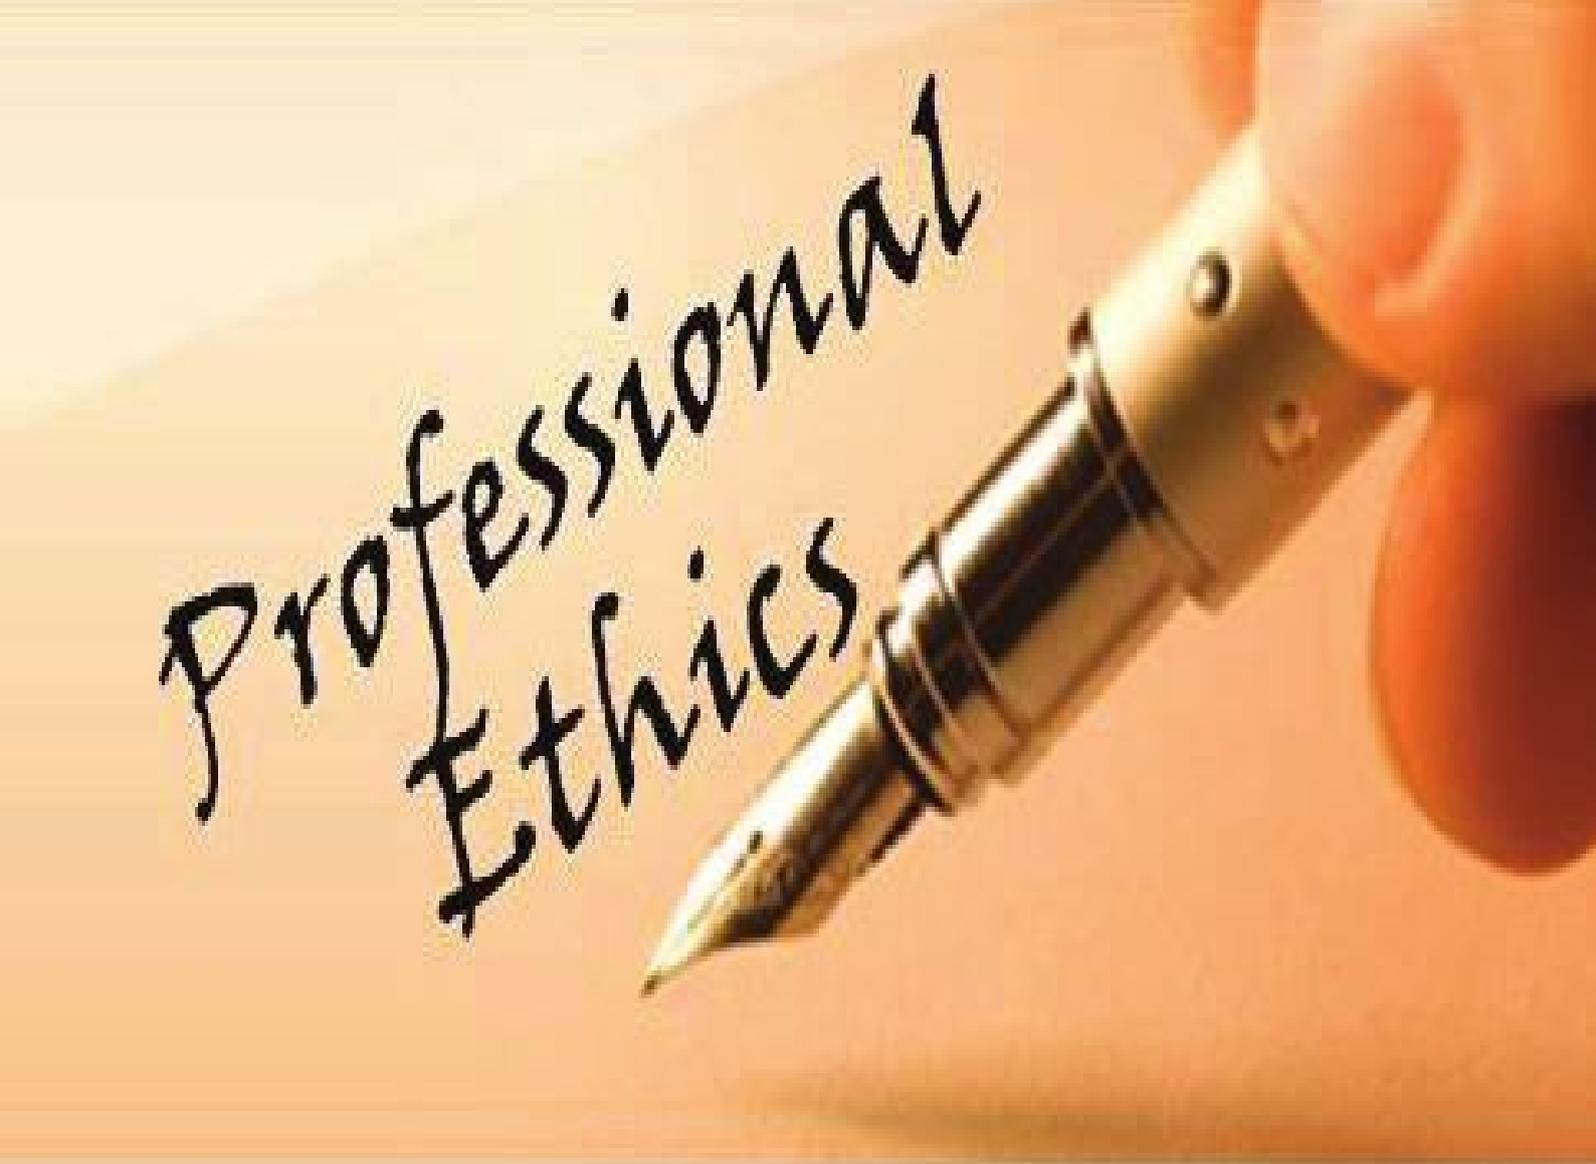

- » We attract, motivate and retain human resource with self-drive and determination in all areas of our business.
- » We are committed to competitive, performance-based compensation, benefits, training and personal growth based on equal career opportunity and merit.
- » We expect staff integrity, civility, openness, support for others and commitment to the highest standards of achievement.
- » We value innovation, employee involvement, and dynamism in operation, organization flexibility and personal ambition.
- » We recognize and value the benefits in the diversity of people, ideas, cultures and subject discipline.
- » Continuous training of our staff through workshops, personalized training and regular seminars are offered.

Customers

- » We invest and strive to be experts in key technologies necessary for our success.
- » We offer our customers world-class products.
- » We provide quality services to customers by treating them as partners, understanding their needs, responding well and living up to our commitments.

Suppliers

- » We are a valued customer to our suppliers. We treat them with fairness; respect and we honor our commitments.
- » We provide quality values in consistence with improving our productivity.
