PROPOSAL FORMAT FOR  
NONPROFIT ORGANIZATIONS**

## SAMPLE INDIRECT COST PROPOSAL FORMAT FOR NONPROFIT ORGANIZATIONS

### **A. INTRODUCTION**

Name of Organization (nonprofit) is a nonprofit located in Anytown, USA. The nonprofit administers a variety of programs funded by Federal, State, and Local agencies. These programs include Community Service programs, Head Start programs, State Weatherization, and Food Service programs. This example assumes a June 30 year end. Nonprofits can have different year ends and should use the year end of their nonprofit when preparing indirect cost proposals.

### **B. COST ALLOCATION METHODOLOGY**

This proposal is for an indirect cost rate based on the nonprofits actual costs for its fiscal year beginning July 1, 200X and ending June 30, 200X. The proposal is based on the nonprofit organization's audit report (Statement of Functional Expense Statement) for the year ended June 30, 200X.

This proposal addresses all elements of cost incurred by "Name of Organization" and identifies shared costs that require allocation.

The nonprofit treats all costs as direct costs except general administration and general expenses. Joint costs are prorated individually as direct costs to each category and to each award using a base most appropriate to the particular cost being prorated. Therefore, the direct allocation method has been used in allocating indirect costs.

### **C. DIRECT COSTS**

Direct costs are costs that can be identified specifically with a project and therefore are charged to that project. The accounting system records these costs as they are incurred within the series of accounts assigned for that purpose and further distribution is not required.

### **D. INDIRECT COSTS**

Indirect costs are costs incurred for common or joint objectives and therefore cannot be readily and specifically identified with a particular project or activity. These costs are grouped into common pool(s) and distributed to benefiting activities by a cost allocation process.

SAMPLE INDIRECT COST PROPOSAL FORMAT FOR NONPROFIT ORGANIZATIONS

**E. COST POOL AND BASE FOR DISTRIBUTION**

The nonprofit has created an Administrative Services Pool consisting of salaries, fringe benefits, and non-salary costs. The Administrative Services Pool is charged with all the indirect costs as defined above. The pool is distributed to the various program activities on the basis of direct salaries, including vacation, holiday, and sick pay but excluding other fringe benefits expended on those activities.

Volunteers for the Head Start program are included in the direct salaries total.

The total direct salaries and wages on which this proposal is based is \$1,111,343 which includes \$99,230 of volunteer salaries and wages for the Head Start program.

Volunteers involved in any direct activity of the organization should be included in the direct salaries base assuming they meet the requirements outlined in Circular A-122.

Circular A-122 can be found at: [www.whitehouse.gov/omb/circulars/index.html](http://www.whitehouse.gov/omb/circulars/index.html)

**F. SUPPORTING FINANCIAL STATEMENTS**

The Schedule of Total Expenditures (Schedule C) contained in this proposal is assumed to agree to the nonprofits audit report Statement of Functional Expenses.

- Audit report, Statement of Functional Expenses: \$2,632,449
- Indirect Cost Proposal: \$2,632,449

**NOTE:** Nonprofit must include a complete copy of the audited financial statements with their proposal submission.

**H. FRINGE BENEFITS**

Fringe benefits associated with the positions within the Administrative Services Pool are as follows:

Payroll taxes:		
FICA (actual paid)	\$16,546	
State Unemployment (actual paid)	<u>\$1,145</u>	\$17,691
Health and Life Insurance (actual paid)		\$22,474
Retirement Plan (actual paid)		<u>\$3,050</u>
		-----
	TOTAL	<u>\$43,215</u>
		=====

The nonprofits fringe benefit policies should be included with proposal submission.

**I. NON-SALARY COSTS**

Each category on non-salary expenditures has been analyzed based on the facts, and Schedule B shows the allocation between the Direct and Administrative Services Pool. Total non-salary direct costs excluding indirect cost reimbursements are \$984,656 of which direct is \$861,966 and indirect is \$122,690.

**J. COMPUTATION OF BASE AND POOL COSTS**

Schedule A (attached) shows the computation of the indirect cost rate for the year ended June 30, 200X. A summary of the rate calculation follows:

Direct Costs (Base - Salaries and Wages):

Community Service	\$140,831
Head Start	\$950,615
Weatherization	\$18,305
Memberships and Fundraising	\$1,592
	-----
Total Direct Salaries:	\$1,111,343
	=====

Indirect Costs (Pool):

Administrative Services Salaries	\$216,295
Administrative Services Fringe Benefits	\$43,215
Administrative Services Non-salary costs	\$122,690
	-----
Total Administrative Services:	\$382,200
	=====

**K. RATE**

Adjusted indirect costs (above - pool):	\$382,200	
	-----	34.4%
Total direct salaries (above - base):	\$1,111,343	

**L. FUNDING OF RATE**

When the above rate is applied to the direct salaries paid from the State Department of Human Resource funds (Community Services Block Grant) and funds from the U.S. Department of Health and Human Services (Head Start Grant), the eligible reimbursement is \$374,365 (\$140,831 + \$950,615 = \$1,091,446 x 34.4% = \$374,365). However, the allowable budgeted funding for indirect costs was significantly less than the eligible reimbursement. The Department of Energy programs and other local funds will have to absorb their fair share of the difference, within their funding limitations. The nonprofit can apply to outside sources to absorb any difference in indirect costs paid by other programs.

**Calculation of the Rate**

(1) If the nonprofit organization uses Direct Salaries & Wages excluding fringe benefits as their Base their rate would calculate as follows:

$$\begin{aligned} \text{Indirect costs} &= \$382,200 \\ \text{Base (Direct S\&W)} &= \$1,111,343 = 34.4\% \end{aligned}$$

(2) If the nonprofit organization uses Direct Salaries & Wages including fringe benefits as their Base their rate would calculate as follows:

$$\begin{aligned} \text{Indirect costs} &= \$382,200 \\ \text{Base (Direct S\&W + FB)} &= \$1,313,562 = 29.1\% \end{aligned}$$

(3) If the nonprofit organization uses Modified Total Direct Costs (MTDC) as their Base their rate would calculate as follows:

$$\begin{aligned} \text{Indirect costs} &= \$382,200 \\ \text{Base (MTDC)} &= \$2,175,528 = 17.6\% \end{aligned}$$

**Explanation of Adjustments**

- a) Includes salaries and wages of \$99,230 for volunteers of the Head Start program.
- b) Excludes capital equipment purchases.
- c) Remove unallowable costs - \$22 Interest + \$14 Bad Debt = \$36.
- d) Excludes capital renovations and improvements.

**General Notes**

- This is a sample proposal only. It is not intended to prescribe a particular method for allocating costs. An organization should choose the Base that they feel will most accurately reflect the true allocation of their indirect costs to each program.
- An organization can use any ONE of the three bases shown. Regardless of what Base (1, 2 or 3) is chosen the total indirect costs (\$382,200) do not change. The only thing that changes is the distribution Base.
