

# BE PART OF OUR GROWING SUCCESS

## Senior Lecturer and Transnational Education Tutor

Reference: T-60759228-08

De Montfort University (DMU) is an ambitious, globally-minded institution focusing on delivering high quality teaching and learning, and providing sector-leading campus wide student experience.

A culturally rich university with a palpable commitment to the public good, it strives to maintain a stimulating and inclusive environment where staff and students are able to thrive. The university is a vibrant, multicultural hub of learning, creativity and innovation that never surrenders to convention. Our success is built on a fantastic student experience coupled with award-winning teaching and world-class facilities.

### Faculty / Directorate

The Faculty of Computing, Engineering and Media is home to a diverse range of courses across three specialist schools, taught by experienced academics in professional facilities equipped with cutting-edge technology.

The School of Engineering and Sustainable Development, one of the most research intensive units within the University, equips students with the skills and specialist knowledge to solve real-world problems.

### Role

As a Senior Lecturer you will take the role of a Transnational Education Tutor for our dual degree Programmes with APU in Malaysia and SWU Universities in Thailand.

You will be responsible for supporting the School in the academic delivery of quality assurance and enhancement processes and teaching. An important part of the role will be progressing new initiatives and contributing to the successful operation and management of the School's overseas collaborative academic partnerships.

You will also be expected to deliver lecture and tutorial across our other UG and PG programmes especially in Computer Aided Design (CAD) area. You will also supervise final year projects at both UG and PG level.

**Faculty/Directorate:**  
Faculty of Technology  
-----

**Salary Info:**  
Grade G  
£ 38,460 - £ 48,677  
-----

**Contract Type:**  
Fixed Term , Full-time  
-----

**Advert Closing Date:**  
04 July 2019

De Montfort University is committed to providing a working and learning environment that enriches lives, supports individuals to reach their full potential, and where everyone is treated with dignity and respect. As an educator and shaper of society, the university aims to role model positive behaviours both within the university and to reflect the diversity of the wider community. As such we welcome applications from all potential candidates.

## **Ideal Candidate**

### **Ideal Candidate**

You will be required to hold a PhD in a discipline related to Engineering and have experience in Computer Aided Design (CAD) as well as familiarity with ANSYS software. Ideally you will have experience in development and delivery of awards delivered at partner institutions including the quality assurance and enhancement of these awards.

The successful post holder will be an excellent team player, able to encourage, motivate and inspire students about their area of specialism, highly motivated and enthusiastic, able to work independently outside the office.

This post is a two years fixed term.
