

Posting Example: Direct Bill Entry - Accrual Basis Accounting

The following example represents general ledger postings of **Direct Bill Entry Statement** (CEI) transactions in **AMS 360** for an agency that chooses **Accrual Basis** accounting in **Agency Setup**. To understand the example, read through the **Accounting Events** and then trace the postings by following the event number.

- ☰ All positive amounts indicate debit postings to the GL number indicated in the column heading; all amounts in parentheses represent credit postings. GL numbers may vary depending on company classification (insurance/brokerage), premium type (P&C, Life, etc.) and customer type (customer/broker).

Assumptions

- **Company Setup > Billing Options** for ABC Insurance Company are set to: 1) Line of Business = Private Passenger Auto; 2) Direct Bill – How do you want to bill direct bill transactions? = Direct Bill Entry; 3) Bill Using Downloaded Premiums is selected.
- A direct bill policy transaction is downloaded from the company for a New Business Personal Auto policy; \$1000 premium, 10% agency commission with 50% of agency commission to the producer, Sam Smith.
