

Multiple Consultant Report (MCR)

The minimum number MCRs required for each specialty is listed in the table below. The maximum number for all specialties is six. Each MCR form is completed by one consultant so if a minimum of four MCRs is required, four clinical supervisors should complete one MCR form each. The feedback received is summarised in the MCR year summary sheet on the ePortfolio for the educational supervisor (ES) and will inform the ES report.

Specialty	Minimum number of MCR per academic year
Core Medical Training	4
Acute Care Common Stem (ACCS) – Acute Medicine (CT3)	4
Acute Medicine	4
Allergy	2
Audio Vestibular Medicine	Optional but recommended where a trainee is working with more than one clinical supervisor
Cardiology	4
Clinical Genetics	2
Clinical Neurophysiology	2
Clinical Pharmacology and Therapeutics	4
Dermatology	4
Endocrinology and Diabetes Mellitus	4
Gastroenterology	4
General Internal Medicine	Trainees in dual CCT programmes should ensure 2 of the required MCRs for the specialty include feedback on GIM clinical abilities
Genitourinary Medicine	2
Geriatric Medicine	4
Haematology	2
Immunology	2
Infectious Diseases	4

Medical Oncology	4
Medical Ophthalmology	4
Metabolic Medicine	Not applicable
Neurology	4
Nuclear Medicine	2
Paediatric Cardiology	2
Palliative Medicine	2
Pharmaceutical Medicine	Not applicable
Rehabilitation Medicine	2 (3-4 desirable)
Renal Medicine	4
Respiratory Medicine	4
Rheumatology	2
Sports and Exercise Medicine	2
Tropical Medicine	Please refer to Infectious Diseases for MCR requirement but note MCR are optional during period of training outside the UK
