PRACTICEPLANNERS® SERIES PREFACE

Accountability is an important dimension of the practice of psychotherapy. Treatment programs, public agencies, clinics, and practitioners must justify and document their treatment plans to outside review entities in order to be reimbursed for services. The books and software in the PracticePlanners® series are designed to help practitioners fulfill these documentation requirements efficiently and professionally.

The PracticePlanners® series includes a wide array of treatment planning books including not only the original *Complete Adult Psychotherapy Treatment Planner*, *Child Psychotherapy Treatment Planner*, and *Adolescent Psychotherapy Treatment Planner*, all now in their fifth editions, but also *Treatment Planners* targeted to specialty areas of practice, including:

- Addictions
- Co-occurring disorders
- Behavioral medicine
- College students
- Couples therapy
- Crisis counseling
- Early childhood education
- Employee assistance
- Family therapy
- Gays and lesbians
- Group therapy
- Juvenile justice and residential care
- Mental retardation and developmental disability
- Neuropsychology
- Older adults
- Parenting skills
- Pastoral counseling
- Personality disorders
- Probation and parole
- Psychopharmacology
- Rehabilitation psychology
- School counseling and school social work
- Severe and persistent mental illness
- Sexual abuse victims and offenders
- Social work and human services
- Special education
- Speech-language pathology
- Suicide and homicide risk assessment

- Veterans and active military duty
- Women's issues

In addition, there are three branches of companion books that can be used in conjunction with the *Treatment Planners*, or on their own:

- ***Progress Notes Planners*** provide a menu of progress statements that elaborate on the client's symptom presentation and the provider's therapeutic intervention. Each *Progress Notes Planner* statement is directly integrated with the behavioral definitions and therapeutic interventions from its companion *Treatment Planner*.
- ***Homework Planners*** include homework assignments designed around each presenting problem (such as anxiety, depression, chemical dependence, anger management, eating disorders, or panic disorder) that is the focus of a chapter in its corresponding *Treatment Planner*.
- ***Client Education Handout Planners*** provide brochures and handouts to help educate and inform clients on presenting problems and mental health issues, as well as life skills techniques. The handouts are included on CD-ROMs for easy printing from your computer and are ideal for use in waiting rooms, at presentations, as newsletters, or as information for clients struggling with mental illness issues. The topics covered by these handouts correspond to the presenting problems in the *Treatment Planners*.

Adjunctive books, such as *The Psychotherapy Documentation Primer* and *The Clinical Documentation Sourcebook*, contain forms and resources to aid the clinician in mental health practice management.

The goal of our series is to provide practitioners with the resources they need in order to provide high quality care in the era of accountability. To put it simply: We seek to help you spend more time on patients, and less time on paperwork.

ARTHUR E. JONGSMA, JR.
Grand Rapids, Michigan

ACKNOWLEDGMENTS

Again, I am deeply indebted to David Berghuis, who managed the project of updating this fifth edition of *The Adult Psychotherapy Progress Notes Planner*. He is responsible for modifying the evidence-based chapters to make them coordinate exactly with the new fifth edition of *The Complete Adult Psychotherapy Treatment Planner*. Thank you, Dave, for your fine work.

A.E.J.
