Executive Summary

This document is a proposal for a range of Cyber Security Capabilities including Consultancy, Briefings and Training events and suggestions as to a range of alternative offerings to engage Vibert Solutions.

The Security threats are ramping up significantly and most Engineering companies need help in improvement programmes. A very small percentage of Industrial companies have a solid plan to improve. This consultancy and training suggestions are a start of a pathway to improving your security, your customer's security and ultimately your safety in operation and in business.

Training events, together with any Briefings and round-table sessions are a solid basis to understand the threats, risks and mitigations from an independent Industrial Cyber Security Advisory. Further work programme discussions such as Consultancy would be welcomed.

Full customisation of all the assistance, consulting, training and briefing presentations are available to fit your requirements.

Any proposed consultancy or training will be with experienced Industrial Operational Technology Security Practitioners with experience in both the Automation and Control market and the Cyber Security market. A suitable example profile is provided in this document although alternative experts may be substituted as necessary.

Proposal

Vibert Solutions Limited offers a range of independent Consultancy, Training, Advisory and Facilitation Services as contract to scope.

Vibert Solutions example expert’s background profiles and testimonials are enclosed at the end of this document. Alternate suitable experts will be provided where necessary to Consult, train, brief, architect or facilitate.

Vibert Solutions work follows an open, trusted and collaborative teamwork approach.

+++++

Further topics and work may be identified and proposed during any consultancy, workshop or training event for mutual written agreement before any future work programmes are carried out.

Vibert Solutions consults, advises and presents to CxOs, Boards, Management or shop-floor teams on many security and industrial information subjects such as: -

- SCADA and Automation basics.
- MES/ Middleware/MOM for business benefits.
- Industrial ICS IIOT Cyber Security basics.
- Industrial ICS IIOT Cyber Security advanced.
- Basic high-level Risks and Information Assurance in Industrial Control Systems.
- Building winning teams for Industrial Cyber Security programmes.
- The Stairway to Security.
- Holistic Integrated Security - the Security Convergence Revolution.
- The Security Jigsaw - Onion Rings - The Architectures of Defence.
- Assisting companies to select and engage with new partners for Cyber Security, Physical Security, MES/MOM and Automation.
- The cultures of Customer and Partner engagements.
- Engaging and aligning collaboration with Academia.
- Innovation.
- Building Demonstration Facilities.
- Business Development for Engineers.
- Training your teams and others.
- Evangelising - Companies, Products and Solutions.
- Successful Security Workshops.

Rates and Charges:

Contract rates and expenses detailed below. Full terms and conditions available on request.

All shipping charges, packaging, handling, customs and insurance costs charged at cost plus 10%.

All delegate meals and unlimited refreshments throughout the day provided by host company.

Event Delegate Accommodation, Transportation, Meals, etc. are excluded.

Business Class Flights, Hotels, Meals, Transport, etc. all charged at Cost plus 10%

All courses include presentations and manuals (where ordered). Tutors are interactive often including a round-table workshop.

All courses can be tailored for other durations such as 1 day, 2 days, 3 days, etc. but will be trimmed in content to fit available time.

All delivery can be tailored to Clients requirements where possible and with prior notice.

All Training materials including manuals, PowerPoints, leaflets, guides, white papers, etc. remain the copyright and intellectual property IP of Vibert Solutions Limited.

Any 3rd party content remains the IP of those 3rd parties where referenced.

Vibert Solutions usually charges expenses that are arranged by Vibert Solutions at cost plus 10%.

Expenses at cost +10% all based on 30days net invoice.

It is assumed that long haul travel will be business class minimum, and hotels as agreed.

All work determined by Vibert Solutions, agreed in advance and tailored to Client's requirements.

Full Vibert Solutions Limited's Terms and Conditions available on request.

Rates based on 30 days net payment from invoice or sooner.

Minimum number of attendees for per-person-courses is to be discussed based on course.

Manuals and printing at cost plus 10% but guide cost is around £150 per person

Requirements:

To be discussed.

Usually discussions workshops assist greatly in defining the services and solutions needs.

Mutual understanding is always iterative.

Proposals for a range of Consultancy/Advisory work:

To be discussed.

Typical Consultancy carried out:

Gap Analysis

Requirements Definition

Compliance Surveys

Cold-Eye-Reviews

Risk Assessments

Impact Assessments

Compliance Reports to IEC 62443, ANSSI, NIST, NIS-D, etc.

Remediation Plans/Mitigations

Solutioneering

Customer Friends

Vendor Management

RFQ / RFP development

Governance

Documentation

Proposals for a range of Training and Briefing courses:

A wide range of Training, Briefings and Workshops are available. Several typical courses are proposed below and each course syllabus example details follows in separate sections. Content is likely to change and will be confirmed prior to order placement.

1. Cyber Security Briefings

2 hours –30 mins presentation – 1.5-hour round-table – suitable for Boards, Senior Management or Engineering Teams.

2. Industrial Cyber Security Briefings

2 hours –30 mins presentation – 1.5-hour round-table – suitable for Boards, Senior Management or Engineering Teams.

3. GICSP Training Course (Global Industrial Cyber Security Professional)

A private 5 day GICSP training course at x not including the exam.

This training course will cover full content up to the level of the GICSP exam and provide the material that that delegates can take into the exam room.

The actual GSICSP exam will need to be booked by the delegates themselves as individuals as the governing body GIAC is quite particular about this condition - this is currently about an additional cost.

4. Cyber Security – Decisions Game Event – 1-day -

Teams of 6 people. Many concurrent teams possible. Allow about 5 hours or more. Games kits also available for sale. Good for Team events with your Clients.

5. ICS Cyber Physical Security - Introduction Course

- 1 day training course -

6. Cyber Security - Introduction Course

- 1 day training -

7. ICS Cyber Physical Security – 3-day custom training course

- Full content – 3 days training course -

8. Cyber Security - 3-day custom training course

Full content – 3 days training course - £

9. Situational Awareness workshops

10. Security Workshops – custom created and delivered to your needs.

Please call to discuss your needs

Cyber Security Briefings

- This is a basic introduction briefing and covers a high-level view of Cyber Security. Suitable for Business Leaders, Management and Engineers tasked with enhancing security.
The briefing is a taster on the current threats, some technologies and services to mitigate the threats and an introduction to security strategies.
- **Traditional IT systems and threats in the news**
- **Cyber and Physical Security convergence**
- **Cyber Attack Surfaces**
- **Risk, Threats, Vulnerabilities and Impacts**
- **Cyber security incident management**
- **Cyber Security mitigation programmes**
- **Security enhancement strategies**
- **Round-table Q&A and discussions**

Industrial Cyber Security Briefings

This course is a basic introduction briefing and covers a high-level view of ICS Cyber Security. Suitable for Business Leaders, Management and Engineers tasked with enhancing security. The course is a taster briefing on the current threats, some technologies and services to mitigate the threats and an introduction to security strategies.

- **Traditional IT and ICS systems and threats in the news**
- **ICS Cyber and Physical Security convergence**
- **ICS Cyber Attack Surfaces**
- **Risk, Threats, Vulnerabilities and Impacts**
- **ICS Cyber security incident management**
- **ICS Cyber Security mitigation programmes**
- **ICS Security enhancement strategies**
- **Round-table Q&A and discussions**

Potential future engagement of Vibert Solutions Limited:

Vibert Solutions has extensive experience in most industries and roles and can assist you in a wide range of improvements around SCADA, Automation, MES, Physical and Cyber Security, such as:-

Market enhancement

- Marcomms via extensive LinkedIn contacts and groups.
- Attendance, meeting delegates and reports of events and conferences.
- Corporate Evangelist
- Design and submission of white papers and advertorials.
- Thought leadership document creation.

Press and Media events.

- Creation and Management of topical events at HQ or around UK&I
- Arrange and attend engagement visits to SIs, Partners, Vendors, End-Users, Academia, etc.
- Webinars on hard or soft subject topics

Internal and External Education:

- Training sessions / Brown-Bags on Cyber-Physical topics
- Innovation sessions
- Develop ICS Security training for Boardroom or shop-floor

Business Reviews

- Website and Market channels

Customer Engagement Reviews

- Marketing Material and Presentations
- “The Customer Journey”

Business Development

- Determine new customers
- Engage with new and existing customers
- Determine new verticals and markets

Build better Market presence and Brand Awareness

- Review current campaigns
- Brainstorms with key internals and externals
- Report current and steps to improve where found.

Products and Service offerings reviews

- Review current products and services
- Brainstorms with key internals and externals
- Produce and manage innovation groups
- Report current and steps for review and development where found

Pre-Sales Support

- Engage with current sales people and opportunities
- Assist with SME expertise where useful

Many other possibilities of assistance or tasks can be discussed – see profiles and successes:

Note: Clients are responsible for ensuring their own compliance with various laws and regulations, including the European Union General Data Protection Regulation. Clients are solely responsible for obtaining advice of competent legal counsel as to the identification and interpretation of any relevant laws and regulations that may affect the clients' business and any actions the clients may need to take to comply with such laws and regulations. +44(0)7909 992786

An Industrial Cyber Security Adviser and Evangelist, Customer and Supplier Engagement Manager, Solution Architect, Systems Manager, Consultant with over 20 years in Industry, managing solutions and teams in a wide range of markets and industries. He is well known in the Security, Cyber, Automation and Industrial Information Industries and an Accredited Systems Architect. Creation and management of the Critical Infrastructure Protection (CIP) Facility and the TRUST Security Explorer Facility for Thales UK in Basingstoke.

Previously worked on projects with EDF, Sellafield, RWE, National Grid, BP, KOC, Network Rail, Thames Water, Dwr Cymru, Jordans Ryvita, Shell, Ford and many more.

Experienced with Command and Control C2 Systems, Control Rooms, System of Systems, CCTV, Cyber, Access Control, Situational Awareness, Robust and Resilient Architectures, PLCs, SCADA, HSMs, Encryption, Industrial Networks, Knowledge Databases, and Reporting Solutions. Throughout career production of many papers, references, editorials and public speaking engagements.

Many years of experience within the security threat environment has reinforced the necessity for converged Integrated Holistic Security to manage both current and emerging threats. Situational Awareness solutions are key to providing adaptive and timely response to events. Analysis and development work undertaken, demonstrates the links between Physical Security, Operational Management and Cyber Security with a particular focus on solutions to Mission Critical Facilities.

Solutions and Customer examples.

Physical & Cyber Security Partnering, Command and Control Rooms C2/C3/C4/C4i, Integrated Systems, CCTV Systems, Innovative Sensor Systems, Incident Management, Emergency Management, Integrated Communications, GIS/GEO systems, Situational Awareness Capability, Advanced Intrusion Detection, Radar/Seismic/Sonic/Magnetic/imagery/IR/UV, Integrated Access Control, Industrial Data Networks, Resilient Solutions, Asset Management, Data Intelligence Integration, Mobile CBRN Sensor solutions, Cyber Security Solutions.

CPNI, NIST, IEC 62443, Security, PSIM, CCTV, Command and Control, C2, SoS, HSM, High Security Systems, nCipher, eSecurity, Holistic Situational Awareness, Control Rooms, Manufacturing Execution Systems, SCADA, Industrial Information, Historians, Tracking, Automation, Control, Web, Networks, Kaspersky, DeepSecure, L3TRL, Rockwell, Wonderware, Siemens, Invensys, AspenTech, Schneider, Honeywell, ABB, Citect, GE Fanuc, etc.

Solutions provided for BP Exploration, GSK, Stelrad Doulton, Imerys, Astra Zeneca, British Steel, Ginsters, Ryvita, Coopervision, Thames Water Utilities, Welsh Water (Dwr Cymru), ICI, Highland Springs, SGS Thomson, Ford, Sibur, ISD, Pall, Ryvita, BlueWater, Astra Zeneca, Siemens, BOC, Network Rail, EDF, London Underground, Tubelines and many more.

Selected Testimonials

Infonomics Society

Martin Visser, Chair

Cevn has an inexhaustible source of ICS security knowledge, and a great guy to work with!

IQPC

Herve Bavazzano, Sales Director.

Great source of knowledge and a key advisor to the industry. Great guy too. Highly recommend engaging with Cevn Vibert

SolutionsPT

“Cevn has helped us to make significant progress in this Cyber Security area by defining thought leadership content, a range of potential suppliers, partners and solutions and a Cyber Security business plan.”

Thales

Roger Ingle, Technical Director.

I have known and worked closely with Cevn for the last five years of this period. Throughout his time at Thales Cevn’s attitude, behaviours and commitment have been of the highest standard. His personal standards and integrity have been exemplary and he has applied high levels of creative and adaptable intelligence to his work. Cevn has contributed to the down-selection and winning of several bids and prospects over this time and built a team exploring Information Solutions and Knowledge Management for Thales corporate. Cevn is a Founder Team Member of the Thales Innovation Group and has consistently demonstrated enthusiasm for innovative applications of technology. He is an effective communicator and has successfully delivered training courses and mentored other staff. In his role as Research and Development Manager working directly for me, he was particularly skilled at building collaborative relationships with partners, suppliers and potential clients. I would be pleased to answer any further questions relating to Cevn’s suitability for a specific role.

Matthew Tucknott. Software Specialist GIS

“Cevn is a great person to work with. Dynamic and very hard working. He seamlessly mixes with junior members of staff as well as senior members of staff. He clearly has great expertise in his field of National Security. He can get the best out of people that work with him.”

Ben Davis, Supportability Engineer

“Cevn was an excellent Mentor to me during my first two years with the company. His experience and expertise within the company provided me with the ideal person to talk to with regards to all aspects of my professional, and personal, development within Thales. I can attribute my growth within the company, and towards Engineering Chartership directly, with the excellent advice and guidance he has provided to me”

Nicol McNeil, Sales and Business Development Manager.

“I had the great pleasure of working alongside Cevn within Thales' National Security and Resilience team; I know him to be an extremely capable for very complex Critical Infrastructure projects and requirements, who consistently demonstrates a depth of knowledge, integrity and high attention to

detail in the definition of solutions to satisfy both customers and Thales. Cevn's analytical, strategic thinking and inter-personal skills make him a key asset in any team.”

Steve Elmes, Business Lead, Thales Consulting and Cyber

Cevn is an extremely knowledgeable and experienced solution architect. I've had the pleasure of working with Cevn in the Thales UK Cyber Security practice where he has demonstrated his ability to successfully engage with senior Client and Partner company representatives and recommend him without hesitation.

John Ratajczak, Systems Engineering Consultant

“I worked with Cevn conducting business analysis of the security/safety needs for a major UK nuclear establishment. Cevn demonstrated an in-depth knowledge of industrial control systems and their application to provide cost effective and practical solutions. He demonstrated the ability to work effectively and professionally within a team but also was well respected for his leadership skills. Cevn was a pleasure to work with.”

Ian Christie, Engineering Manager

“Cevn worked with me directly on the definition of a large scale security control facility for a key national infrastructure site and indirectly on a Critical Infrastructure Protection demonstration facility. He has wide ranging knowledge of industrial control, automation, information and security systems and architectures, and is able to apply this knowledge at the high "blue sky thinking" level right down to the implementation and integration level. He brings both innovation and a methodical approach to problem solving. Cevn is also a people person who can communicate easily and professionally at all levels, with a calm style and a dry sense of humour.”

Sara De Neut, Key Account Leader

“Cevn is a highly professional, extremely knowledgeable solution architect. He clearly demonstrates deep domain expertise and is happy to explain technical matters in a way that is understandable to someone less familiar with the subject. Cevn is also hard working, customer and delivery focused and an absolute pleasure to work with.”

Gerald Callus, Bid and Programme Manager

“I have had the pleasure of working with Cevn, who acted as Solution Architect of a number of bids and internal projects I led. I found Cevn to be both versatile and adaptable and he brings a wide range of skills and good technical abilities to the team. Cevn is very professional, has a first class work ethic and a keen enquiring mind, tackling all challenges in a methodical and thorough manner. Cevn also has great people skills and takes time to understand requirements, both in the technical and business context, before diving into the task. I thoroughly enjoyed working with Cevn and look forward to the next opportunity to work with him”

Allan Crewe, Consultant (ex Engineering Manager, Ferranti Europe)

Cevn worked with me to design solutions to several systems in the Rail Sector in condition monitoring of trains and the control and monitoring of rail traction power supplies. Cevn was extremely professional in analysing the requirements and producing designs for the aspects of the project he was responsible for. He also dealt with both potential suppliers and sub- contractors in an extremely professional manner. I found him very reliable in producing deliverables to time and quality. He is also extremely easy to get on with and work with. “

Andy O'Malley, Programme Manager

"I worked with Cevn for a number of years at Thales and found him to be a valued colleague. He has a calm and personable style, a great sense of humour and an ability to work well within any team. Cevn is also very capable with a broad depth of knowledge and experience coupled with a solid work ethic. In my view he comes highly recommended."

Rockwell Automation MPS

Roland Ladewig, BU Manager/Leader Application Centre at Rockwell Automation MPS

"It was a pleasure to work with Cevn. He managed in extremely short time to get into the objectives of the job. Furthermore Cevn achieved to get us into market regions and industries we have not been before. His way of cooperation and driving things is outstanding. As an employee it was helpful to have an employee that managed constructive inputs to get the team in the right direction. I would recommend Cevn to anyone who needs a person that is capable to manage complex projects and sales opportunities as well as intensive customer approaches. Short version: Thanks Cevn"

Chris Rickey, Information Solutions Manager at Rockwell Automation

"I have worked with Cevn on several sales opportunities and internal projects. Cevn knows the MES space very well and always brings a unique perspective. He can talk about low level details such as how particular network protocols affect PLC communications all the way up to best practices on ERP integration and everything in between. I look forward to working with Cevn more in the future."

Giorgio Tori, Director Software EMEA at Rockwell Automation

"I have enjoyed working with Cevn; he has achieved many MES firsts for Rockwell across EMEA. Industry is really ready for MES and Rockwell is gaining this understanding also through Cevn's good and substantial efforts."

Jiri Capek General Manager, Controller, Finance & Business CEE at Rockwell Automation

"Cevn has developed and supported the business in our emerging markets mainly to support alliances and promote global connections to customers and partners. Cevn has significantly increased Rockwell footprint in the region."

Silchester Control Systems

Ian Trew, Head of Engineering at Ryvita

"Cevn designed, developed and implemented a full Factory Wide MES production information system for us, collecting detailed production and process information from countless devices across a robust industrial network. The information was organised and widely distributed to enable intelligent business improvement decision making. Cevn was responsible for Sales, Engineering, Consultancy and Project delivery to us for many of our Capital Projects. He delivered large projects to us, on time and to budget, and helped to market these successes across our Enterprise to both Board and Shopfloor.

Cevn has integrity, clear thinking, a sound grasp of true business benefits and a positive sense of humour that makes him continually a pleasure to work with.

One of those rare people you can work WITH to achieve the goals of all parties.

I strongly recommend him to other businesses as I know they will also benefit from a Cevn Project!"

Mark Honey, Senior Sales Executive at ICM Business Continuity Services

"Cevn and I collaborated together when he was working at Silchester. I was working at Stratus on a number of complex MES and safety critical system projects that required his in depth knowledge of the issues around implementing complex control systems within highly regulated industries. I found his in depth subject knowledge expertise extremely useful working on these projects."

Richard Porter, Senior Consultant & Partner at Forward Solutions

"Cevn contracted technical resource to my projects whilst working for one of the major pharmaceutical corporations. Throughout he was always professional, knowledgeable, personable, and would put in whatever extra was required to get the job done"

Sam Thiara, System Integrator channel manager at Schneider Electric

"I worked with Cevn on a major project for a food company implementing a Performance Management solution (MES). I found Cevn's approach to the whole project added great value to our business relationship and assisted the client to achieve increased yield, empowered management with an insight into previously undetectable plant issues and more importantly assisted the change process in a structured and demonstrable manner.

Only one of a few people that understand the MES space."

[Plato Business Group](#)

Paul Gordon, Director at Catalyze Ltd

"Cevn always made very helpful contributions to the PLATO group meetings, asking some of the hard questions that needed to be asked. Cevn also added a bit of fun at the times it was needed. It was a pleasure working with Cevn."

Bob Squirrell, Managing Director at Technology Marketing Management

"Cevn is a thorough professional, paying great attention to detail while always seeing the bigger picture. He combines excellent technical knowledge with good management skills and clear, confident communications abilities. A great asset to any organisation!"

Adrian Leach, Director - Business Development at HCR Group and Plato Business Leader

"In life there are those that talk about doing and those that actually do. Cevn is the latter. He is a dynamic team player who inspires others to get involved, to share openly and honestly and is man with high ethical standards. Cevn has a wicked sense of humour that makes it a joy to work with him. He is insightful, often observing fundamental elements of a problem that others have missed and then clearly explaining those issues to allow others to work with him to 'buy' into consensual solutions.

Cevn's PLATO Group have consistently demonstrated the most energy and willingness to work together for their individual success than any other PLATO Group. Cevn is typical of the group membership and I commend him to you."

[Cougar Automation](#)

Richard Sellwood, MD Cougar Automation

"Cevn was a valuable member of my team. I enjoyed working with Cevn and relied on his technical knowledge and professionalism in carrying out his role as MES Business Manager."

Ian Manners, Project Manager Cougar Automation

"Cevn is extremely knowledgeable, patient and very good at what he does. He is also a nice guy. A real pleasure to have worked with him!"

Keith Monkton, IT Manager Coopervision

"Cevn is personable, professional and expert with a high level of integrity. He always delivered the right solution at the right time with enthusiasm and a great work ethic, and was held in high regard across the group. I would have no hesitation in recommending Cevn."

PACS

Pete Gasson, Project Manager PACS

"Cevn, is a very competent and committed engineer and we spent many a long evening together in the 90's working into the early hours commissioning hardware and software on sites. Even under those stressful conditions he was always fun to be with and the quality of the end results of our efforts were plain to see.

At the time of working together his SCADA knowledge was exceptional and the lack of a front end drawing package with some didn't faze him.

I believe he still holds the record for writing and commissioning PLC software for a large waste water site...2 weeks from scratch.

Since the Pacscom days he has branched out into MES and the same commitment is noticeable. On the leisure side even his fishing is improving."

Mike Knights, Sales Director PACS

"Cevn was one of a small team working on our SCADA systems projects. He was very committed and worked to do the job even if this meant long hours etc.

He had a good working knowledge of a number of SCADA Suites, although when with us he worked on FIX, INTOUCH and an old Vax based package. (Dexterity)

I have kept touch with Cevn after he left PACS Ltd and he has worked for PACSCOM (New name of PACS Ltd) as a supplier specifically on Pharmaceutical based SCADA systems with their associated requirements for logging and archiving data to meet legislative standards.

Cevn also networks in the industry and is knowledgeable about the industry trends and current technologies."
