School Introduction:

Kang Chiao International School is a premier Taiwanese educational institution.

We strive to provide a culturally stimulating environment, where diversity is celebrated and students are provided with the skills to succeed in a global society. To do this we utilize innovative pedagogical methods based on an international curriculum.

Our Kindergarten campuses are located in the heart of Taipei, Taiwan, and in Kunshan, China (just outside of Shanghai). We have top notch teaching facilities, including: spacious classrooms with smart boards, a full library, a cooking classroom, an indoor and outdoor playground, a roller-blading site, a graffiti wall, a sand bunker, a pond, and a state of the art pool.

We are currently interviewing certified teachers for the position of English Preschool Teacher. Teachers are responsible for teaching five 30 to 45 minute lessons centered on phonics, reading, and writing, and participating in school wide functions. We adopt a theme based curriculum to indulge our students in a language learning and knowledge developing environment. Each theme is selected carefully and relevant to the students' everyday life. Other closely related topics are extended from each theme to help broaden our students' view. Students learn useful English vocabulary and sentence patterns as well as daily life concepts by hands on activities, observations, explorations, and discussions. With our thematic curriculum and training, Kang Chiao's students are able to express their thoughts and emotions clearly and freely.

Kang Chiao International School believes in providing their teachers with a nurturing and positive environment. Kang Chiao Preschool teachers are provided with professional development opportunities, such as on-site training workshops and administrative coaching. Teachers are also provided with an office space outside of the classroom—including a cubicle, a computer, and an endless supply of teaching resources.

Please visit our official website for detailed information.

Specific Responsibilities:

- Teach five 30 to 40 minute lessons a day focusing on phonics, writing, and reading
- Participate in collaborative curriculum development, grade-level activities, and school-wide functions
- Thematic curriculum- use different themes to plan lessons accordingly
- Communicate effectively with students, families, and colleagues
- Create intentional lesson plans that support academic rigor and student engagement
- Weekly and term student learning assessment reports
- Work with co-teachers to help students build up learning habits, positive attitude, and daily routine skills
- Assist co-teachers whenever and wherever possible

Compensation and Benefits:

- Well-established curriculum and training program
- Professional development
- Free comprehensive health care
- Quarterly evaluation bonuses, contract completion bonus, renewal bonus, housing bonus, and Chinese New Year Bonus
- Alien Resident Certificate Sponsorship
- 3 week paid vacation (this is to be confirmed after the new policy)

Why KCBS:**KCBS will provide:**

Administrative coaching and training workshops to transform teachers into master educators

Regular professional development seminars, workshops and the like to help our teachers become masters in the field of early childhood education

Unlike other preschools in Taiwan, Kang Chiao focuses on the needs of its students, parents, and teachers. We make sure that everyone feels welcomed, appreciated, and highly valued. We are a big happy family.
