

CarPro Systems - Solutions for the Automotive Industry

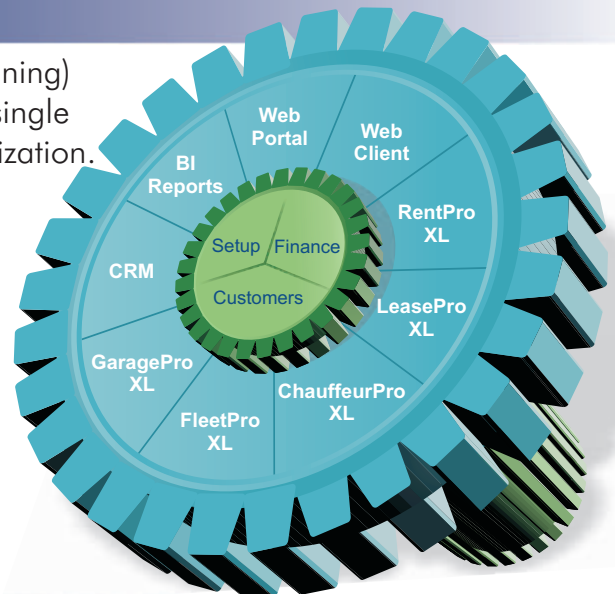

In today's highly competitive world your business needs a sophisticated and flexible solution for automotive management. CarPro Systems provides ideal solutions for leasing, renting, chauffeur services, fleet control and garage management functions. CarPro Systems' state-of-the-art automation and artificial intelligence maximizes your profits by optimizing fleet utilization and minimizing operational costs.

Our goal is to increase your profits.

Complete ERP Capabilities

CarPro Systems is a complete ERP (Enterprise Resource Planning) system that optimizes your business processes to provide a single integrated solution for all aspects of your automotive organization. CarPro's ERP solution includes the following modules:

- RentProXL
- LeaseProXL
- ChauffeurProXL
- FleetProXL
- GarageProXL
- CRM
- Web Portal
- Web Client
- BI Reports

Fully Integrated

Regardless of its size and extensiveness your business needs to function as a unified unit. CarPro Systems is a fully integrated solution that automates every aspect of your business within a single cohesive system.

Comprehensive & Modular Functionality

CarPro Systems, with its thousands of user-friendly functions, contains more functionality than any other automotive solution in the market. The CarPro Systems modules span all areas of automotive management, including price quotations, invoicing, purchase orders, car sales, planning, administration and control. CarPro Systems tracks and automates each and every activity.

Multi-Lingual and Multi-Company

CarPro Systems' multi-lingual and multi-company features allow you to expand globally and develop new segments of your business in different areas, such as corporate, leisure, leasing, chauffeur drive and replacement vehicles, all supported by CarPro Systems modules.

Customer Focused

Your customers expect personalized service and rates, and CarPro Systems delivers.

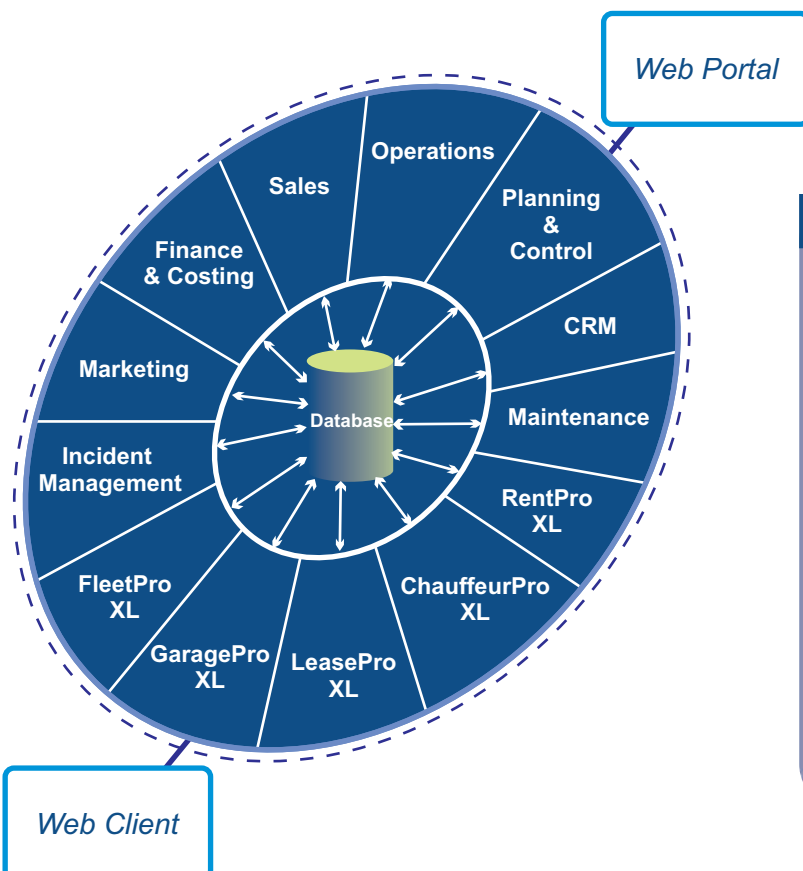

- ▶ CarPro Systems' automated rate-optimization process, based on advanced artificial intelligence, provides the correct rate at all times, minimizing customer complaints while maximizing revenue opportunities.
- ▶ CarPro Systems differentiates service for frequent renters and other preferred customers.
- ▶ CarPro Systems' Lease Quotation engine, based on best leasing practices, provides a reliable and accurate leasing calculation for your customers.
- ▶ CarPro Systems' internet functionality enables customers to obtain on-line rate quotations and make on-line reservations, reducing your service costs.

Advanced BI Reporting Tool

CarPro Systems' product comes to you with a built-in powerful BI reporting tool that allows you to create and publish your own reports in addition to a range of predefined reports.

CarPro Systems ERP facilitates:

- ▶ A new company culture in terms of integration, dependency and capitalization on your own data and procedures.
- ▶ Master planning concept based on artificial intelligence generated by customized business rules.
- ▶ Critical path authorization process ensuring consistency and reliability.
- ▶ Automatically generated management variance reports and controls.

About CarPro Systems International Ltd.

CarPro Systems has successfully implemented leading edge technology and solution to companies in the automotive industry for over a decade. CarPro Systems is a principal supplier of automotive management systems and services worldwide, with solutions and services covering the broad spectrum of the vehicle industry, from rental, leasing and chauffeur services to fleet and garage management.

Research & Development

Automotive applications and communications solutions are evolving at a phenomenal rate. New technologies and standards such as WAP (Wireless Application Protocol) and RF (Radio Frequency) technology have revolutionized the way we do business. Our R&D center sustains continuous technological development to ensure that CarPro Systems' solutions keep in step with dynamic market trends, and continue to develop and improve our range of products. *We are committed to your company's future technological development.*

International Presence

CarPro Systems has resellers throughout Europe and Middle East, including the United Kingdom, the Netherlands, Belgium, Luxembourg, Greece, UAE and India. We are continuously expanding our network of experienced resellers who are available to provide high-level first-line support to all of our customers.

In addition, CarPro Systems has a highly professional and experienced team of employees who are available worldwide for implementation and support. Our strong international presence guarantees the knowledge transfer between different geographical markets and adds value to our existing installed base and enhances our expansion into new regions.

CarPro's Mission Statement

"To be recognized as a leading provider of I.C.T. solutions for the Car Rental, Leasing and Fleet Management Industry based on cutting edge technology and delivering long term commercial benefits to our clients. We promise to deliver a robust suite of products that will allow our clients to respond rapidly to both their market and customer needs."
