Together We Achieve....

## ABOUT US

**M**itali Fashions Ltd., a 100% export-oriented garments manufacturing company, was established in the dawn of the new millennium with a vision to contribute towards the growth of Bangladesh as the second largest textile industry in the world.

During its journey over the last two decades, Mitali has achieved remarkable evolution and is now one of the major manufacturers and exporters of ready-made garments in the country. When it comes to ready-made garments, Mitali is a “cut above the rest”. Being a fully-integrated vertical composite unit, from fabric to the finished garment, Mitali prides itself in offering to its customers a one-stop solution to all garments demands. We are a technology driven company that strives to constantly improve its production processes, while closely preserving our commitment towards highest quality and guaranteed customer satisfaction.

Privately owned and family operated for more than two decades, we take immense pride in our dedicated team and the high quality of textiles and garments that we manufacture and export to different parts of the world. We, as a nation, are gradually earning the reputation of an emerging global market, and we are honored to contribute to this universal success.

## **OUR VISION**

To become the benchmark manufacturing company for the textiles and garments industry providing world-class products through the integrity, teamwork and creativity of our people driven by our constant commitment to outstanding overall customer satisfaction.

## **OUR MISSION**

To deliver high-quality products and exceptional services to our customers by harmoniously blending safety, quality and efficiency while diligently maintaining our integrity, honesty and dedication towards environmental and social responsibilities.

## OUR TECHNOLOGY

Based at the outskirts of Dhaka, in Kashimpur, Gazipur, the total square area of the composite unit is 2,35,000 square feet at present, with four new floors on the vertical integration agenda. Our commitment to constantly upgrading our infrastructure and resources is well-evident from our array of state-of-the-art machinery and equipment.

## OUR CLIENTS

Over the years, we have achieved immense recognition in the garments industry, both locally and internationally, due to our sincere professionalism and high quality standards. It is our belief that the relationships developed over time with our clients and peers is our most valuable asset and accomplishment.

Some of our esteemed client base is as follows:

## QUALITY GUARANTEE SYSTEM

From its inception, one of the main objectives of Mitali has been to provide buyer's satisfaction by offering quality products on time. Through our planned infrastructure, competent management and perfected organizational collaboration, we aim to maintain our quality consciousness which, in turn, enables us to preserve our customer's continued patronage. Mitali's ever-growing reputation in the garments fraternity is based on a simple but unwavering philosophy that runs through every aspect of our production process: **QUALITY!**

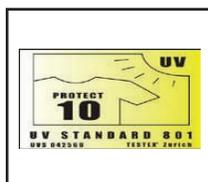

To ensure such quality, our internal Quality Assurance Department (QAD), under the leadership of highly experienced quality manager, along with a team of well-trained quality inspectors, are operating the QAD independently and autonomously of the production team. Our QAD is subjected to continuous training to meet the new developments in the industry, and works towards quality assurance using the most sophisticated and modern technology and techniques.

The pursuit of excellence has honed our QAD to the extent that our in-depth accountability and bar-coding system can trace each single apparel to persons who have individually stitched, checked or supervised the process, even after the manufacturing course has long been complete. Lower defects percentage even by international standards and a dwindling number of customer concerns reinforce our belief in our quality guarantee system.

## OUR ETHICAL STANDARDS

Mitali Fashions has always been a responsible and ethical name in the garments and textile industry of Bangladesh, and as such, has never ceased to abide by the internationally recognized codes of social accountability and ethical business practices. Owing to our high standards of social accountability and our commitment to constantly improving the working conditions of our employees, Mitali has received the following international certifications in the field of social compliance:

- Worldwide Responsible Accredited Production (WRAP)
- Gold Level- International Organization for Standardization (ISO)
- 9001:2000 Business Social Compliance Initiative (BSCI)
- OEKO-TEX Standard 100- Supplier Ethical Data Exchange (Sedex) Standard
- UV Standard 801
- Alliance for Bangladesh Worker Safety

## OUR ENVIRONMENT

At Mitali, sustainable and responsible business has always been a top priority, which is expressed through our sense of responsibility towards the community and the environment. Hence, corporate social responsibility (CSR) has always been an integral part of our corporate framework. Our CSR activities broadly take the forms of environmental sustainability, social responsibility and cultural involvement.

As part of our drive to materialize a green workplace, Mitali has established a highly advanced Effluent Treatment Plant (ETP) with a capacity of [insert] metric tons, whereby the water usage is drained and reused within the facility.

At our factory premises, we strive to establish and maintain the general practices of recycling and energy and water efficiency. At a more proactive level, Mitali has always been amongst the first in line to initiate and implement social campaigns, from donating blankets to the needy during winter, to organizing natural disaster aids during floods or cyclones.

Moreover, at Mitali, we believe that our workforce is our biggest strength. In view of that, the provision of a safe and sound working environment whereby employees are respected as individuals trumps all other business practice. Thereby, Mitali has earned goodwill amongst its employees as one of the most worker-friendly companies in the industry. Apart from compliance with the existing laws and regulations of the industry, some of our additional working features are as follows:-

- Non-discrimination amongst employees
- No child or forced labour
- Zero tolerance to harassment or abuse of employees
- Time card system
- Worker welfare department
- No excess overtime
- Paid maternity leave as per law
- Medical staff and doctor's room
- Child care room
- Trained employees in CPR, firefighting and rescuers amongst the workforce
- Male and female toilet facilities
- Safe drinking water for all employees
- Canteen for a seating arrangement of employees
- Clean, airy and well-lit workplace
- First aid boxes for every 100 workers
- Protective gear for all relevant employees
