

One-page Capstone Project Proposal Summary

This is the suggested format for a one-page summary of your Capstone project idea. The aim is to help you focus and get a clear idea of what would be involved in your project so that you can better communicate with your advisors and choose between different projects. Please summarize your planned project in 1 page, double spaced (roughly 500 words)

Project Title

Your Name

Purpose

State in one or two sentences what the project will do and produce.

Question

List your research/evaluation/policy questions or hypotheses.

Methodology & Data

Describe the data you are collecting or analyzing; from whom; how; when; and where?

Significance

Discuss how the study will contribute to addressing a public health problem and/or contribute to an academic field of study.

Resources Required

List the skills, help, approvals, you need to do this project. E.g., permission to use data, training in software or analysis method.
