

Overview

This standard is part of competence area related to carrying out analysis and evaluation. It covers managing, evaluation and reporting on digital marketing campaigns. As a digital marketer, you are responsible for creating, designing and running marketing campaigns. You devise a plan for your campaigns, identify the goals and objectives and develop strategies to support them. You use the set of management tools for meeting the needs of your audience. You use search engine optimisation, paid or sponsored search listings to ensure your audience see your products, services or brands. You understand that it is important to test and monitor your campaigns, evaluate their performance and analyse the results. You handle your campaigns through range of marketing campaign software features. Ongoing evaluation and assessment of your marketing campaigns are keys to ensuring your campaigns remain relevant and reach target audience. You know how to report on the marketing campaigns' results and performance. This standard is for Digital Marketing professionals who are involved in managing, evaluation and reporting on digital marketing campaigns.
