INTRODUCTION

Having reviewed your business requirements, we are pleased to submit this Search Engine Optimization (SEO) proposal.

Our team at is a group of highly skilled search engine optimization professionals that have years of experience in the industry. We stay abreast of the trends so that your campaign receives optimal results.

This proposal describes the methodology we use, timelines and deliverables, client requirements, proposed strategy, pricing and terms of working with us.

ABOUT

is a digital marketing agency offering a full suite of SEO services tailored to your business needs. Our team of passionate professionals simplify complex online marketing challenges using our diverse expertise in digital marketing.

Why Work With Us?

- ✦ **Proven track record:** We help businesses meet their goals and boost their ROI through our digital marketing solutions.
- ✦ **White hat practices:** We don't use practices that can put your sites at risk from Google penalties; we only use the best white hat SEO practices for your business.
- ✦ **Value-added service:** We provide premium solutions at rates that you can afford.
- ✦ **Transparency:** We provide comprehensive reporting for full campaign visibility so you can stay updated.

ABOUT SEO

The goal of SEO is to build a strong online presence to ensure visitors can more easily find your website amongst all your competitors online. Our primary aim is to improve page ranking so that users will see your website when they type certain keywords or phrases into search engines like Google. In order for us to achieve this goal, we have to coordinate several different, but closely related activities.

This proposal covers all the facets of our SEO service. Allowing us to manage all these activities ensures a professional effort and positive results. We conduct a thorough investigation to find out everything there is to know about your target audience and how we can utilize your website's content to drive traffic and turn your visitors into paying customers.

Our SEO methodology is a process that takes place over time, involving result-driven practices. Simply redesigning web pages and rewriting content won't ensure results. Truly building SEO authority takes an on-going effort over the course of months.

OUR FIVE-PHASE METHODOLOGY

Site Assessment

Here we get to know your business, identify your target audience, competitors and potential challenges to select keywords that will drive traffic to your website.

Quick Fact: 90% of a campaign's success relies on the proper selection of keywords.

Campaign Roadmap

Based on your industry, competition and the inherent characteristics of your site, we will create a strategy meant to match or beat the competition, taking your website's structure, code, and digital footprint distribution into consideration. We call this the Campaign Roadmap. All our experts organize the activities required to drive success to you in the shortest amount of time. We report the work to you in real time and in some cases, require collaboration to achieve the best results for your campaign. We drive as many strengths to your website as we can, as soon as we can.

On-Page SEO

We identify the technical elements of your site that can be improved and match search phrases to the pages on your site. A semantic signal evaluation ensures that your site is sending the correct information to Search Engines regarding your value proposition, products or services. Next, we create algorithmically appealing content while attempting to match your marketing language to penetrate Search filters and reach your target audience even better.

Quick Fact: 70% of ranking success in small markets is attributed to On-Page factors.

Off-Page SEO

Investigating your website's digital footprint tells us how other websites refer to you. Our job is ensuring we create a natural and balanced off-page profile for your website. Our proprietary outreach program assists us in acquiring inbound links from unique publishers each month.

Quick Fact: Backlinks still contribute to over 60% of rankings in search

Reporting and Analytics

As a company, we invest heavily in technology and provide you with real time reporting and collaboration through our proprietary user dashboard. Our dashboard integrates Analytics, Social and Search Console data to allow business owners holistic access to the most important marketing data about their site and project progress on Desktop, Tablet or Mobile. You have the power to generate reports and analysis online and in real time.

Quick Fact: Over 80% of ROI opportunity is found through Analytics and Periodic Reporting.
