

Annual Ordinary Medical Expense Tracking Log

If you are a custodial parent, and your order provides for annual ordinary medical, you must provide written proof each year that you have paid out of pocket expenses that are equal to the annual ordinary medical expense amount established in your order before requesting payment or enforcement of medical expenses.

Out of Pocket expenses include co-payments, deductibles, prescriptions, and other non-routine uninsured health care related costs for children. Routine medical, such as first-aid supplies, cough syrup, and vitamins cannot be submitted, because they are a part of the normal day to day expenses of raising a child.

Under the Michigan Child Support Formula, out-of-pocket expenses do not include health care premiums, because they are factored into the base support amount. If there is a premium that has not been addressed in the base support calculation, either party can request a support review.
