Standard Bookings

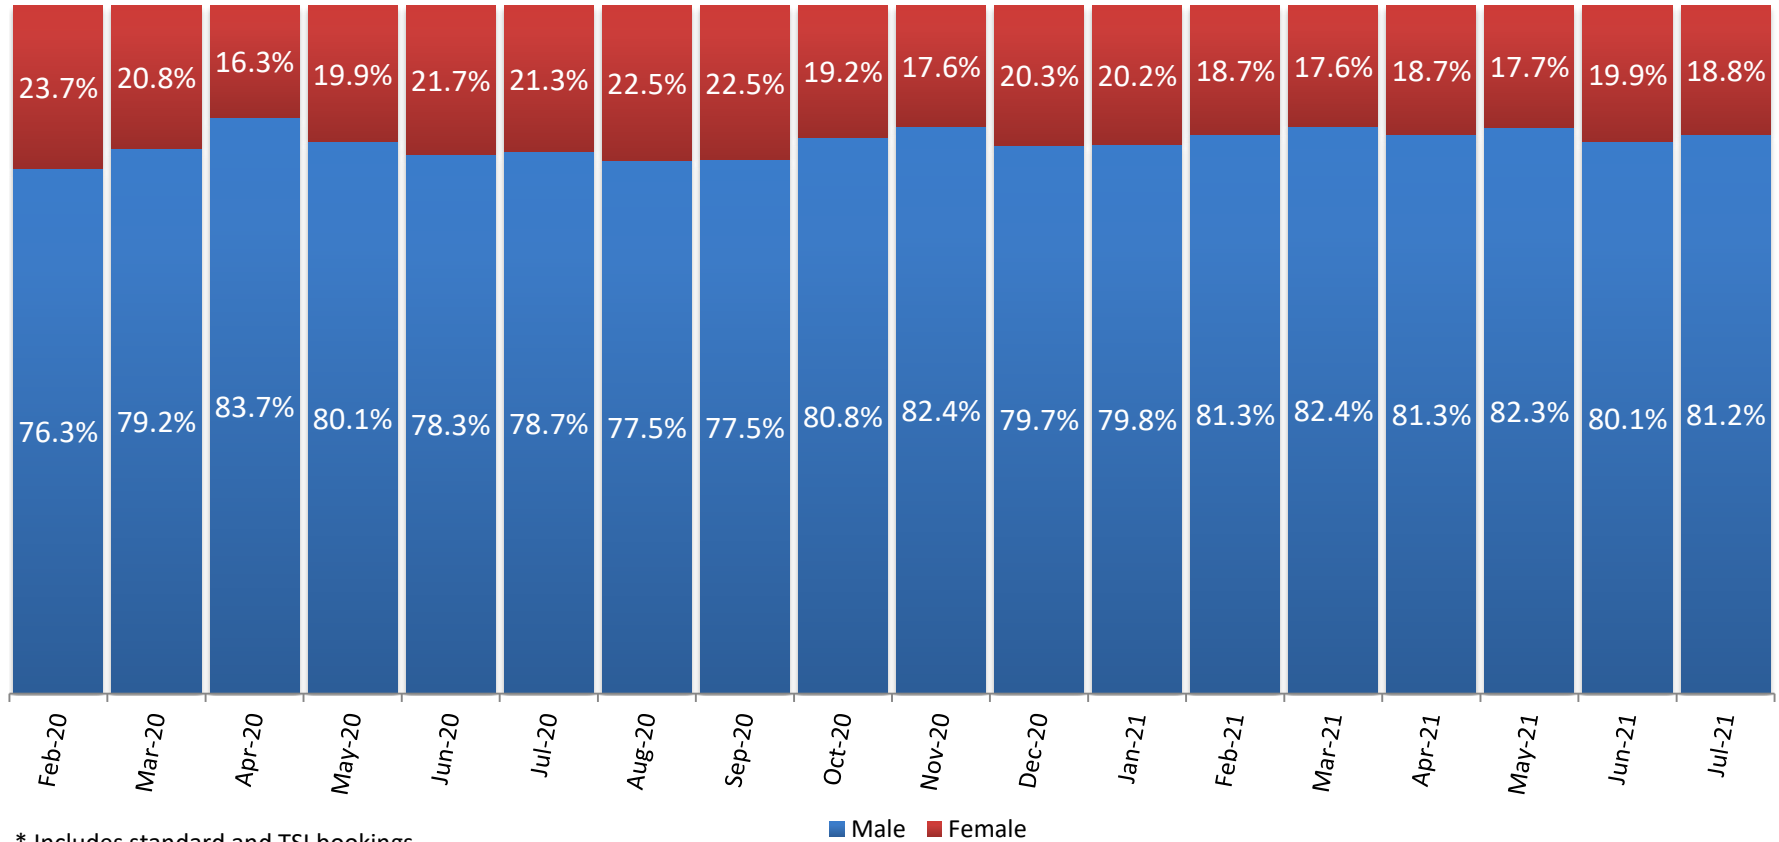

Standard bookings totaled 968 in July, averaging 31 bookings per day.

Turn-Self In and In-Transit Bookings

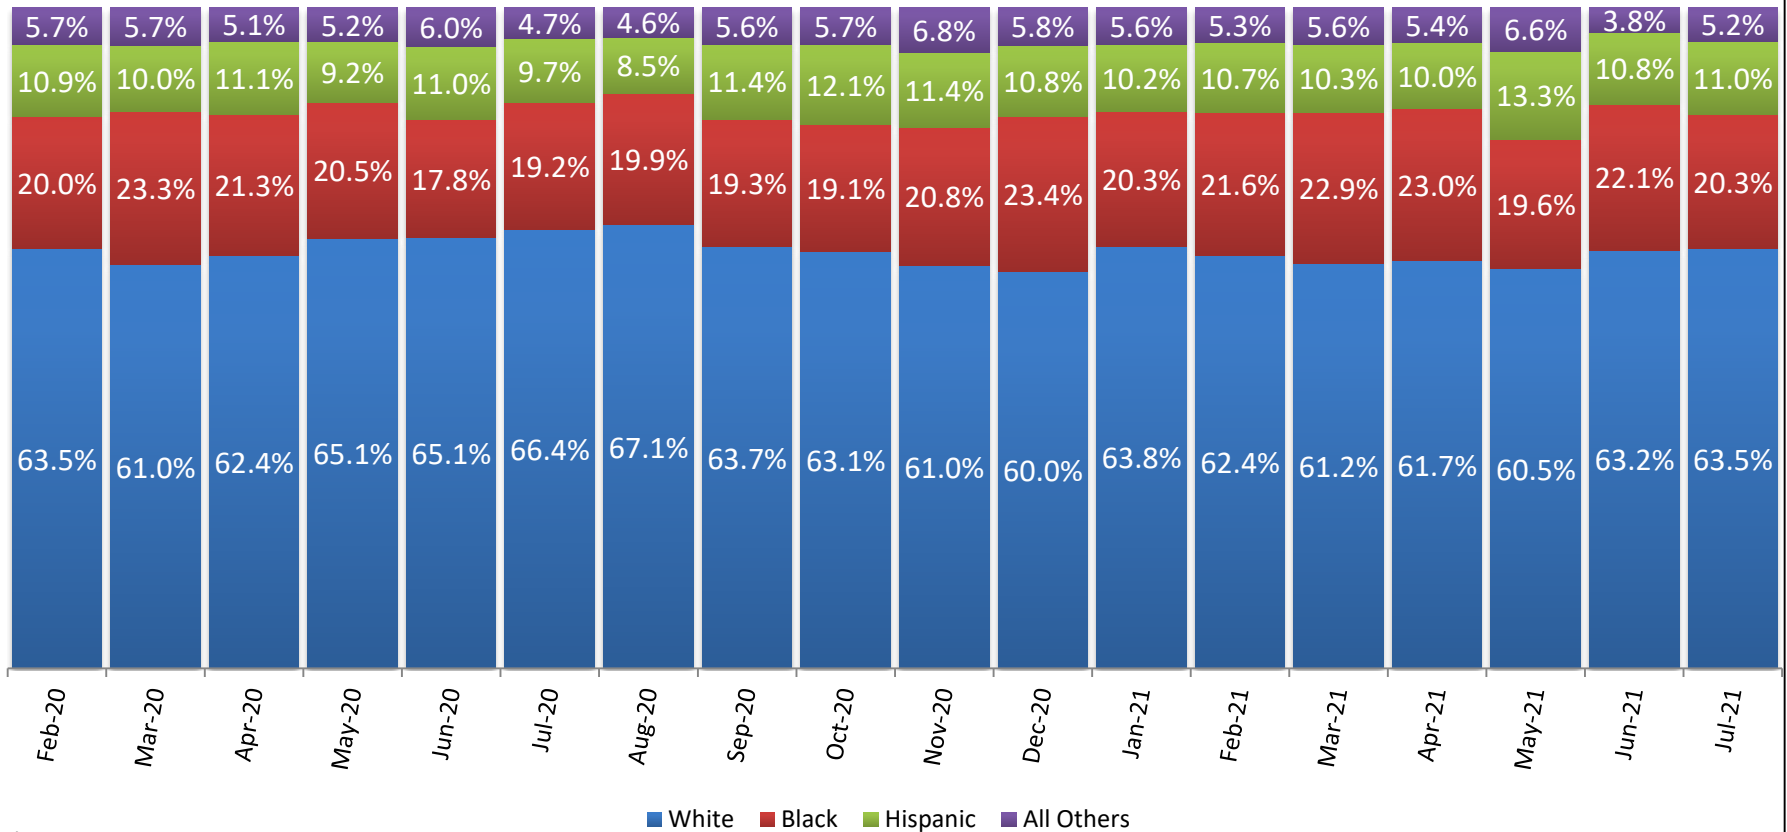

In-Transit bookings are individuals being held for other jurisdictions while being transported. While those In-Transit may stay overnight, they do not impact the daily jail system count. Turn-Self In (TSI) bookings are situations in which a person has been sentenced and ordered to return to jail at a later date.

Gender Composition of Bookings

The percent of females and males booked is typically between 22 - 25% and 75 - 78%, respectively.

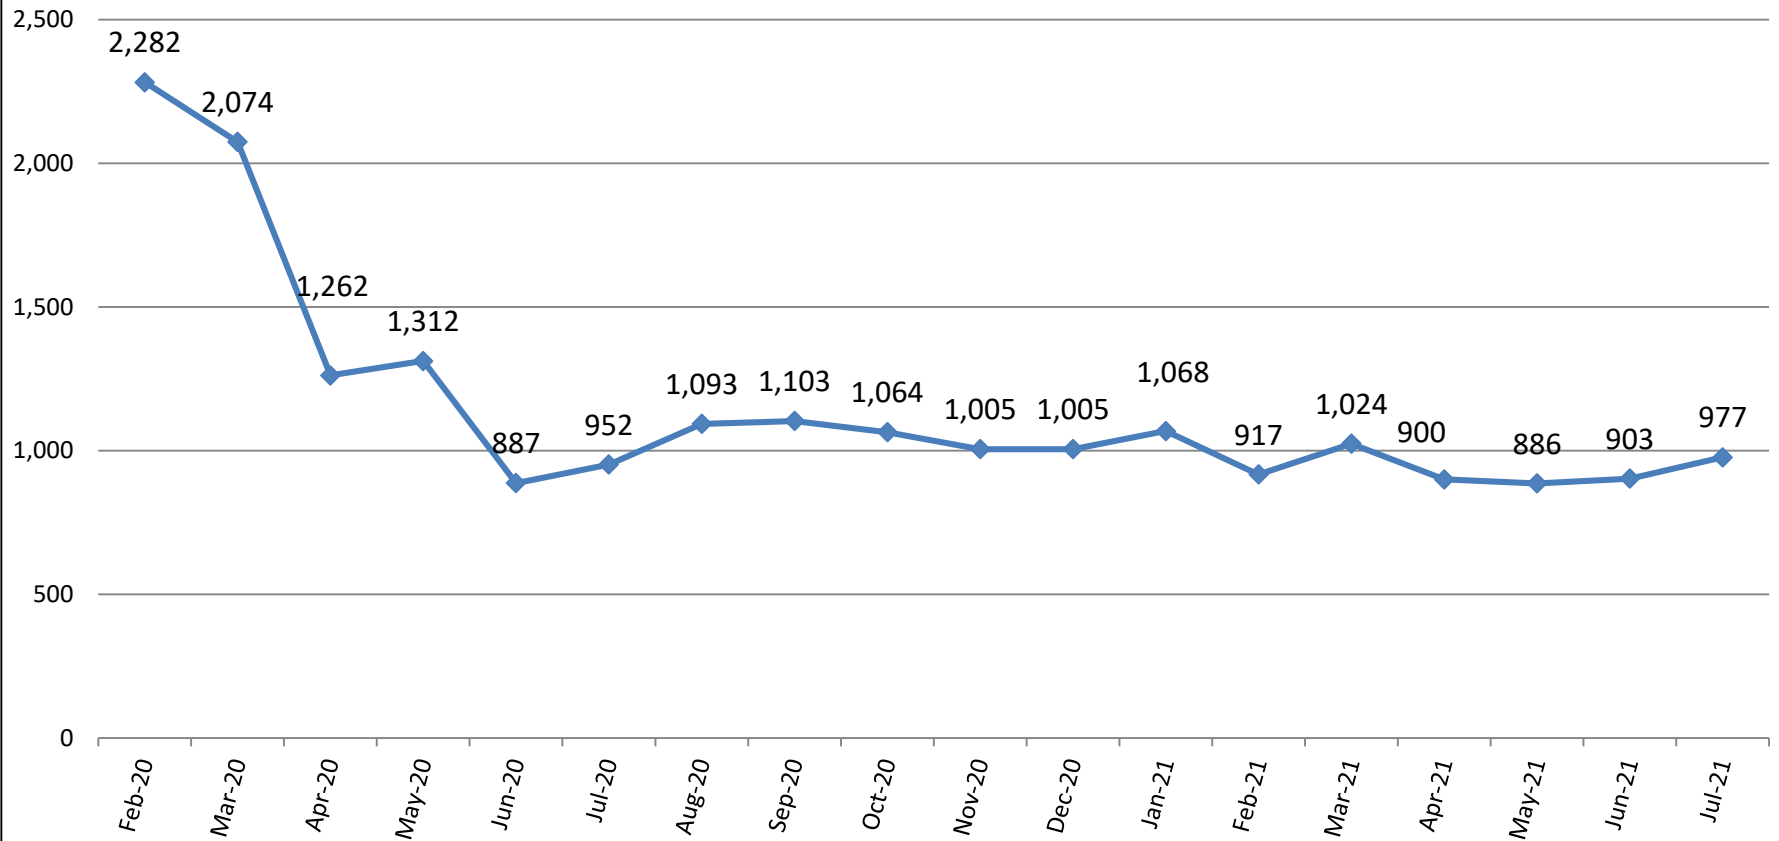

Ethnic Composition of Bookings

The ethnic composition of bookings is relatively stable month to month. Approximately two-thirds of those booked are White.

Total Releases

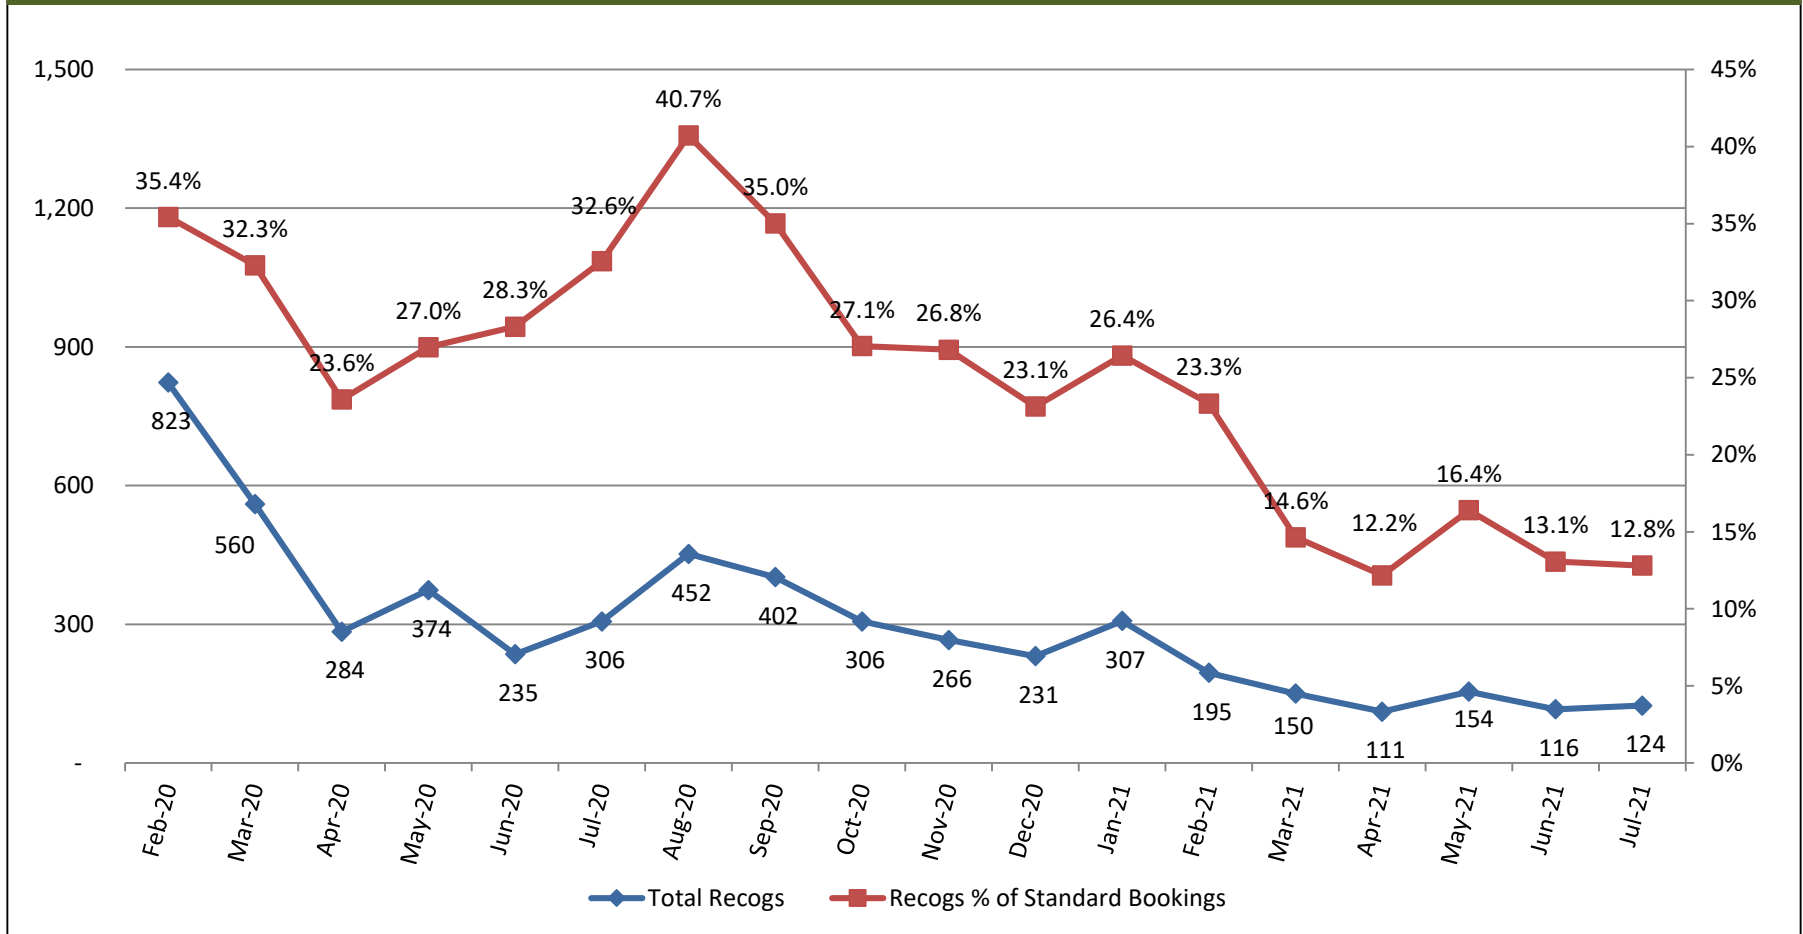

(standard bookings only)

Releases among standard bookings averaged 32 per day in July.

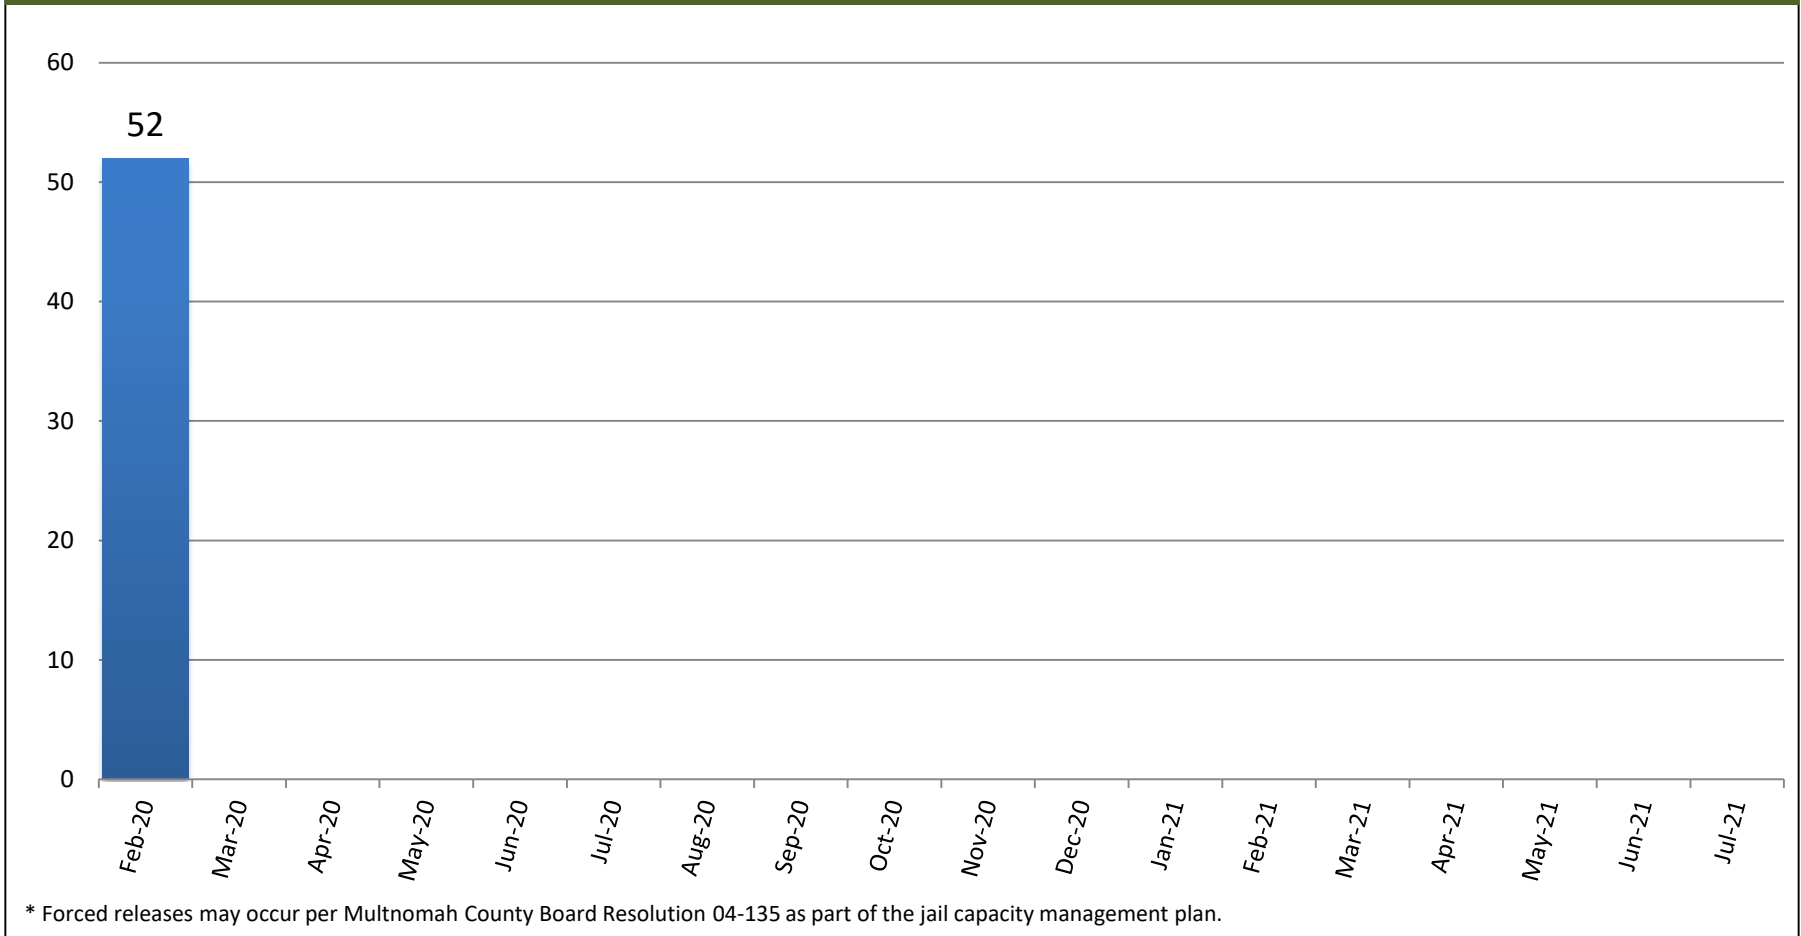

Recognizance Releases

(subset of total releases)

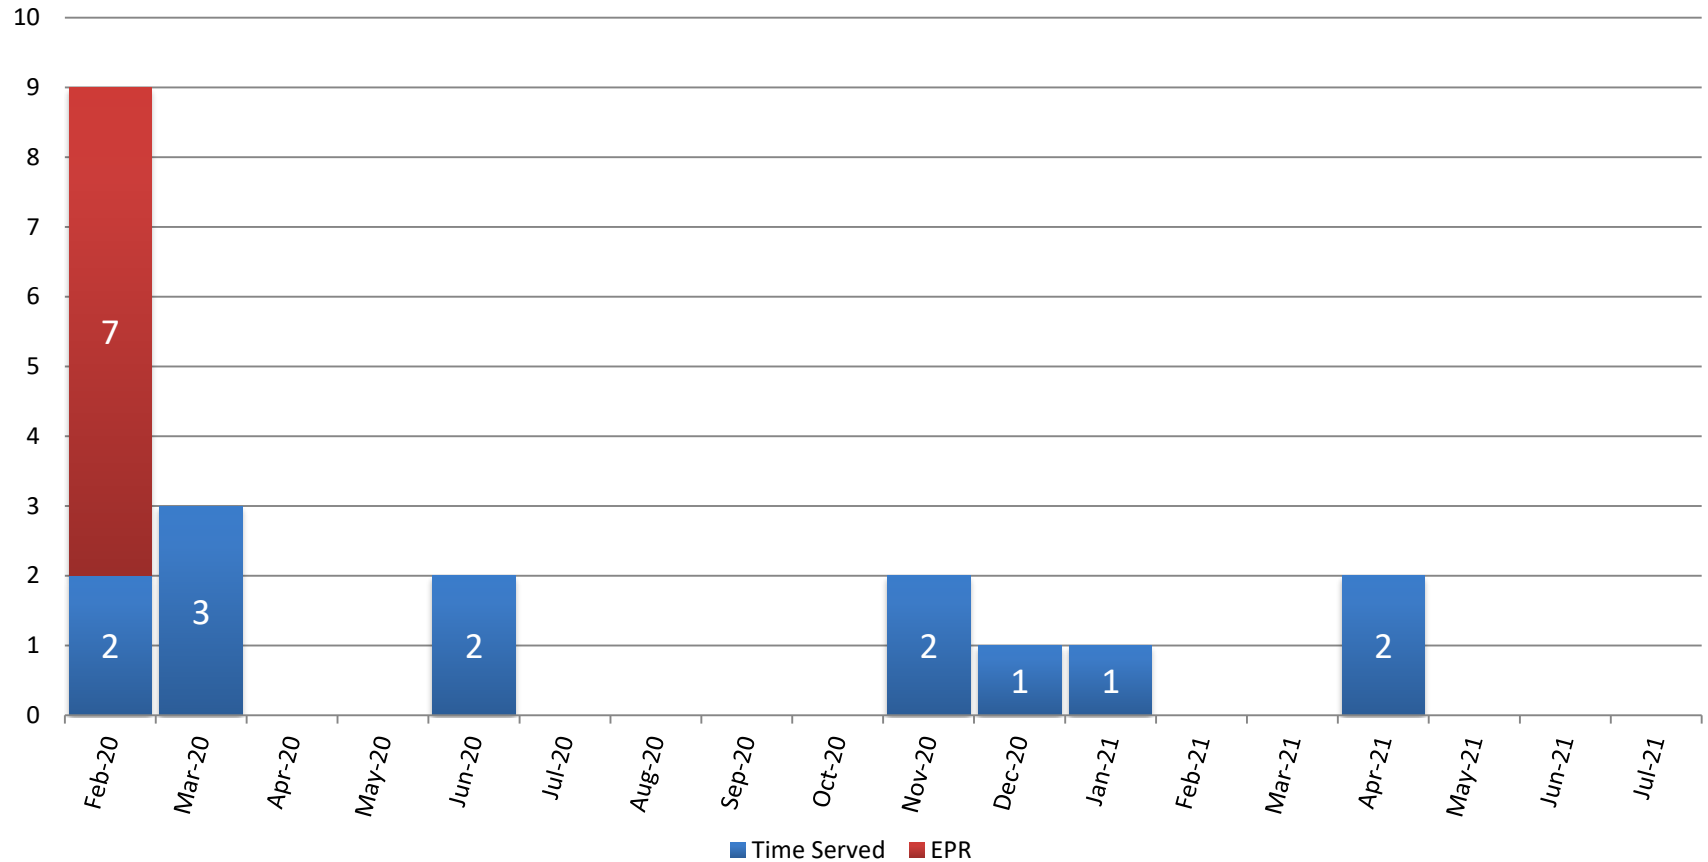

Recognizance releases averaged four per day in July. Just under 13% of all standard bookings were released on their own recognizance in July.

Forced Releases (EPRs)

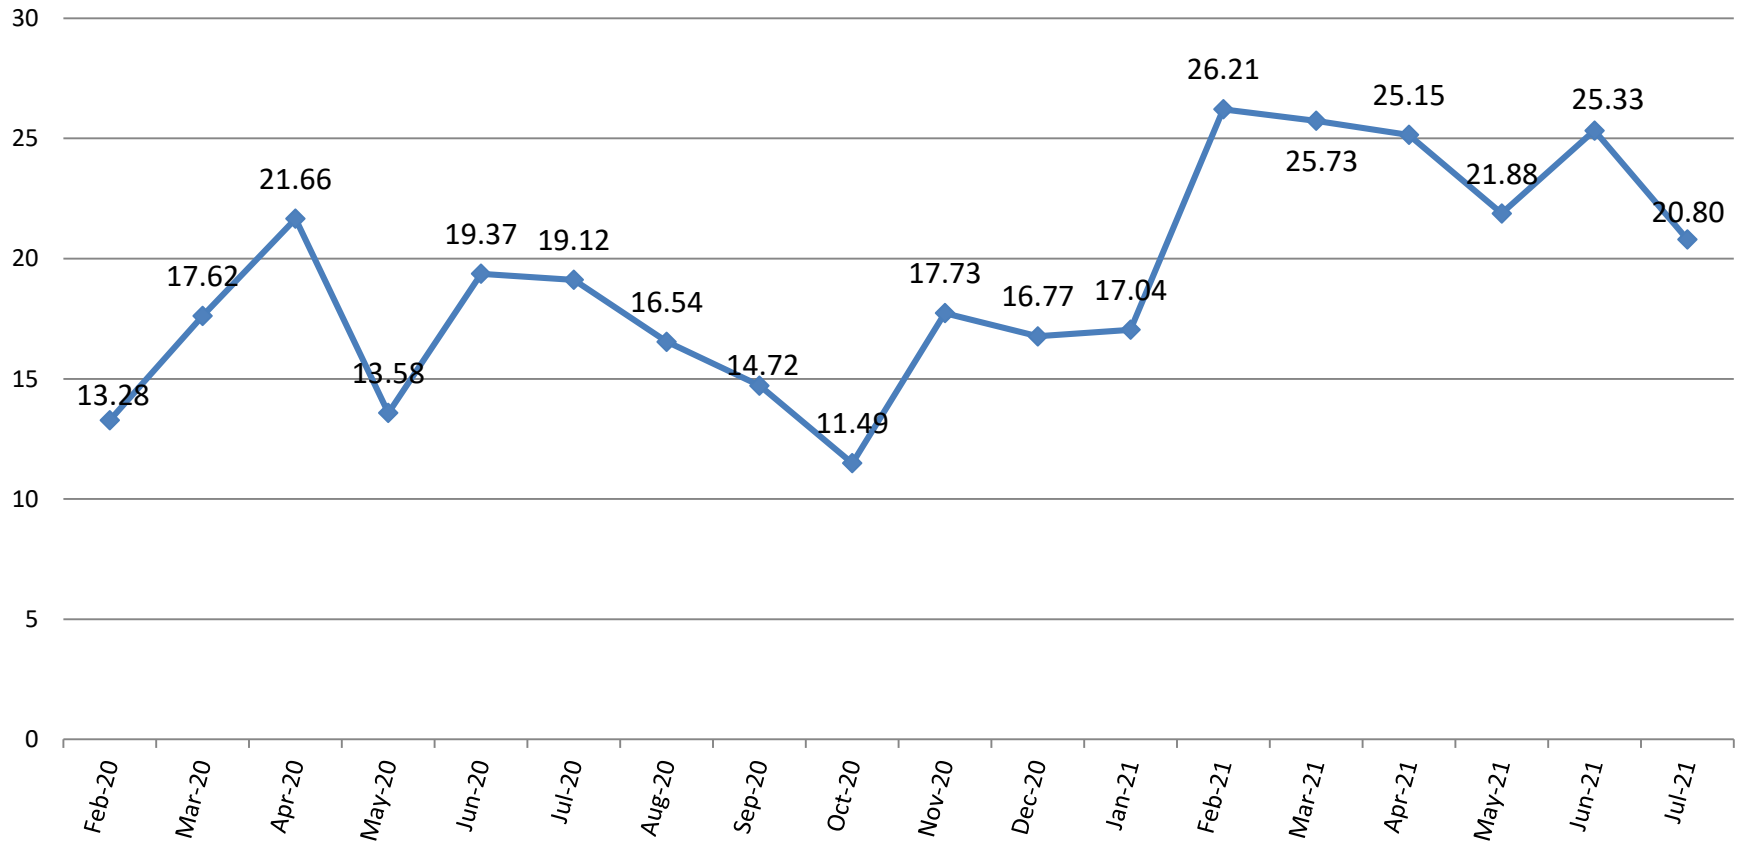

There were no forced releases in July.

Releases between 12 AM and 8 AM

In July, there were no releases between midnight and 8 am of sentenced or forced released individuals.

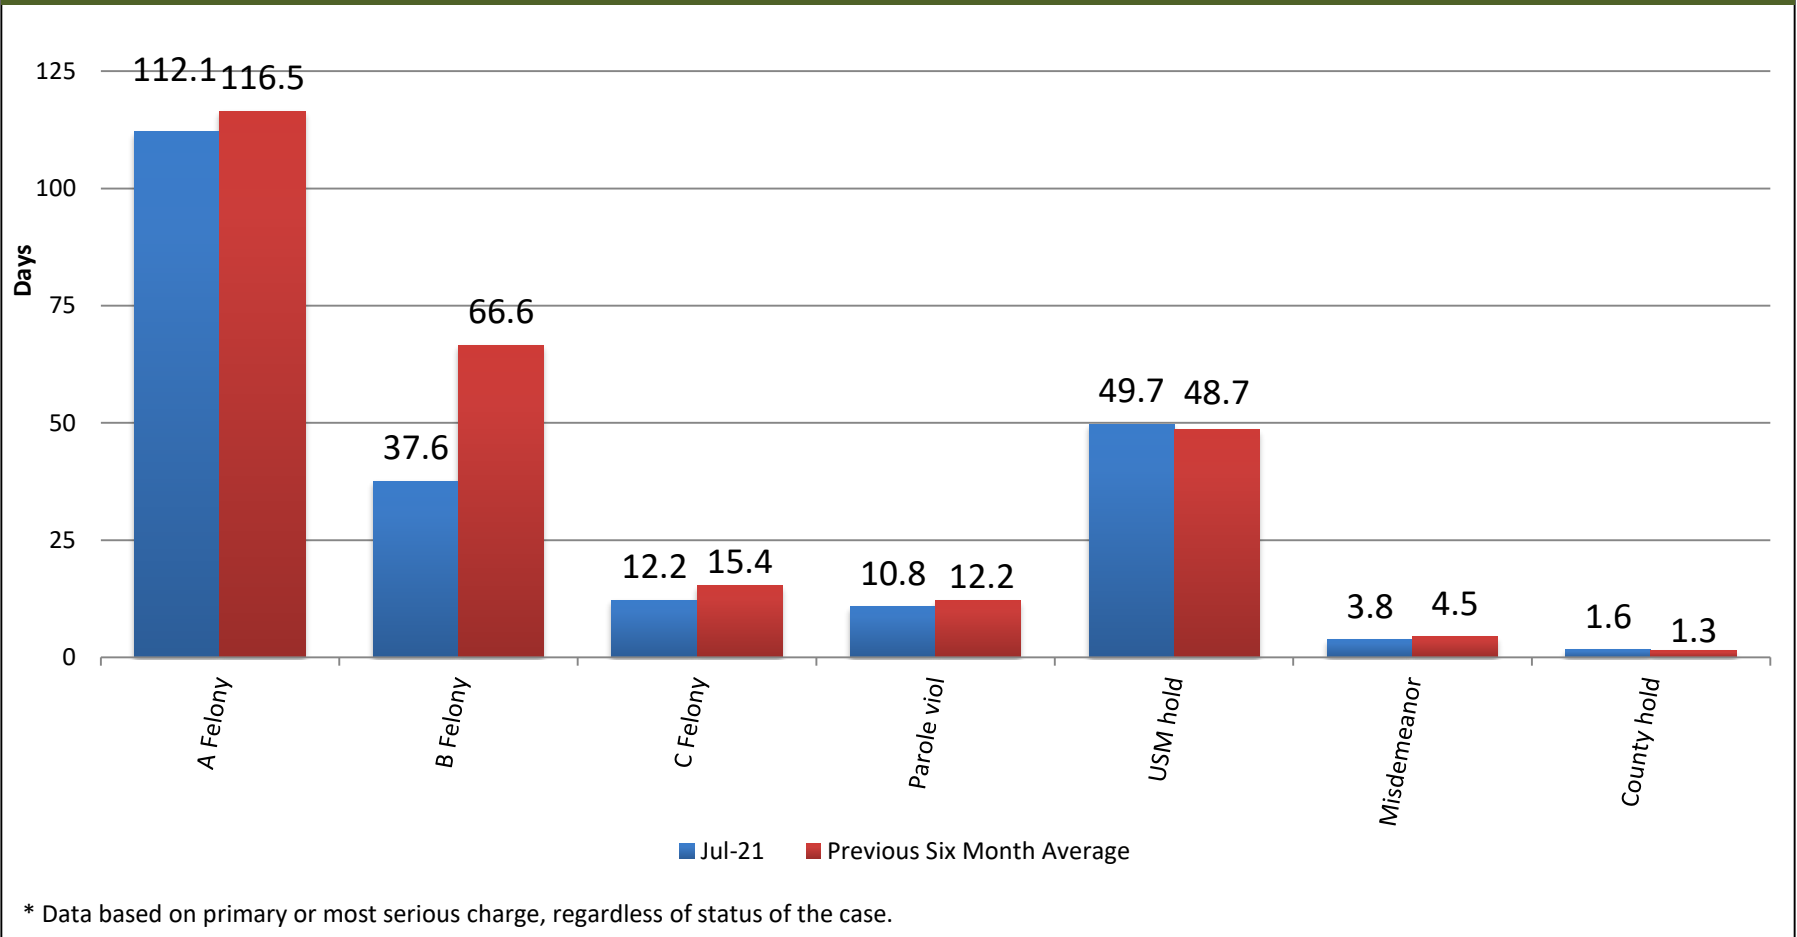

Average Length of Stay (in days)

The average length of stay was 20.80 days for people released in July.

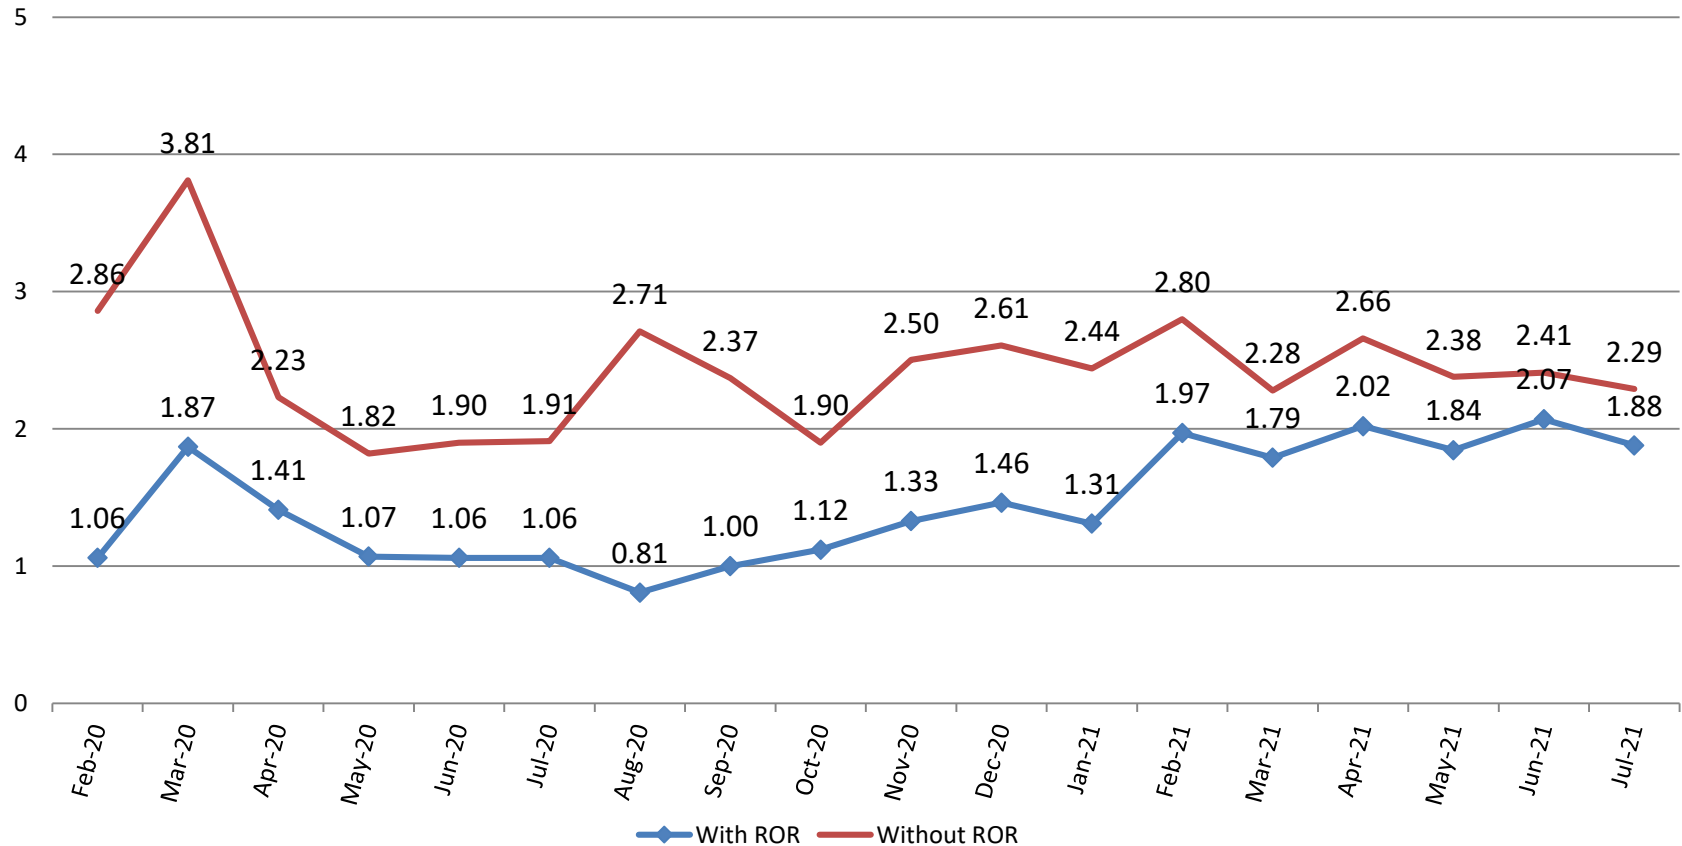

Average Length of Stay by Charge Priority

(for releases during the month)

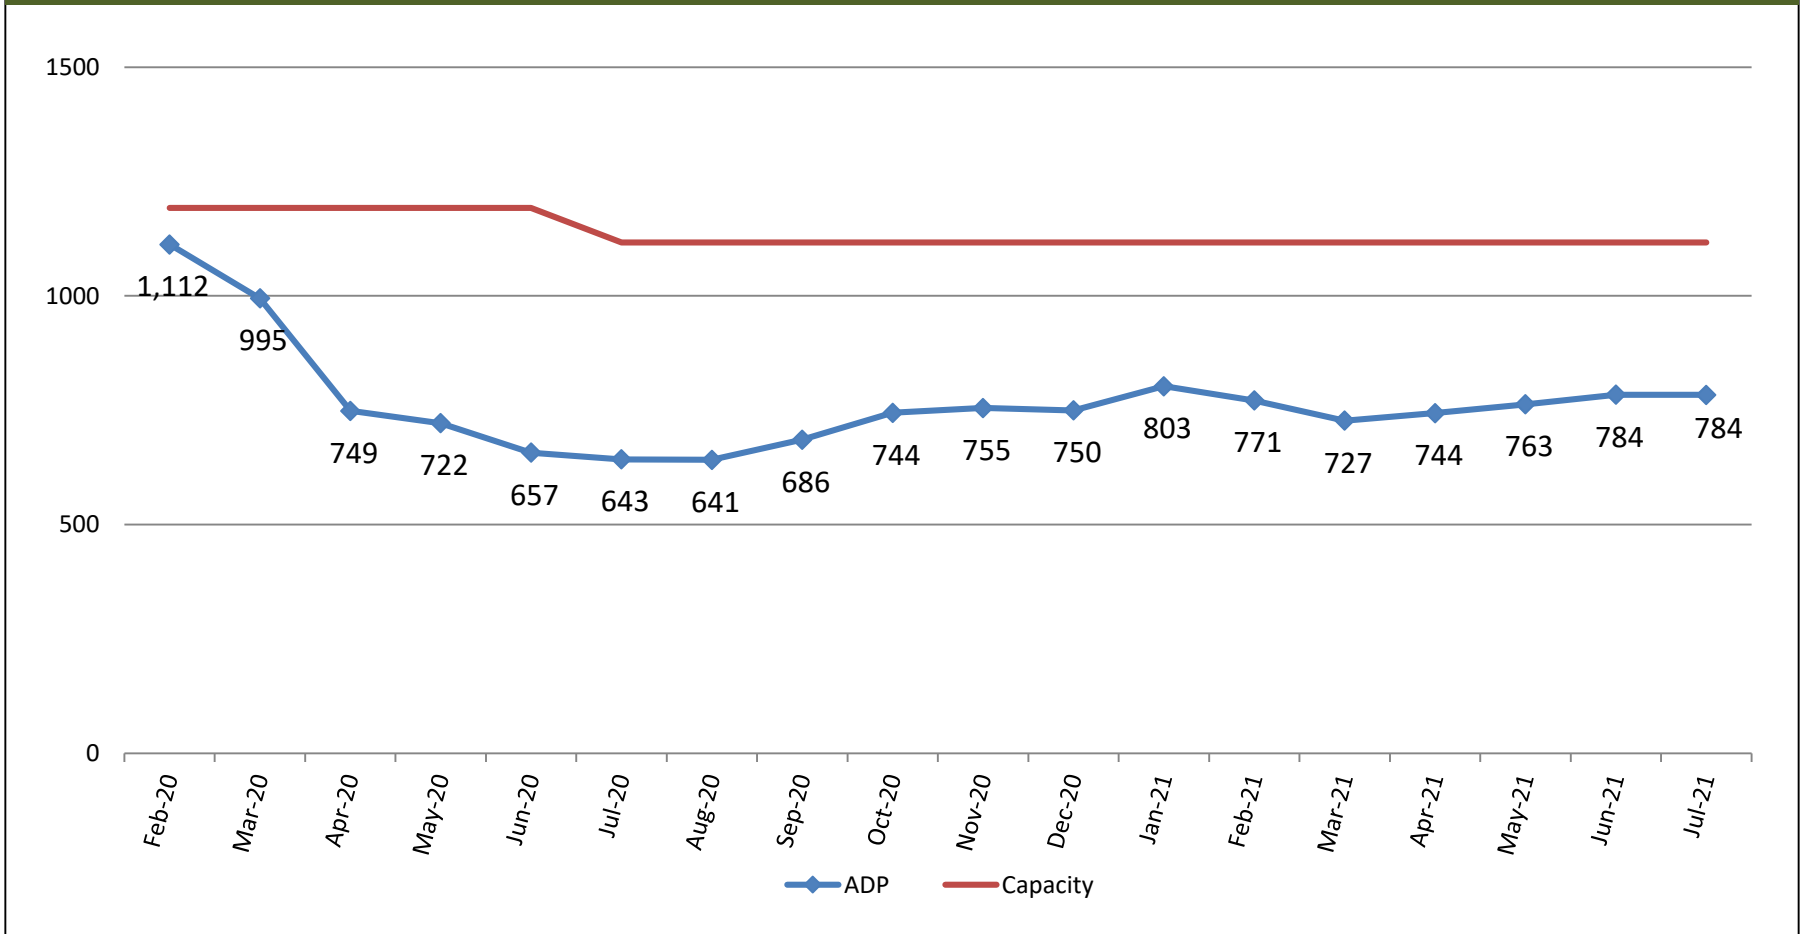

The average length of stay for releases in July was lower than the six month average for all categories except for US Marshal holds and County holds.

Median Length of Stay (in days)

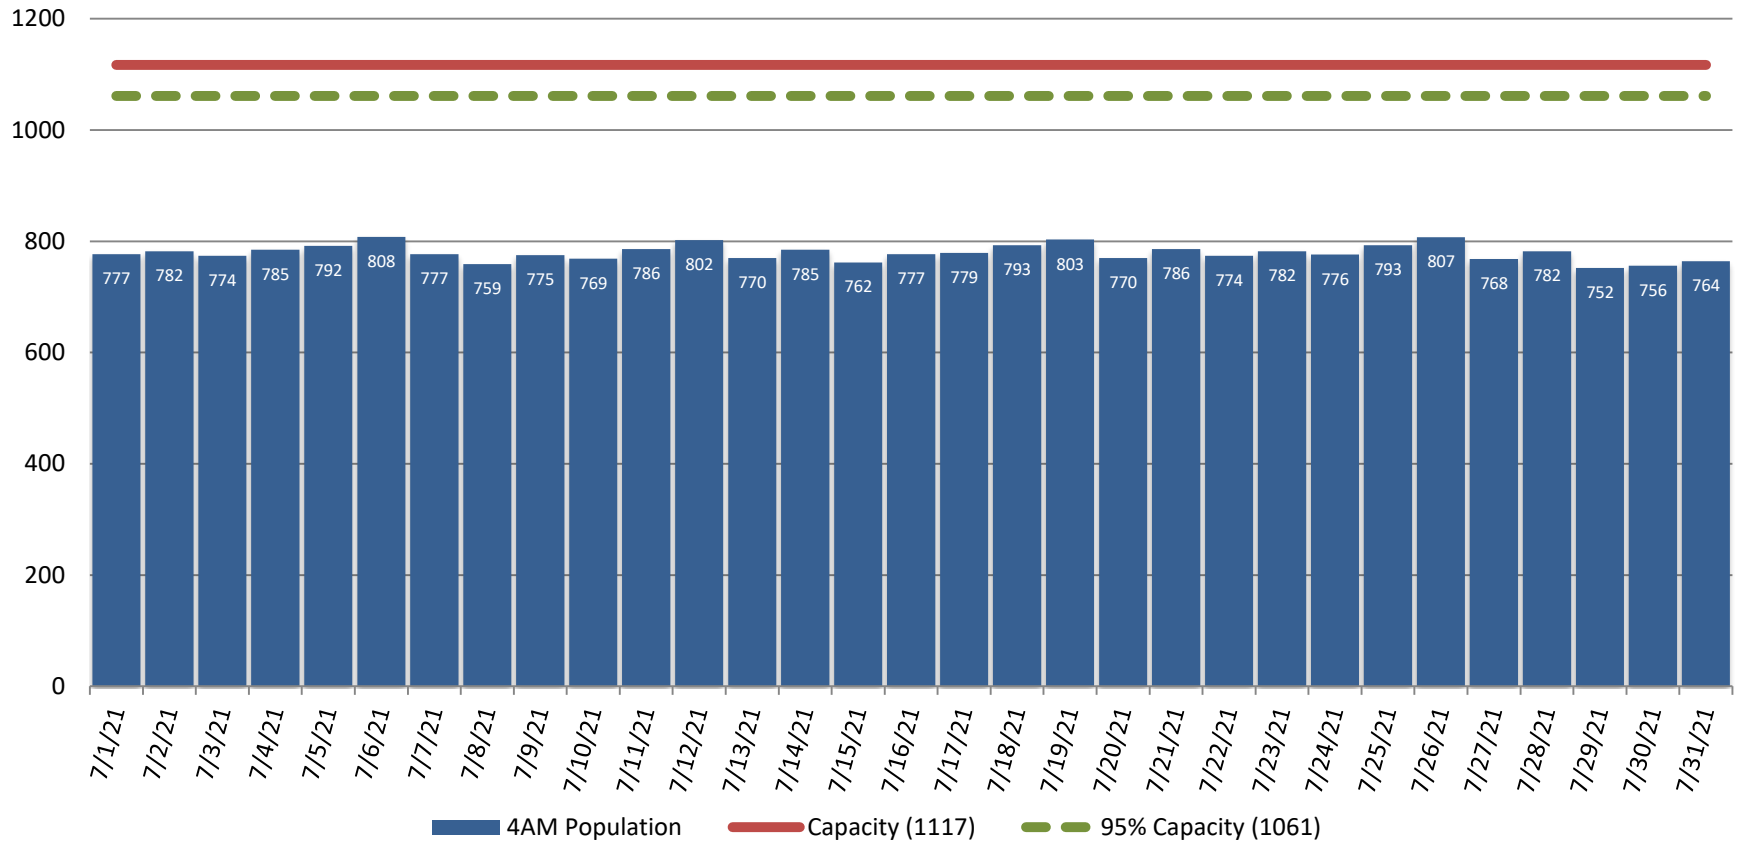

The median length of stay was 1.88 days for July releases. Removing Releases on Recognizance (ROR) results in a median length of stay of 2.29 days for releases in July.

Average Daily Population

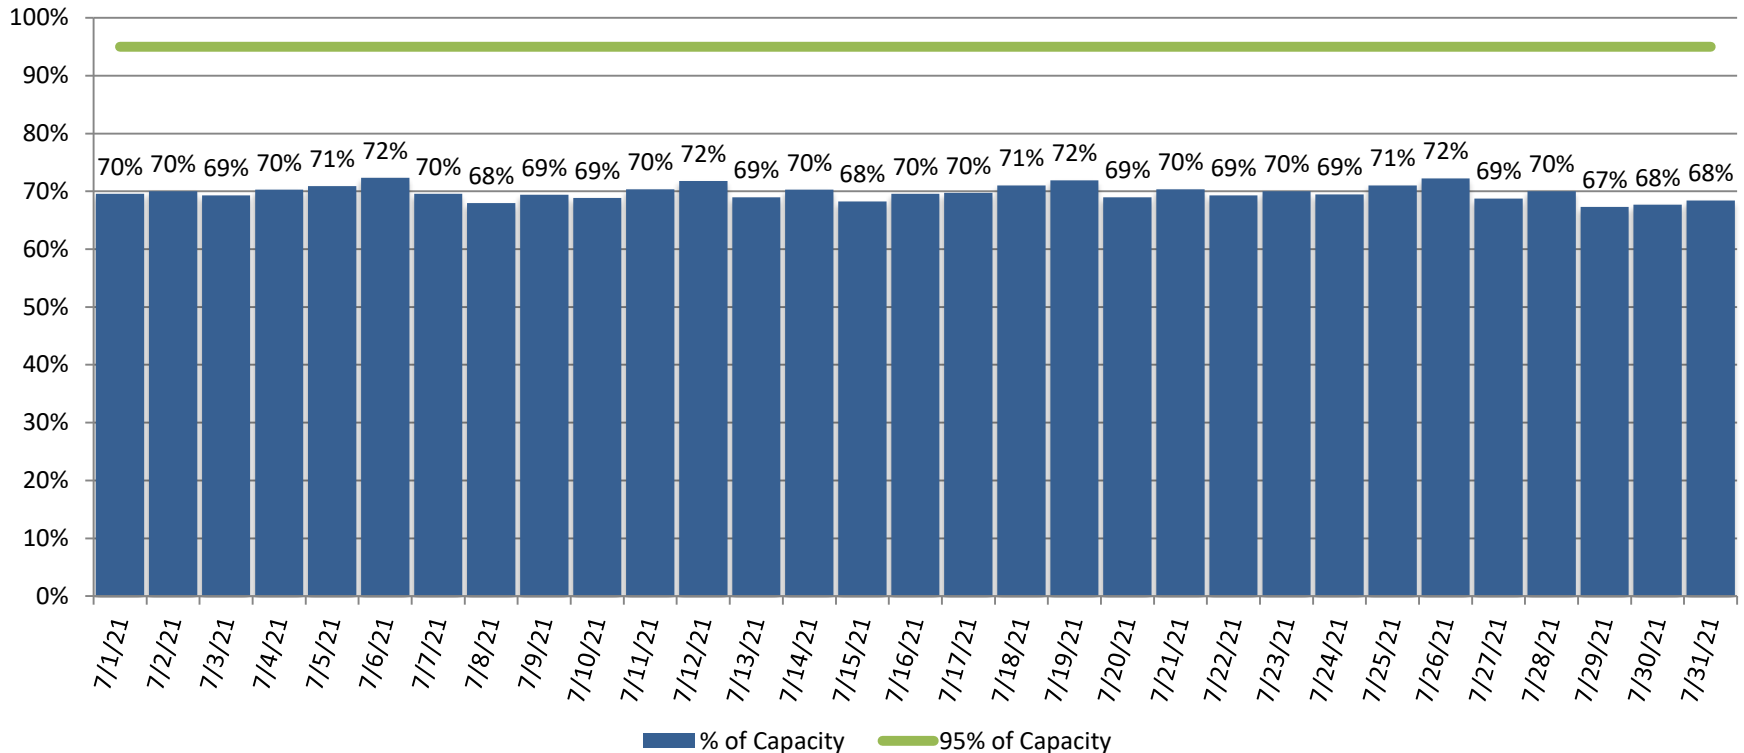

The average daily population in July was 784 which is 70% of the budgeted capacity.

Daily Population

The 4 AM daily population did not exceeded 95% of budgeted capacity in July.

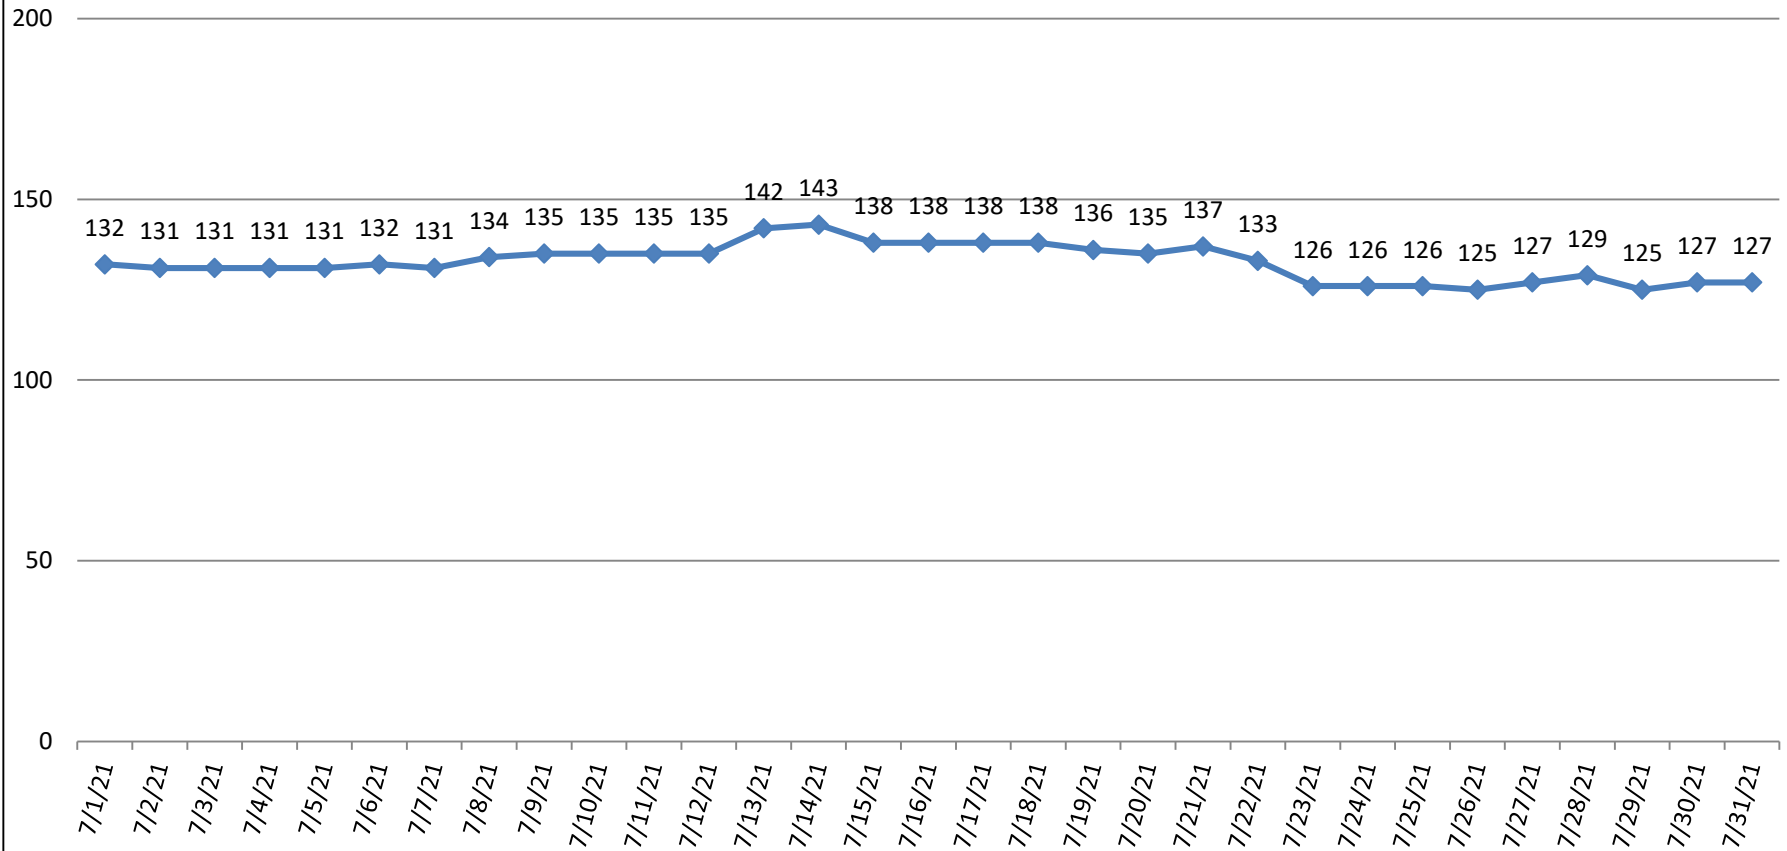

Percentage of Capacity by Day

* Red bars indicate days on which EPRs occurred. EPRs do not always or only occur when capacity exceeds the 95% threshold. Efforts are made to balance the population to the demands of the classification system for specific types of jail beds. Additionally, jail capacity varies throughout the day. These capacity calculations are based on 4 AM population counts.

On November 14, 2018, the Multnomah County Board of Commissioners adopted an amended Jail Capacity Management Plan. Renamed the Emergency Population Release Plan, the plan re-states the existence of a jail population emergency when the population exceeds 95% of capacity (1,117) and updates the processes established to resolve the emergency.

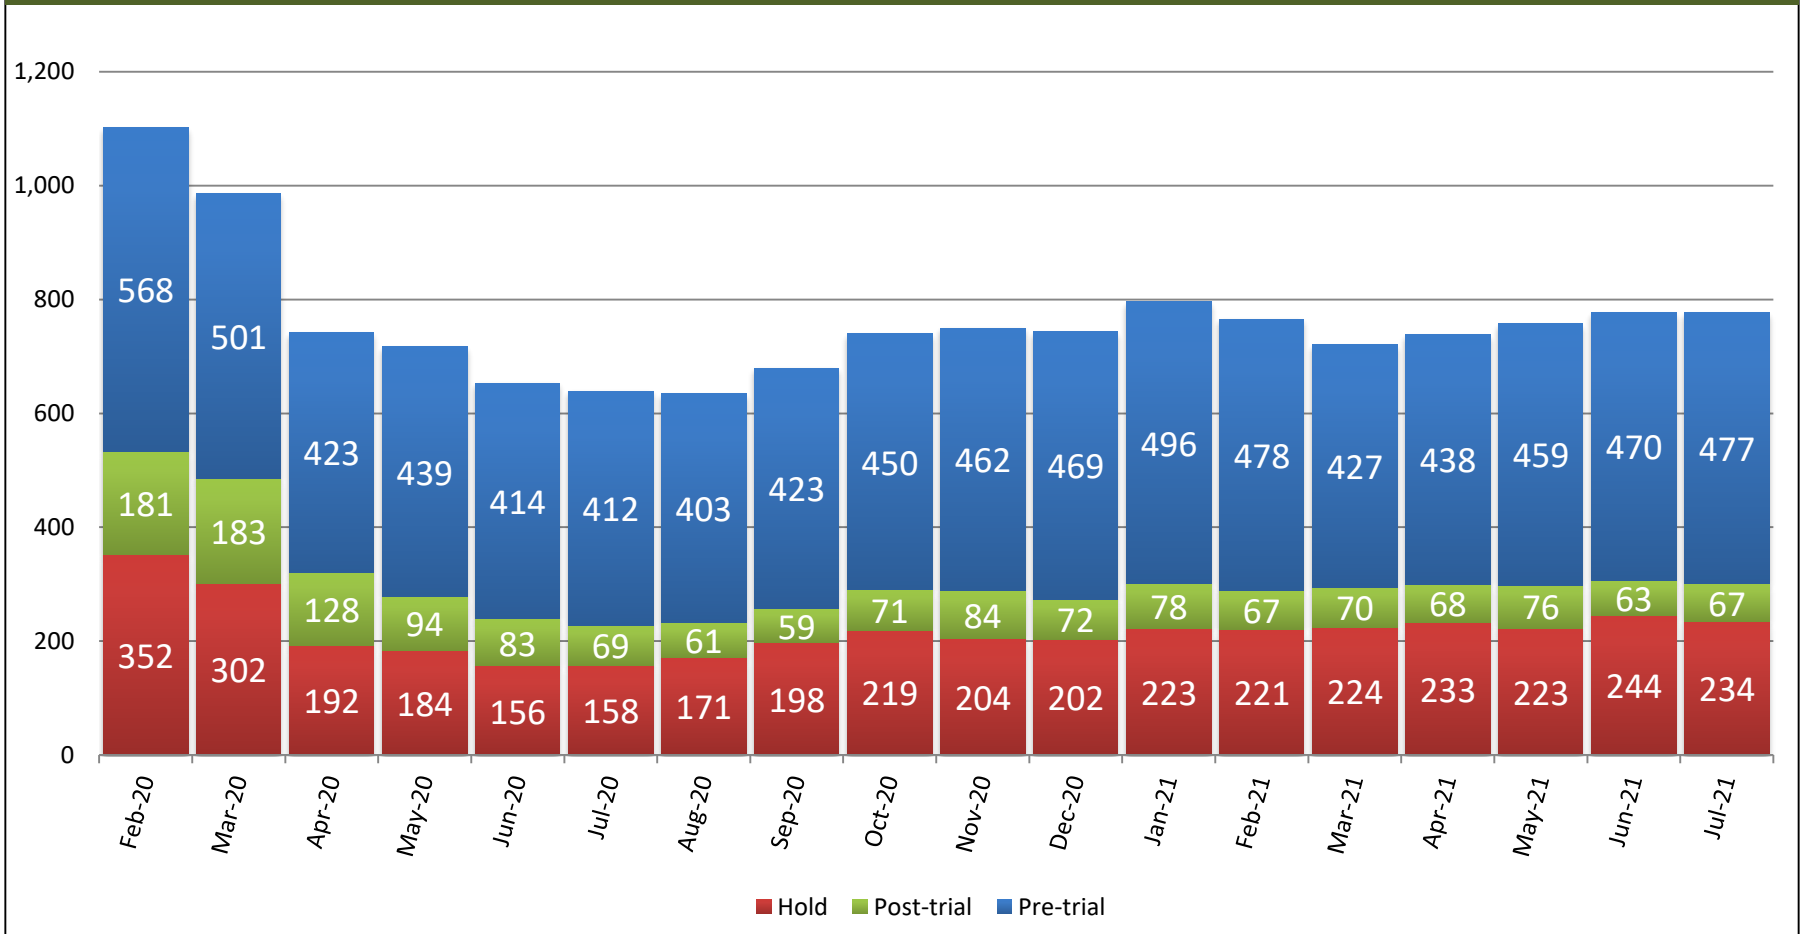

Daily Count of Exclusive U.S. Marshal Adults in Custody

July averaged 133 US Marshal adults in custody per day. As US Marshal counts per day may change over time, these data are as of August 3, 2021.

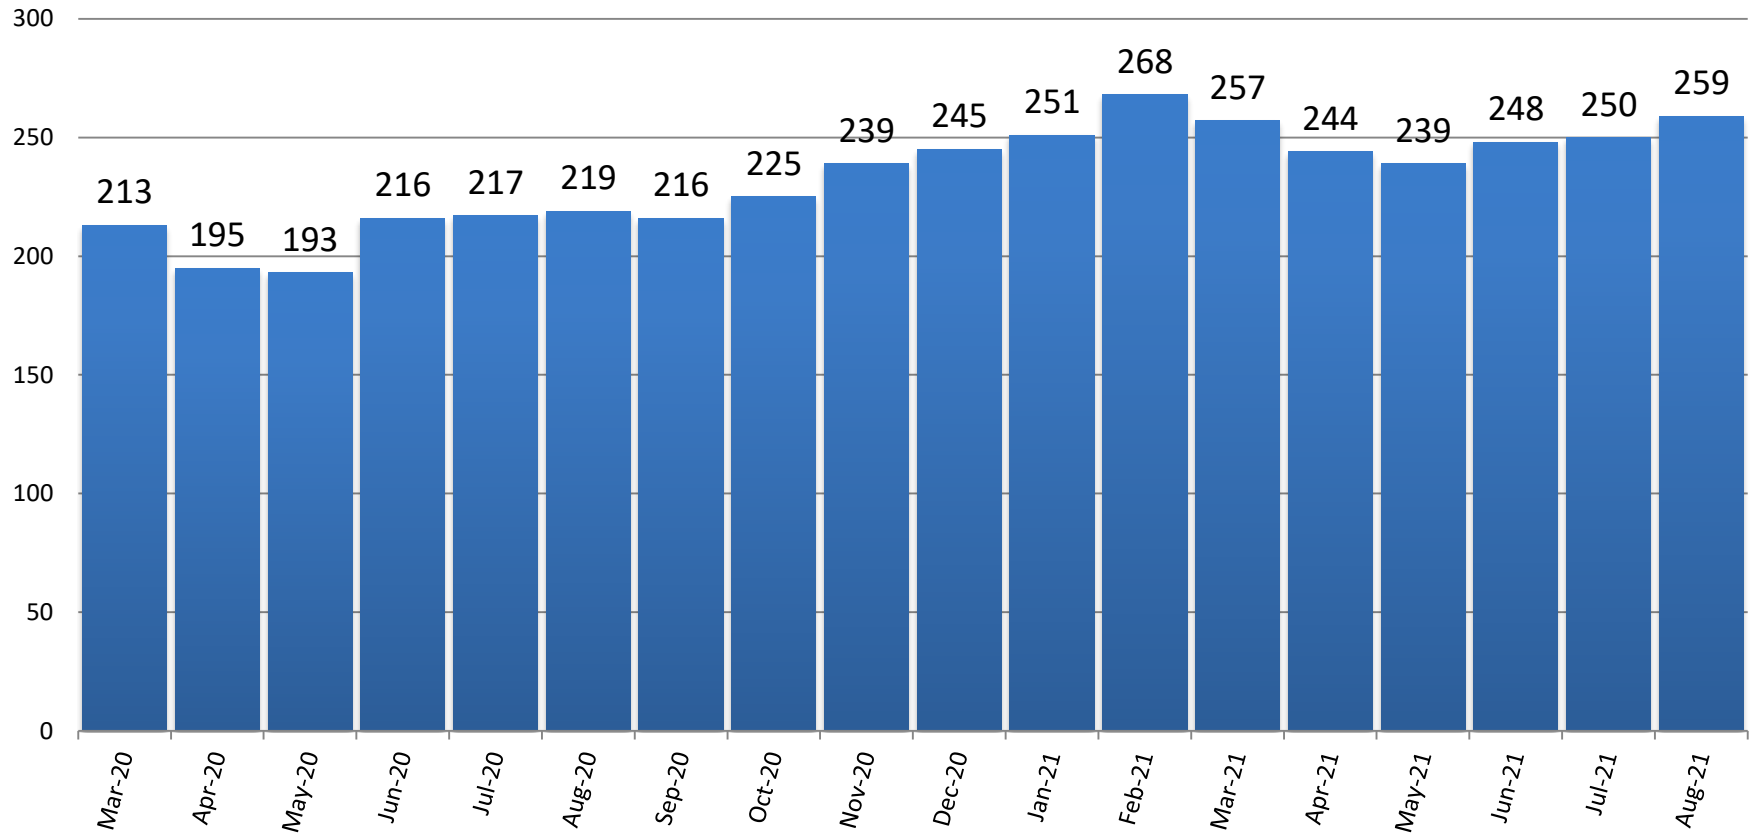

Pre-Trial vs. Post-Trial vs. Holds in Custody

Average Daily Population

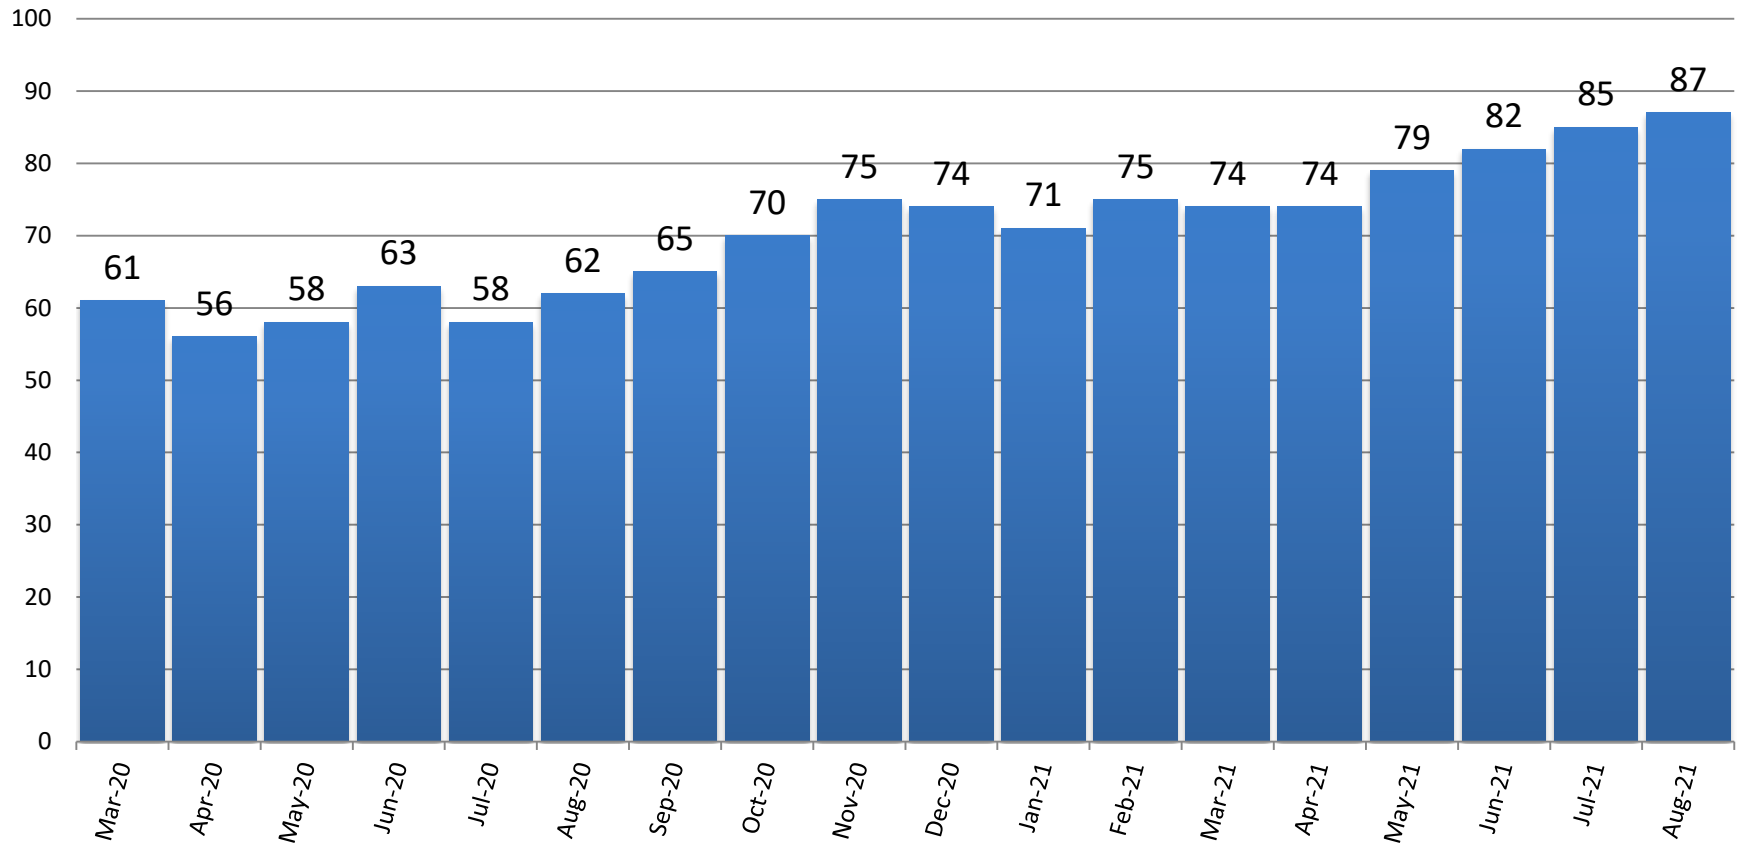

The average daily population of pre-trial and post-trial adults increased between June and July, while the average daily population of adults in custody with a hold decreased.

Count of Persons Held Pre-trial more than 150 Days on First Day of Month

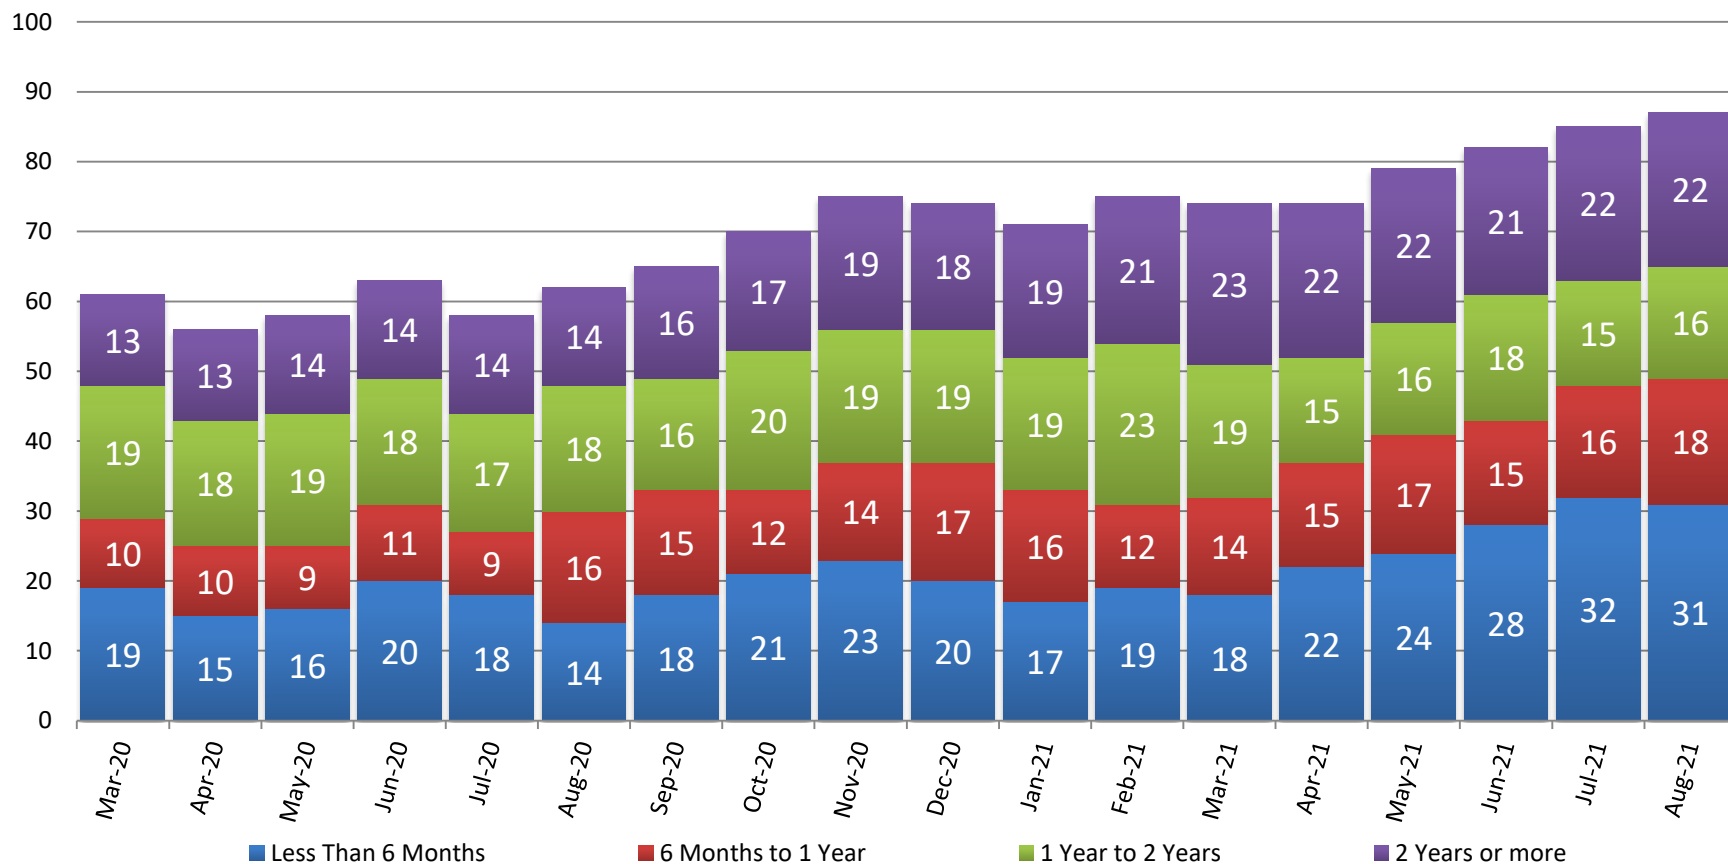

On August 1, 2021, 259 people were held in pre-trial custody for more than 150 days.

Count of Persons Held Pre-trial on Murder Related Charges on First Day of Month

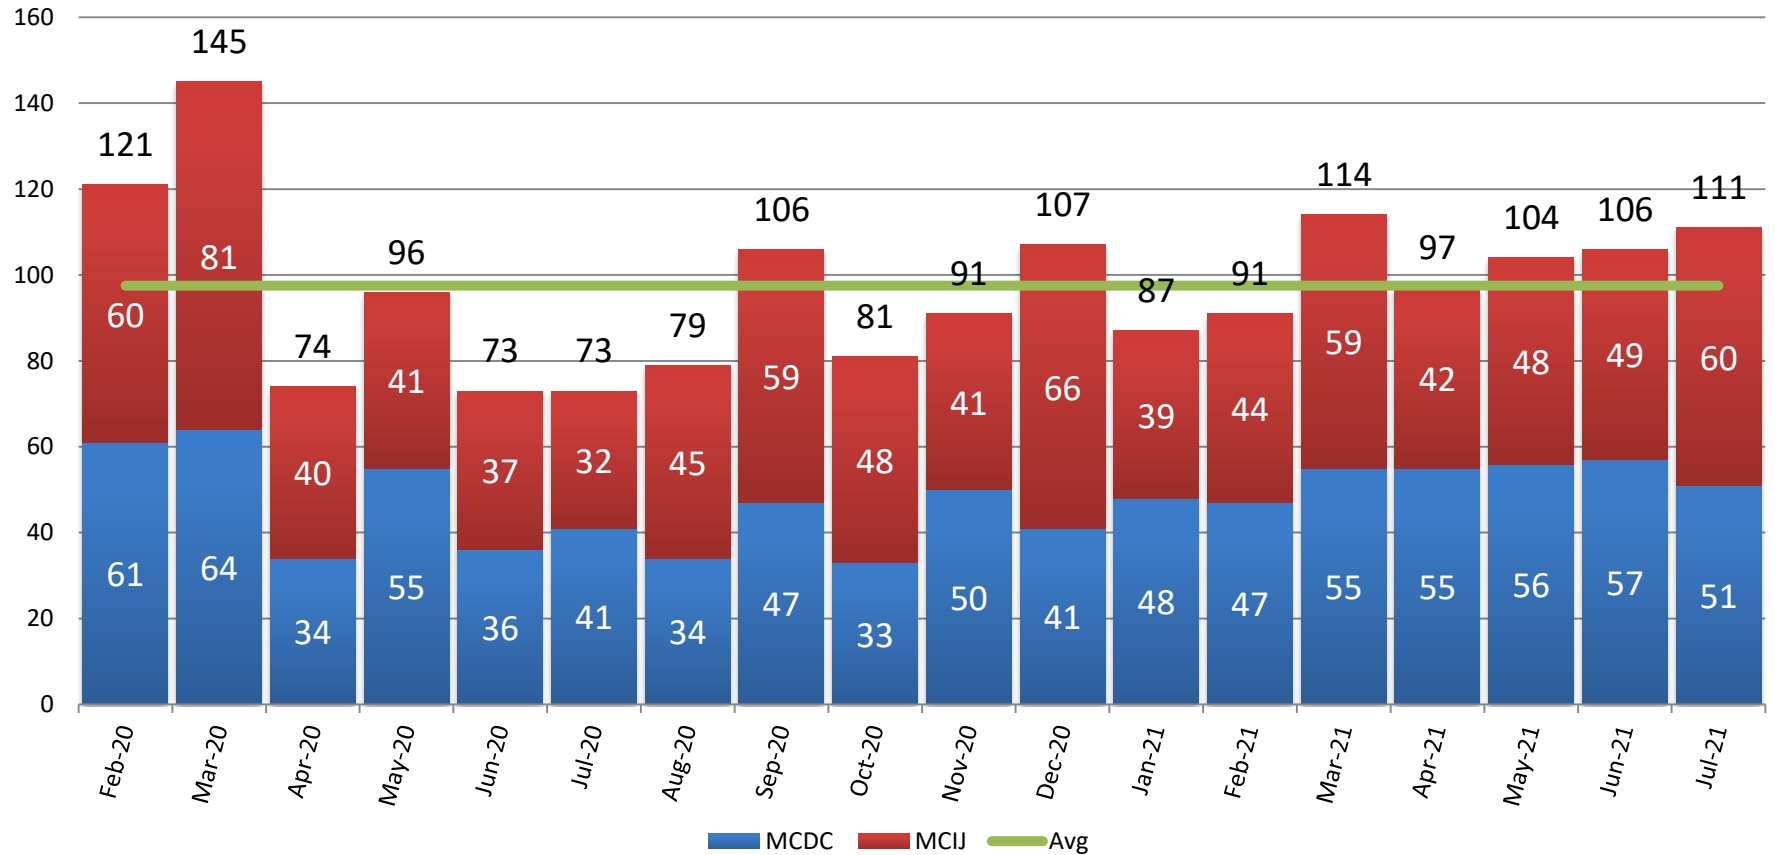

There were 87 people held pre-trial on murder related charges on August 1, 2021.

Count of Pre-trial Persons with Murder Related Charges by Length of Stay on First Day of Month

Persons held on murder related charges tend to have higher lengths of stay while awaiting the outcomes of their trials. Monitoring this group provides information about how quickly these serious charges are resolved.

Jail Misconduct Hearings

Tracking the number of misconduct hearings informs jail management about classification, housing, and other operational issues.
