

Request title:  
**Contract Register**

---

Reference Number: F2477  
Date of Response: 02/07/2020

Further to your Freedom of Information Act request, please find the Trust's response, in **blue bold text** below:

**Request and Royal Devon and Exeter NHS Foundation Trust  
Response**

I want to submit a request for some information from the organisation, in relation to their contract's register.

The contract register should display all the organisations existing/live contracts I would like the register to display the following columns/headings:

**Please find attached Excel sheet for the Trust response, and further details below.**

1. Contract Reference
2. Contract Title
3. Procurement Category
4. Supplier Name
5. Spend (Total or Annual)

**This information is commercially sensitive and its release would, or would be likely to prejudice the commercial interests of the Trust.**

**In applying the exemption under section 43(2) the Trust has had to balance the public interest in withholding the information against the public interest in disclosure. The Trust has considered all the relevant factors in the public interest test and has reached the conclusion that the benefit to the public in applying the exemption outweighs the public interest in releasing the information requested, as a result of the prejudices and losses that would potentially affect the Trust and patients. The release could jeopardise the company's future positions, which would cause a detrimental knock on effect on the market place, and would potentially limit the choices available to public authorities, including the Trust. This would potentially threaten the quality of products and services available to the Trust. The Trust considers that it is not in the public interest to do anything to undermine the competitive nature of the procurement process, and the disclosure of key information, as has been requested, could have that affect. The Trust believes that the consequences of releasing the information are serious and the likelihood of this occurring is high.**

**Therefore in conclusion, the Trust has reached the decision that the release of the information requested would be likely to be prejudicial to the commercial interests of the companies concerned and the Trust, and that the public interest in withholding the information is greater than the public**

interest in releasing the information, and as such the information is being withheld under section 43 (2) of the Freedom of Information Act.

6. Contract Duration

**Contract duration can be calculated from the Start and end dates**

7. Contract Extensions

8. Contract Starting Date

9. Expiration Date

10. Contract Description [Please provide me with as much detail as possible.]

11. Contact Owner (Full contact details if possible.)

**Directorate is listed. No personal contact details are recorded in the Register.**

12. CPV codes/ProClass

**This is not recorded in the Register**

### **Contract Data/API Contact Details**

13. Can you also provide me with contact details of the person responsible for the actual contract's register or someone responsible for API? [Name, Job Title, Telephone, Email Address] At the very least provide me with their actual job title.

*(Meaning of API "a set of functions and procedures that allow the creation of applications which access the features or data of an operating system, application, or other service.")*

**The register is maintained by the Procurement Department.**

**John Malloch is Head of Procurement, [john.malloch@nhs.net](mailto:john.malloch@nhs.net)**

**Where contact details are given for Trust staff in this response, notice is hereby given, under the Data Protection Act 2018, on behalf of the individual or individuals that this personal information may not be used for the purposes of direct marketing.**
