

# National Air and Space Museum Teacher Innovator Institute

## Goal Statements for Professional Growth

In the spaces provided, please indicate your goals for each of the defined categories. These goals should directly relate to your work as a STEAM educator and could reflect your interests, areas of growth, or a combination of both. During the summer institute, you will work to identify the steps you will take and the support you will need to achieve these goals. You may type or write directly on this form or submit a separate document.

**Name:**

### Part 1: Personal Goal

For this goal, consider your own professional development needs and interests. For example:

- Learning and applying content knowledge in a particular STEAM field
- Broadening your use of STEAM resources/technology
- Improving on your instructional practice in the classroom
- Building your leadership skills

**Personal Goal Statement:** This should reflect your work as a middle school STEAM educator and should be broad; your objectives/actions should be where you specify what you will do to work towards those goals.

**Why have you selected this as your Personal Goal?** Please provide us with your reasoning for selecting this goal. Limit your response to 100 words or less.

## **Part 2: Student-Based Goal**

For this goal, consider your impact on students and their impact on the classroom. For example:

- Building impactful and lasting relationships with students
- Providing opportunities for student-based learning experiences
- Promoting and exhibiting equitable learning experiences for all
- Learning ways to implement Social and Emotional Learning (SEL) in the STEAM classroom

**Student-Based Goal Statement:** This should reflect your work as a middle school STEAM educator and should be broad.

**Why have you selected this as your Student-Based Goal?** Please provide us with your reasoning for selecting this goal. Limit your response to 100 words or less.
